VIRCO 2016 WHOLESALE AND DEALER PRODUCT ASSORTMENT

This price list describes Virco's large selection of educational and institutional furniture, all of which are stocked, assembled, or made year-round at our factories in Conway, Arkansas, and Torrance, California. Furniture selected from this price list falls into one of three categories for order fulfilment: Stocked Models are generally ready to ship in 2-3 days from order acknowledgement; Assembled-to-Order Models are generally ready to ship in 2-3 weeks from order acknowledgement; while Made-to-Order Models are generally ready to ship in 4-8 weeks from order acknowledgement. Custom orders and orders that require a minimum purchase quantity may require additional manufacturing time. In addition, during the heavy summer months unusually high demand for a specific item may result in longer lead times.

TO OPEN AN ACCOUNT with Virco, a minimum initial order of $5,000 is required. Customers desiring an open line of credit are required to fill-out a credit application and submit a financial statement. This information will be reviewed to determine whether a credit line will be activated and what its size will be. Accounts with lower annual volume will be closed at year-end. Accounts closed for this reason may be reactivated at any time by placing a $5,000 order.

INVOICE TERMS for credit accounts are 1%, 10 days, or Net 30 days. Customers without a Virco credit line must submit payment at the time of order entry.

PURCHASE ORDERS

You can send purchase orders via email to orders@virco.com, by fax, or by phone. All purchase orders must include:

- Your complete billing information, including the billing address, the contact person and their phone number (If you know your Virco account number, please provide that as well)
- Complete shipping information (where the furniture should be sent) including physical address, the contact person and their phone number, and any special delivery requirements (may incur additional shipping charges)
- Requested delivery date range (extremely important - see below)

The requested delivery date is a required element of the order. Failure to indicate a delivery date will result in the order shipping as soon as it is ready. Indication of a delivery date that is earlier than the stated lead times for the items on the order will result in the order shipping as soon as it is ready. If a specific delivery date is needed, please indicate a range of dates that are acceptable as it may not be possible to deliver on a specific date. If an order cannot be received until a certain date, please indicate a "not before" date, with the understanding that the order can arrive anytime after that date and will not necessarily arrive the next day. During our peak season of July and August, delivery dates may be extended due to heavy demand for both product and transportation. Accepting orders as soon as they are ready is the best way to ensure your order is fulfilled.

If you are seeking the fastest delivery times, order products from different groups (Stocked Models, Assembled-to-Order Models, Made-to-Order Models) on different purchase orders. Orders with product from mixed groups will be shipped when complete, which will be at the longest model lead time. Any orders for Stocked models only will be shipped as soon as possible, unless otherwise requested. Due to the quick turnaround of these orders, no shipping notification will be provided. Sorry, but we cannot accept C.O.D. orders. We do accept Visa, Master Card, American Express, and Discover as forms of payment.

All orders are confirmed with a printed acknowledgement, which is mailed (or e-mailed on request) to the sold-to address within two days of receipt. Please check the acknowledgement carefully to ensure that your order has been entered correctly. We will make every effort to accommodate requested delivery dates. Some orders may ship sooner than our stated lead-times, especially during winter, spring and fall. Summer lead-times may extend one or two weeks longer than normal. Please note critical delivery dates, such as openings or special events, on your purchase order. This is essential to help us manage your end user's expectations.

WHOLESALER/DEALER ORDER INFORMATION

WILL-CALL ORDERS

Will-call orders will be accepted only for merchandise normally stocked at the designated warehouse or distribution center.

Will-call orders will be held for 30 days after Virco has notified the customer that merchandise is ready for pick-up. After 30 days, Virco reserves the right to release such merchandise for other orders.

F.O.B. FACTORY SHIPMENTS/FREIGHT COLLECT

Title changes hands at shipping point upon tender of shipment to carrier in good condition. All charges for freight are paid by the customer or beneficial owner. Claims for loss or damage in transit are resolved by the carrier and the customer or beneficial owner.

F.O.B. DELIVERED SHIPMENTS/FREIGHT PREPAID

Title changes hands at the delivery point upon receipt in good condition. Virco pays freight charges and resolves all claims for loss or damage in transit.

PREPAID AND CHARGE AND PREPAID SHIPMENTS

Virco reserves the right to select at its sole discretion the most economical mode of transportation. Instructions for use of a specific carrier will be honored only when shipping costs are comparable to Virco's normal method of shipment.

LOSS OR DAMAGE IN TRANSIT

Virco will honor requests for credit due to loss or damage in transit only when terms of sale are F.O.B. Delivered.

CHANGES OR CANCELLATIONS OF ORDERS

Purchase orders acknowledged by Virco Inc. cannot be changed or cancelled without Virco Inc.'s consent, which consent may be conditioned upon Customer's agreement to pay increased or additional expenses resulting from the requested change or cancellation, including but not limited to a twenty-five percent (25%) cancellation charge if order is cancelled or changed within a minimum of twenty (20) days prior to expected delivery date as acknowledged. Products with custom options cannot be cancelled or returned.

MERCHANDISE RETURNS

No merchandise will be returned by customers without the express written approval of the Conway or Torrance factory. Unauthorized returns will be refused and returned to customer at customer's own expense.

DELIVERY OPTIONS

- WILL Call F.O.B. FACTORY is the standard delivery option for wholesalers and dealers. Most wholesale and dealer partners select F.O.B. Factory pricing and arrange their own freight. When a Will Call order is ready, you will be contacted to schedule an appointment for pickup. Once the appointment is set, Virco will stage the product for pickup. Virco's Will Call does not include loading of the product. Our dock hours are 8:00 a.m. – noon, and 1:00 – 3:00 p.m., Monday through Friday. All Will Call orders are staged and held for one day. If you miss your scheduled appointment, Virco may choose to restock your order, which would require you to reschedule your appointment. Will Call privileges may be revoked due to excessive missed appointments.

For those who desire additional service, we offer the following options:

- DROP SHIPMENTS are available at F.O.B. Factory pricing for a $250.00 minimum surcharge on orders under $1,000. For orders over $1,000 a 20% or $200.00 minimum surcharge will apply. Drop Shipments also require contact names and phone numbers at both the end user and billing address. Please remember that many end users are not familiar with commercial shipping procedures or the demands of handling heavy furniture.

- TAILGATE DELIVERY is available for a $250.00 minimum surcharge on orders under $1,000. For orders over $1,000 a 20% or $200.00 minimum surcharge will apply. Tailgate Delivery assumes consolidation and does not allow for partial line item shipments. Additional shipping and handling charges will apply to partial shipments, if necessary.

  Tailgate delivery means that the driver is responsible for moving the goods to the tailgate of the truck only. Therefore, you must have personnel on hand to unload the truck. We can arrange for 24 hours advance notice of the delivery at your request.

FedEx

Items with an (*) in the FedEx column of this price list may be shipped via FedEx as of January 1, 2016. FedEx periodically changes their shipping terms and conditions. We recommend that you refer to the FedEx website at www.fedex.com for the latest policy.

WHOLESALER/DEALER ORDER INFORMATION

REDELIVERY AND RESTOCKING CHARGES

When consignees refuse or are unable to accept delivered orders, we will charge 100% of the original freight cost plus demurrage charges to redeliver the order. Returned orders are subject to a minimum 20% restocking fee. Merchandise returns can only be accepted with prior authorization from Virco's Customer Service Department; moreover, all returned items must be unused and still in their original packaging. Authorization to return merchandise must be approved by Virco Customer Service no later than 90 days after initial delivery. We do not accept returns of custom-made products, and we will refuse returns that are submitted without prior authorization from Virco Customer Service.

STEPS TO TAKE WHEN RECEIVING SHIPMENTS

VERIFY COUNT

Make sure you receive as many cartons as are listed on the delivery receipt. If any shortage is discovered, note exactly how many cartons are short on the carrier's delivery receipt and have the driver note the shortage on your copy.

CAREFULLY EXAMINE EACH CARTON FOR DAMAGE

If damage is visible, note this fact on the delivery receipt and have the driver clearly note the damage on your copy. If you suspect that the carton contents may be damaged, insist that the driver remain present while you open the carton and jointly inspect the contents. Any concealed damage discovered should also be noted on the delivery receipt and on your copy. Be sure to retain your copy.

IMMEDIATELY AFTER DELIVERY, OPEN ALL CARTONS AND INSPECT FOR CONCEALED DAMAGE

All cartons should be opened and contents inspected for possible concealed damage.

REPORT ANY PROBLEMS TO VIRCO CUSTOMER SERVICE IMMEDIATELY (800-448-4726)

If damage is found, details should be reported to Virco immediately. According to ICC regulations, failure to report concealed damage within 5 calendar days of the delivery date could result in the carrier denying the claim and any replacement costs may be your responsibility.

STEPS TO TAKE WHEN CARRIER MAKES INSPECTION OF DAMAGED ITEMS

HAVE DAMAGED ITEMS IN THE RECEIVING AREA

Make certain that the damaged items have not been moved from the receiving area. Allow the inspector to inspect the damaged items, cartons, inner packing materials and freight bill. Be sure to retain your delivery receipt since it will be needed as supporting documentation when the claim is filed.

AFTER THE INSPECTOR FILLS OUT THE REPORT, READ IT CAREFULLY BEFORE SIGNING

If you do not agree with any statements made by the inspector on the report, do not sign it. Unless repairs will be completely satisfactory, be sure the inspector requests replacement on the inspection report. A new item can be ordered only if the report specifies "replace."

CONTINUE TO RETAIN DAMAGED MERCHANDISE

Even though the inspection has been completed, damaged items cannot be used or disposed of without written permission from the carrier or Virco. After the claim has been settled, the carrier will either pick-up the damaged items or send a letter asking you to dispose of the merchandise.

COLORS, FINISHES & LEAD-TIMES

Virco's extensive product solutions – including custom engineered solutions – are available in a wide range of colors and finishes with corresponding lead-times as described below.

STOCKED MODELS (formerly QUICK SHIP)

- Specific models and color combinations for expedited delivery.
- Stocked Items are in stock and ready to ship quickly, usually in 2 - 3 days.
- To ship in 2 - 3 days, all models on an order must be from the Stocked list. If any item is not from the Stocked list, the entire order will be shipped at the time the longest lead item is ready.
- Stocked Models selections shown on pages 2 to 10 of this price list.

ASSEMBLED-TO-ORDER (formerly CLASSROOM BASICS)

- Expanded products and color combinations.
- ASSEMBLED-TO-ORDER Models are assembled upon receipt of an order from components we stock and are usually ready to ship in 2 - 3 weeks.
- Assembled orders must consist exclusively of Stocked and/or Assembled Models and color combinations, otherwise the lead time will be extended.
- ASSEMBLED-TO-ORDER models selections shown on pages 12 to 43 of this price list.

VIRCO'S FULL PALETTE OF COLORS, FABRICS, LAMINATES AND FINISHES (MADE-TO-ORDER Models)

Virco's full palette of standard colors and finishes as shown on pages xi - xii of this price list.

- Models not included in Stocked or Assembled are Made-to-Order (Made) and are usually ready within 4 - 8 weeks from order placement.
- Optional upholstery listed on page xiii may be subject to extended lead-times depending on the material suppliers inventory and/or production schedule.
- MADE-TO-ORDER models selections shown on pages 46 to 216 of this price list.

CUSTOM COLORS, FABRICS, LAMINATES, FINISHES, AND MINIMUM ORDERS

- In addition to our Stocked and Assembled palettes, we offer a broad range of colors and finishes which are available in minimum order quantities (varies by model) and/or with a set-up fee ($250 - $1000).
- Because of the capabilities and processes available in our U.S. Factories, we have the ability to do custom color matches from samples or swatches with minimum quantities and a set-up fee (varies by model).
- On wood-substrate tables and laminated work surfaces, we offer custom patterns and edge treatments, including logo designs and school mascots with minimum quantities and a set-up fee (varies).
- Custom finishes are quoted on a project-by-project basis and require purchase of complete production including any over-runs.
- Please contact your Virco sales representative for more information.

CUSTOM ENGINEERED SOLUTIONS

- In some cases, your project may require customized engineering solutions. This is sometimes the case in refurbishment or retrofit projects, where a certain number of furniture pieces – including modified versions of standard products – have to fit into an 'as-built' pre-existing space.
- Our in-house engineers and domestic factories are uniquely positioned to design, prototype, and test such solutions, to help insure that your custom requirement also meets BIFMA industry standards for safety and reliability, as well as Federal ADA guidelines and standards.
- Custom Engineered Solutions are quoted on a project-by-project basis and require minimums, set-up fees, and extended lead-times.
- Please contact your Virco sales representative for more information.

6000 SERIES FOLDING TABLES

Tubular steel legs. Models are available with a ¾" thick particleboard-core top with a fused-on melamine surface and ¾" profile T-mold edge banding.
The folding mechanism includes a gravity-fed safety lock. Because the safety lock is permanently attached, a formed tab on the lock arm permits the hinge to fold in only one direction. Spring clips are formed from tempered steel to accept the cross brace of the leg unit. Each spring clip is housed in an injection-molded polyethylene shell to help protect hands from sharp edges. Each table has two spring clips.
Patented steel aprons consists of four machine formed steel segments with no exposed sharp edges. The outer edge is rolled to form a strong and smooth flange. Apron ends are inserted into patented corner supports formed of injection-molded polyethylene which completely enclose the ends of the steel aprons. A high-impact stacking bumper attaches to the outer edge of the corner support to facilitate stacking. Metal surfaces are available with a powder coat finish.

MT SERIES MOBILE TABLES

Tubular steel frame, 29" table height. Tops are available with a ¾" thick particleboard-core high-pressure laminate work surface with ¾" profile T-mold edge banding. Models are also available with work surfaces that have an optional urethane-based Sure Edge® finish. Nylon-base self-leveling glides. In the folded position, tables rest on four 3" swivel casters. The tables open and close in one operation. A safety device is built into the folding mechanism to help prevent pinching when tables are opened. A secondary safety release mechanism is incorporated to complete the opening of tables. The center hinge operates vertically in order to self clean and minimize trapping of food. Metal surfaces are available chromed or with a powder coat finish.
Service Life Recommendation: In order to extend the torque life of MT Series tables with torsion bars, Virco recommends that customers store their tables in an upright position when not in use. When cleaning Virco mobile tables, Virco recommends that their high-pressure laminate surfaces be wiped down as needed with a damp cloth or sponge and mild detergent or soap; this recommendation also applies to plastic stool seats, and to metal surfaces with a chrome or powder coat finish.
IMPORTANT: Never use a power washer to clean Virco mobile tables. Tables are intended for indoor use.
Warranty Note: MT Series tables are covered by Virco's 10-year warranty; however, torsion bars used on these tables are covered by a 5-year warranty. Virco recommends that torsion bars be inspected for torque strength frequently.

The tables also have a torsion bar for ease of operation, and are free-standing when closed. Tops and benches are available with a ¾" thick particleboard-core high-pressure laminate work surface with ¾" profile T-mold edge banding. Tops and benches are also available with an optional urethane-based Sure Edge® finish. In the folded position, tables rest on four 3½" swivel casters. Middle legs have a 1" rubber crutch tip. The table automatically locks in the open and closed positions. The center hinge operates vertically in order to self clean and minimize trapping of food. The top support apron is available with a powder coat finish. The undercarriage is available fully chromed or with an optional powder coat finish.
Optional Edge Finish: Virco's custom Sure Edge finish is offered as an option for table tops and benches. The Sure Edge finish consists of a urethane-based protectant that is bonded chemically to the substrate of the top or benches. The tamper-resistant Sure Edge finish, applied with an innovative anti-bacterial process for enhanced cleanliness and hygiene, functions as an effective moisture barrier, which seals the substrate of a top or bench between its high-pressure laminate surface and backing sheet. The Sure Edge finish has no gaps or seams, preventing food particles from lodging in table-top or bench-top edges. Models with a Sure Edge top finish include the letters AE. Models with a Sure Edge finish for tops and benches include the letters AEB.
Service Life Recommendation: In order to extend the torque life of MTB Series tables with torsion bars, Virco recommends that customers store their tables in an upright position when not in use. When cleaning Virco mobile tables, Virco recommends that their high-pressure laminate surfaces be wiped down as needed with a damp cloth or sponge and mild detergent or soap; this recommendation also applies to plastic stool seats, and to metal surfaces with a chrome or powder coat finish.
IMPORTANT: Never use a power washer to clean Virco mobile tables. Tables are intended for indoor use.
Warranty Note: MTB Series tables are covered by Virco's 10-year warranty; however, torsion bars used on these tables are covered by a 5-year warranty. Virco recommends that torsion bars be inspected for torque strength frequently.

6000 SERIES FOLDING TABLES

Tubular steel legs. Models are available with a ¾" particleboard-core top with a fused-on melamine surface and ¾" profile T-mold edge banding.
The folding mechanism includes a gravity-fed safety lock. Because the safety lock is permanently attached, a formed tab on the lock arm permits the hinge to fold in only one direction. Spring clips are formed from tempered steel to accept the cross brace of the leg unit. Each spring clip is housed in an injection-molded polyethylene shell to help protect hands from sharp edges. Each table has two spring clips.
Patented steel aprons consists of four machine formed steel segments with no exposed sharp edges. The outer edge is rolled to form a strong and smooth flange. Apron ends are inserted into patented corner supports formed of injection-molded polyethylene which completely enclose the ends of the steel aprons. A high-impact stacking bumper attaches to the outer edge of the corner support to facilitate stacking. Metal surfaces are available with a powder coat finish.

Two tubular steel leg columns, die-cast aluminum feet and 3" diameter ABS glides. Models are available with a 1⅛" thick particleboard-core high-pressure laminate work surface with 1⅛" profile T-mold edge banding. Metal surfaces are available chromed or with a powder coat finish.
Optional Grommets: Selected work surfaces are equipped with two ABS plastic grommets measuring 6¾" x 2⅝". MT SERIES MOBILE TABLES

Tubular steel frame, 29" table height. Tops are available with a ¾" thick particleboard-core high-pressure laminate work surface with ¾" profile T-mold edge banding. Models are also available with work surfaces that have an optional urethane-based Sure Edge® finish. Nylon-base self-leveling glides. In the folded position, tables rest on four 3" swivel casters. The tables open and close in one operation. A safety device is built into the folding mechanism to help prevent pinching when tables are opened. A secondary safety release mechanism is incorporated to complete the opening of tables. The center hinge operates vertically in order to self clean and minimize trapping of food. Metal surfaces are available chromed or with a powder coat finish.

Service Life Recommendation: In order to extend the torque life of MT Series tables with torsion bars, Virco recommends that customers store their tables in an upright position when not in use. When cleaning Virco mobile tables, Virco recommends that their high-pressure laminate surfaces be wiped down as needed with a damp cloth or sponge and mild detergent or soap; this recommendation also applies to plastic stool seats, and to metal surfaces with a chrome or powder coat finish.

IMPORTANT: Never use a power washer to clean Virco mobile tables. Tables are intended for indoor use.

Warranty Note: MT Series tables are covered by Virco's 10-year warranty; however, torsion bars used on these tables are covered by a 5-year warranty. Virco recommends that torsion bars be inspected for torque strength frequently.

MTB SERIES MOBILE BENCH TABLES

Tubular steel frame, heavy-duty mobile folding bench tables have an automatic locking feature, as well as a safety clearance between table sections to help protect hands during opening. The tables also have a torsion bar for ease of operation, and are free-standing when closed. Tops and benches are available with a ¾" thick particleboard-core high-pressure laminate work surface with ¾" profile T-mold edge banding. Tops and benches are also available with an optional urethane-based Sure Edge® finish. In the folded position, tables rest on four 3½" swivel casters. Middle legs have a 1" rubber crutch tip. The table automatically locks in the open and closed positions. The center hinge operates vertically in order to self clean and minimize trapping of food. The top support apron is available with a powder coat finish. The undercarriage is available fully chromed or with an optional powder coat finish.

Optional Edge Finish: Virco's custom Sure Edge finish is offered as an option for table tops and benches. The Sure Edge finish consists of a urethane-based protectant that is bonded chemically to the substrate of the top or benches. The tamper-resistant Sure Edge finish, applied with an innovative anti-bacterial process for enhanced cleanliness and hygiene, functions as an effective moisture barrier, which seals the substrate of a top or bench between its high-pressure laminate surface and backing sheet. The Sure Edge finish has no gaps or seams, preventing food particles from lodging in table-top or bench-top edges. Models with a Sure Edge top finish include the letters AE. Models with a Sure Edge finish for tops and benches include the letters AEB.

Benches and tops are available with a ¾" thick particleboard-core high-pressure laminate work surface with ¾" profile T-mold edge banding. They are also available with an optional urethane-based Sure Edge® finish. The bench measures 96"L x 12"W; and the top measures 96"L x 15"W.

Table and bench height adjustment are made by a telescoping foot tube assembly secured to the table frame. Two adjustment positions are provided: one achieves a 15" bench height and a 27" top height; the other achieves a 17" bench height and a 29" top height. The base frame is mounted on four 4" swivel casters, two with locks. The apron, frame and links are powder coated. The foot tube assembly are chrome-plated.

Optional Edge Finish: Virco's custom Sure Edge finish is offered as an option for table tops and benches. The Sure Edge finish consists of a urethane-based protectant that is bonded chemically to the substrate of the top or benches. The tamper-resistant Sure Edge finish, applied with an innovative anti-bacterial process for enhanced cleanliness and hygiene, functions as an effective moisture barrier, which seals the substrate of a top or bench between its high-pressure laminate surface and backing sheet. The Sure Edge finish has no gaps or seams, preventing food particles from lodging in table-top or bench-top edges. Models with a Sure Edge top finish include the letters AE. Models with a Sure Edge finish for tops and benches include the letters AEB.

Optional Ganging Device: An optional ganging device consists of a lock plate, locking pin spring-loaded assembly and a docking plate. To engage the ganging device when two table tops are placed back to back, the keyed locking pins can be inserted into the docking plate, locking the two tables together at each end. Models with ganging device include the letter G.

Service Life Recommendation: In order to extend the torque life of MTC Series tables with torsion bars, Virco recommends that customers store their tables in an upright position when not in use. When cleaning Virco mobile tables, Virco recommends that their high-pressure laminate surfaces be wiped down as needed with a damp cloth or sponge and mild detergent or soap; this recommendation also applies to plastic stool seats, and to metal surfaces with a chrome or powder coat finish.

IMPORTANT: Never use a power washer to clean Virco mobile tables. Tables are intended for indoor use.

Warranty Note: MTC Series tables are covered by Virco's 10-year warranty; however, torsion bars used on these tables are covered by a 5-year warranty. Virco recommends that torsion bars be inspected for torque strength frequently.

6000 SERIES FOLDING TABLES

Tubular steel legs. Models are available with a ¾" particleboard-core top with a fused-on melamine surface and ¾" profile T-mold edge banding.
The folding mechanism includes a gravity-fed safety lock. Because the safety lock is permanently attached, a formed tab on the lock arm permits the hinge to fold in only one direction. Spring clips are formed from tempered steel to accept the cross brace of the leg unit. Each spring clip is housed in an injection-molded polyethylene shell to help protect hands from sharp edges. Each table has two spring clips.
Patented steel aprons consists of four machine formed steel segments with no exposed sharp edges. The outer edge is rolled to form a strong and smooth flange. Apron ends are inserted into patented corner supports formed of injection-molded polyethylene which completely enclose the ends of the steel aprons. A high-impact stacking bumper attaches to the outer edge of the corner support to facilitate stacking. Metal surfaces are available with a powder coat finish.

CORE-A-GATOR® SERIES FOLDING TABLES

Tubular steel legs. Lightweight folding table with a patented design featuring an ABS plastic top with an innovative three-piece construction. Extruded aluminum U-channels along each edge for added strength. Corners reinforced with four high-impact molded ABS corner protectors. Tables have edge molding around the complete perimeter of the top to serve as an edge protector. Tables have apron bumpers at each corner to protect the top surface during storage. Dual link folding mechanism consists of four steel links that form the folding mechanism. Two links are riveted to the leg assembly and the other two to a mounting bracket on the underside of the table. The two pairs of links provide lateral support when the table is in use and also allow the legs to fold into a closed position. The folding mechanism has an automatic positive locking rod that engages the two pairs of links. The locking mechanism automatically engages when the table is upright. The legs have fitted plastic glides. Metal surfaces are available with a powder coat finish.

PARAMETER® SERIES

Virco's Parameter® Series includes a variety of desks and workstations for teachers, principals, administrators and office use. Selected models have a single- or double-pedestal configuration; other models come without pedestals. Parameter also includes help desk models having a work surface with a rounded edge on one end where students can pull up a chair for assistance with their work.

Models are available with a 1⅛" thick particleboard-core high-pressure laminate work surface with 1⅛" profile T-mold edge banding. All desks have a work surface with two grommets, one at each end, except help desks, which have a work surface with one grommet at the rectangular end. Two-drawer (file/file) and three- drawer (box/box/file) unitized pedestals consist of steel components. Pedestals incorporate a drawer interlock system to allow only one drawer per pedestal to open at one time. A core-removable lock secures drawers with one lock assembly ("gang locking"); one lock per pedestal. Riser blocks are made from ABS plastic and include an internal wire management chute; a riser block is situated between the work surface and each end panel or pedestal. Adjustable-height nylon feet. Model numbers ending in C have standard twin-wheel, locking casters. The column leg for use with L-configuration workstations having a peninsula return consists of welded steel components and an adjustable-height nylon glide. Metal surfaces are available with a powder coat finish.

GENERAL INFORMATION

PRODUCT EVALUATION & TESTING

As a service to our customers and to assure superior levels of quality control, Virco tests and evaluates our products according to rigorous standards. Virco's product evaluation program includes applicable performance testing for strength, durability and stability as established by the Business and Institutional Furniture Manufacturer's Association and accepted by the American National Standards Institute.

ANSI/BIFMA TESTED

Virco's Ultrastack™, Virtuoso® and 8800 Series chairs; 2000 Series, I.Q. Series, 3000 Series, 4000 Series tables with standard-height legs, 4300 Series, 53 Series desks and returns, 53VF Series vertical files and 53LF lateral files, 53MP Series mobile pedestal units, 53CAB Series metal storage cabinets, 54VF Series vertical files, 6000, 6100 (Core-a-Gator®), 62000, 6800, 7900, 8700 871, 871M, 878 and Future Access® Series tables, 785 Series student desks, Sigma Series desks, 751 lift lid student desks, Jr. Executive student desks, 7900 Series desks, 72 Series student desks, 8900 Series chairs, 9000 Series, Analogy Series (except ROCK models), Civitas Series Seating (except ROCK models), Flip-Top Technology tables, Lunada® Series tables, N2 Series, Metaphor Series, Parameter® Series desks and returns, Plateau® Series round, rectangular and racetrack tables, Sage Series (except ROCK models), Makerspace, TEXT® Series tables, ZUMA Series (except ROCK models), 120, 121 and 122 Series Stools, included in this catalog have passed applicable performance tests for strength, durability, and stability as established by the Business and Institutional Furniture Manufacturer's Association International and accepted by the American National Standards Institute.

UPHOLSTERY TESTING

The following Virco upholstery materials pass California Technical Information Bulletin 117, Section E: Ultratexhyde vinyl, Bastille fabric, Confetti fabric, Express fabric, Linen vinyl, Pacifica fabric, Sedona fabric, Select vinyl, and fabric for Sage™ Series upholstered seating models.

FURNITURE WITH OAK FINISH

Virco's Oak finish highlights the grain and color accents of each furniture item. Because they're crafted from natural hardwood, no two pieces of Oak furniture have exactly the same grain pattern and color; instead, variations in grain and color result in uniquely complementary furniture groupings.

60", 72" AND 84" BOOKCASES

To avoid the risk of a serious tip-over accident, these bookcases must be securely anchored to a wall. Refer to the assembly instructions for more information.

GUIDELINES FOR STACKING & MOVING FURNITURE

The number of pieces of furniture that can be safely stacked or moved on Virco's mobile storage equipment will vary depending on many factors, including the furniture's height, weight and general design; the speed at which the unit will be moved; the terrain over which it will travel; and the strength of the operator(s). Care should be taken not to stack to the point of unsteadiness. Virco recommends starting with small, easily handled loads and adding one to two pieces of furniture at a time to determine the safe capacity for each set of conditions. Use Virco mobile storage equipment with appropriate Virco furniture only.

VIRCO AND THE ENVIRONMENT

GREENGUARD®

Hundreds of Virco furniture models have earned stringent GREENGUARD® Gold certification (formerly known as Greenguard Children & Schools Program certification) for low chemical emissions into indoor air. When this icon is shown at the bottom of a page in this price list, all products on that page are Greenguard Gold certified. For the most current listing of Virco's Greenguard-certified products – including models that may have been certified since the publication of this price list – go to www.greenguard.org and click on the Find Products link.

To search the Greenguard Certification Product Guide for Virco's Greenguard-certified products, be sure to search by the series name (for example, ZUMA®) or series number (for example, 3000 Series) rather than by specific model numbers (for example, ZU418 or 3018) since the search function will not recognize Virco model numbers. The Greenguard Certification Product Guide also has printable Greenguard certificates for Virco's Greenguard-certified furniture items. Please note that these certificates refer to Virco product groups (for example, ZUMA 4-Leg Chairs, ZUMA Cantilevered Chairs, and ZUMA Mobile Chairs) rather than to specific model numbers.

As the Greenguard website states, "GREENGUARD Certification ensures that a product has met some of the world's most rigorous and comprehensive standards for low emissions of volatile organic compounds (VOCs) into indoor air." To date, over 300 manufacturers – including Virco – provide customers with Greenguard-certified products.

LEED®

Many of Virco's customers are interested in the LEED® program. LEED, which stands for Leadership in Energy and Environmental Design, is a program of the non-profit U.S. Green Building Council. LEED is a well-known standard for environmentally-friendly buildings.

Virco furniture can help you earn points under the LEED for Schools and rating systems. Hundreds of Virco's Greenguard-certified products can help you earn an Indoor Air Quality (IAQ) credit under the LEED for Schools rating system. Depending on the project, Virco furniture can also help you earn LEED credits for Materials & Resources (MR). ZUMAfrd™ and Virco's other Greenguard-certified products are well suited to green building projects. Virco's Take-Back program can also help reduce the environmental impact of a renovation project.

For any questions about how Virco products can help your building project earn LEED points, please contact your Virco Sales Representative.

WASTEWISE

The U.S. Environmental Protection Agency's WasteWise program -- according to its website -- "helps organizations and businesses reduce waste and practice sustainable materials management through the prevention and recycling of municipal solid waste (common household and business waste) and select industrial materials."

Virco joined the EPA's WasteWise Program as a charter member in 1994. Over the years, we've been privileged to receive a number of WasteWise honors, including: WasteWise Program Champion (1998, 1999 & 2001); WasteWise Partner of the Year for Large Businesses (2000 & 2002); and WasteWise Climate Change Partner of the Year (2002). In 2003, Virco was designated as a charter member of the WasteWise Hall of Fame.

If your organization isn't already a member, we strongly encourage you to join WasteWise; information is available at:

http://www.epa.gov/epawaste/conserve/smm/wastewise/about.htm.

TAKE-BACK PROGRAM

Through this ground-breaking program – launched in 2006 – Virco takes back out-of-service furniture from qualifying schools, colleges and universities and recycles the components. Some of this recycled material can then be included in the Fortified Recycled Wood™ that's used to make seats, backrests and work surfaces for our highly sustainable ZUMAfrd furniture.

CASH FOR CARDBOARD

Virco's "Cash for Cardboard" Program helps 35 schools near our Conway, Arkansas facility reap the benefits of recycling. Virco builds recycling bins for these schools, collects their cardboard and transports it to a recycling vendor, then returns the proceeds to the schools. To date, the Cash for Cardboard Program has enabled these schools to earn over $100,000.
