general information

Gas cylinders
Mechanisms installed by A.D.I. use 4 types of cylinders, each with a different stroke adjustment: 80, 100, 120 and 140mm. Each mechanism has a different thickness, is installed with its own base size and therefore comes with a suitable cylinder.

When the chair is equipped with a seat slider a different cylinder may be installed. Chairs with the F mechanism come with 100mm cylinders when equipped with a seat slider, except for the Top chairs which are always equipped with 120 mm cylinders. Designer stools have their own gas cylinders, with a stroke adjustment of 8" (200 mm) or 10" (250 mm).

The chart below shows the seat height adjustments according to the mechanism installed. When a seat slider is installed, add 1" to the low and high measures.

A gas cylinder with a stroke other than the standard one specified for a mechanism can be supplied. Please refer to the price page and clearly indicate the non-standard specific cylinder option after the model number.

Colors, finishes and special requests
All A.D.I. seating have a standard black finish on the base, plastic and metal parts. Please refer to the price list of each series for the standard colors and finishes for other components and optional finishes for all components. A.D.I. will study special requests. Please contact customer service.

ANSI/BIFMA and California 117 standards
All A.D.I. task chairs meet the new ANSI/BIFMA x5.1-2002 standards. Foam and fabrics on all seating meet California 117 for flammability.

All task chairs meet ANSI/BIFMA x7.1 standard for formaldehyde and TVOC emissions and are Greenguard certified.

California 133 compliance
A.D.I. Seating can be made to comply to California 133 standard. To order, please specify **133** in the chair code on your order, and add:

programs

Regular fabric program
Please refer to the sample cards in the A.D.I. binder for the fabrics offered in the regular program. Each fabric is graded (letter **A, B, C**...) with corresponding price in the price book.

Vinyl
Vinyl covers may be ordered for all ADI seating. ADI uses Naugahyde Spirit II® vinyl for single stitch covers (grade C) and double stitched covers (grade E). Single stitch covers are suitable for stacking chairs. Double stitched covers provide better tailoring and are recommended for all other chairs.

Customer's Own Material Orders
C.O.M. orders must be written clearly and state the color and source of material. The quantity of material required for each model is shown in the price list for a 54"-wide piece of non-directional fabric (1,4 m). For all C.O.M. fabric, a 12" x 12" (305 x 305 mm) sample must be sent to A.D.I. for examination, acceptance and calculation of the quantity required for repeated pattern materials. (The distance of repetition of the pattern must be indicated lengthwise and widthwise).

The material must be clearly identified and be shipped prepaid, to **A.D.I.** (see location on page 1)

The order will be scheduled for production upon receipt. A.D.I. reserves the right to refuse any fabric that has not been approved beforehand.

The material provided must be in one piece, or a full hide in the case of leather. Use soft, pliable leather. Leather that is too stiff may be refused. Use Grade E prices for Customer Own Leather.

A.D.I. declines any responsibility for the quality and durability of any material that is not part of its carded program, whether the material is supplied by the customer or by A.D.I. (on specification by the customer). In all cases the delivery date will not be set until A.D.I. has received the material.

Fabric ordering Service
A.D.I. offers its customers the possibility of ordering a fabric, sold by an A.D.I. approved supplier, but that is not in the regular program. Please check the 'Graded Fabric Program' on the web site for approved fabrics on A.D.I. products.

If not, the fabric must be sent beforehand to A.D.I. for approval, in the same manner as explained for C.O.M. fabric (see C.O.M. Orders).

Fabrics ordered separately
A.D.I. offers to sell its customers regular and complementary fabrics at the following list prices:

Grade A: $42/yd
Grade B: $48/yd
Grade C: $60/yd
Grade D: $73/yd
Grade E: $94/yd
Grade F: $123/yd

Leather: $12/sf

Prices are F.O.B. factory and are subject to the $50.00 minimum charge.
