ON TIME. COMPLETE. CORRECT.

Lifetime Guarantee

The following limited Lifetime Guarantee applies to all Haskell products:

Haskell guarantees, to the Original Purchaser of this Haskell furniture, all parts to be free from defects in material and workmanship; and as long as the Original Purchaser owns this furniture, we will replace any metal part or parts thereof which our examination discloses to be defective, provided no unauthorized corrective action has been taken prior to such examination. Please note, this guarantee does not apply to product misuse, abuse, or alteration. We do not cover damage caused by accident, fire, flood or act of God.

Exceptions to the Haskell Lifetime Guarantee

Ethos Series – 12 years on casters, glides, pneumatic cylinders, tablets and tablet support arms.

Echo Series – marker board laminates are subject to manufacturerer's published warranty.

General Information

Prices
All prices are subject to change without notice.
All orders will be accepted for delivery within prevailing lead time at prices in effect at the time that the order is received by us.
Please call Customer Support for current lead times.

Lifetime Guarantee
All Haskell products are covered by the following limited Lifetime Guarantee:

Haskell guarantees, to the Original Purchaser of this Haskell furniture, all parts to be free from defects in material and workmanship; and as long as the Original Purchaser owns this furniture we will replace any metal part or parts thereof which our examination discloses to be defective, provided no unauthorized corrective action has been taken prior to such examination. Please note this guarantee does not apply to product misuse, abuse, or alteration. We do not cover damage caused by accident, fire, flood or act of God.

Exceptions to the Haskell Lifetime Guarantee
Ethos Series – 12 years on casters, glides, pneumatic cylinders, tablets and tablet support arms.
Echo Series – marker board laminates are subject to manufacterer's published warranty.

Custom Finish Program
Custom Paint Finish – All Haskell standard paint colors consist of a two coat electrostatic enamel process, providing a high impact and fade resistant finish. At Haskell we offer you any paint color through our paint matching program and all custom paint colors are offered in the same two coat electrostatic enamel process as our standard offering. There will be an upcharge for custom paint colors as follows:

1) For orders of 20 pieces or more, excluding accessories, add $250 net charge per color, per order.

2) For orders of less than 20 pieces, excluding accessories, add $500 net charge per color, per order.

Bright whites, bright colors and micas are available but are quoted on a per job basis and charges may differ from those listed above. If in question, please submit a sample to Haskell Customer Support.

Custom Plastic Finish – At Haskell we offer you any plastic color through our plastic matching program, allowing clients to customize the Ethos Series for your specific project needs. There will be quantity requirements of 300 piece and an upcharge for the plastic matching program, please contact your local sales representative for more information and pricing.

Custom Approval Process – Submit two samples for Haskell to match, we will return the matched sample for your signed approval. Please add 15-20 working days to normal lead times to allow for custom finishes. Samples should be sent to address listed below and tagged with the project name.

Haskell, LLC.
273 Montgomery Avenue
Bala Cynwyd, PA 19004

Engineering Specials (non-catalog products)
Prices for non-catalog products (any variation in size,color or other standards from our catalogued items) will be supplied upon request. Orders for non-catalog products will be accepted only with a valid quotation number appearing on the customer's order. Non-catalog products are not subject to standard lead times.
Contact Customer Support for quotation and lead time information.

Freight Damage and Claims
We carefully inspect and pack our products before we turn it over to the carrier. Everything is packaged to prevent damage in transit. We select the best carriers available who transport furniture on a regular basis. Once we give it to the carrier, we cannot be responsible for damage in shipment as the transportation company assumes complete responsibility for delivering the product to you in good condition. So, when you take delivery of the product, protect yourself by noting on the bill of lading the extent of any damage or shortage before signing it. Concealed damage should be reported to the carrier as soon as discovered—not later than 15 days from receipt of shipment. Our Customer Support staff will assist in helping you to file the claims if you so desire.

Freight
The cost of freight to the contiguous 48 states is included in the cost of the product on orders with a list price of $22,250 or more provided that the order ships to a single address. Multiple orders shipping to one location on one day will be combined to reach the $22,250 list price. Customers should specifically request that orders ship together if they want to combine orders for freight savings. Such a request may result in a delay until all orders are ready for shipping.

Ethos Series – free freight with 25 chairs or more.

Changes and Cancellations
Given our short lead times, cancellations or changes to product models, colors, sizes or quantities can only be accepted within the week of order entry. Please contact Customer Support to find out what options are available.

NOTE: PUT IT IN WRITING!
All changes and cancellations must be sent via fax or e-mail to ensure accurate recording of your change request.
Non-catalog items or "Engineering Specials" (any product variation in size, color, or other standard from our regularly catalogued items) require 50% deposit with the order, which will be forfeited in the event of cancellation aftet the first week of order entry.

General Information

How to Place an Order
Provide the following information:
1. P.O. Number
2. “Bill to” and “ship to” name and address
3. Quantity
4. Complete model number
5. Brief description
6. Options (where applicable)
   a. Special keying instructions
   b. Paint finish (specify by name and number)
   c. Top finish (specify by name and number)
   d. Trim options (where applicable)
   e. Accessories

Order Entry and Communications
All communications and orders should be directed to our offices at:

Haskell, LLC.
273 Montgomery Avenue
Bala Cynwyd, PA 19004

Telephone: 800.334.8888
Facsimile: 724.265.1223
sales@haskelloffice.com

Order Acknowledgements
All customer orders are acknowledged in writing by fax or e-mail. You can expect to receive an acknowledgment within 48 hours after entering your order. We would ask you to confirm that the acknowledgement is correct within two days. If we do not hear from you, we will advise you that production is commencing on your order as shown on your acknowledgement.

Returns
All returns must be approved and authorized in writing by Haskell Customer Support before any return can take place. In those instances where a return has been authorized,shipments will not be accepted unless accompanied by a written authorization from Haskell Customer Support Department. Merchandise must be returned in original shipping materials. A restocking fee will apply.

Storage
If you are not able to accept delivery within a week of the acknowledged ship date, we can store the product, at your expense. If Customer Support is notified in time to delay production, storage charges can be avoided. Please notify Customer Support in writing of any schedule changes immediately and they will try to accommodate your request.

Notes & Planning

Market Series

introduction - pedestals

General
All Market Pedestals are 15" in width. All file drawers are designed to accommodate hanging folders. Mobile units are standard with counterweights to reduce the likelihood of tipping. However, it is recommended that not more than one heavily loaded drawer be opened at one time. Caution should be exercised when pedestals are used as freestanding units.

Assembly
All units ship fully assembled.

Locks
Market Pedestals come standard with a removable core lock for easy reconfiguration on site. Units can be keyed alike to other Haskell Products upon request.

Unit Construction
The Market Series Pedestal and Lateral drawer fronts are external to the case and are referred to as Proud.

Wood Core Tops
Laminate tops are available as a separate component. Tops are available with a self edge, 3mm or T-mold edge. All wood core tops are 1 ⅛" thick.

Casters/Glides
Market Pedestals are available with either adjustable glides or casters. Casters and glides are easily interchangeable in the field.

COM
All COM yardage is based on a 54" wide fabric.

Keying Information and Locking Options
All locks feature a removable core which is easily removed on site. All lock cores are interchangeable through all products as cores are universal.

Locks throughout an order or locks within a particular workstation can be keyed alike at no additional charge if specified when ordering. Keyed Alike means that all locks are identical. To order, specify which products are to be keyed alike and order a "Removable Core Lock Kit" for each group of products to be keyed alike. The specified products will be shipped without lock cores. The cores for each workstation will be packaged separately. All Removable Core Lock Kits are shipped with a control key for removing or inserting lock cores. Note that a control key works only when a lock is in the unlocked position.

Master keys, which operate any removable core lock, are available for $35 net each.

One control key is provided for each "key alike" order. If additional keys are needed, cost is $35 net each.

Additional keys can be purchased for $15 net per key.

Market Series

introduction - lateral files & storage cabinets

General
Market Lateral Files and Overfile units are 18" deep. Adjustable glides are standard at the front and rear of all cases. Files are designed with safety interlock mechanisms integrated into the suspensions. All standard lateral files with fixed fronts drawers come with a set of hanging folder frames for side-to-side filing. Two dividers can be substituted for side-to-side rails at no charge if specified when ordering. Front-to-back filing bars may be ordered separately for field installation. All drawer fronts are field replaceable.

Suspensions
All Market Lateral Files have heavy duty, fully progressive steel ball bearing suspensions with integrated slide lock system. The integrated slide lock system has the interlock built into the drawer slide to enable a more positive interlock system.

Assembly
All units ship fully assembled. Interior drawer accessories are field-installed only.

Locks
Market Laterals come standard with a removable core lock for easy reconfiguration on site. Units can be keyed alike to other Haskell Products upon request.

Wood Core Tops
Laminate tops are available as a separate component to span multiple files. Tops are available with a self edge, 3mm or T-mold edge. All wood core tops are are 1 ⅛" thick.

Unit Construction
The Market Series Pedestal and Lateral drawer fronts are external to the case and are referred to as Proud.

Keying Information and Locking Options
All locks feature a removable core which is easily removed on site. All lock cores are interchangeable through all products as cores are universal.

Locks throughout an order or locks within a particular workstation can be keyed alike at no additional charge if specified when ordering. "Keyed Alike" means that all locks are identical. To order, specify which products are to be keyed alike and order a "Removable Core Lock Kit" for each group of products to be keyed alike. The specified products will be shipped without lock cores. The cores for each workstation will be packaged separately. All Removable Core Lock Kits are shipped with a control key for removing or inserting lock cores. Note that a control key works only when a lock is in the unlocked position.

Master keys, which operate any removable core lock, are available for $35 net each.

One control key is provided for each "key alike" order. If additional keys are needed, cost is $35 net each.

Additional keys can be purchased for $15 net per key.

Market Series

introduction - vertical files

General
Market Vertical Files are 28" in exterior depth with an interior filing capacity of 26". Market Vertical Files come standard with the safety interlock system integrated within each slide, allowing only one drawer to open at a time. All vertical files are available in 15" (letter) width. Adjustable glides are standard at the front and rear of all cases and all files drawers have been designed to accommodate hanging folders.

Suspensions:
All Market Vertical Files have heavy duty, fully progressive steel ball bearing suspensions with integrated slide lock system.

Assembly
All units ship fully assembled. Interior drawer accessories are field-installed only.

Locks
Market Vertical Files come standard with a removable core lock for easy reconfiguration on site. Units can be keyed alike to other Haskell Products upon request.

Unit Construction
The Market Series Pedestal and Vertical drawer fronts are external to the case and are referred to as Proud.

Wood Core Tops
Laminate tops are available as a separate component to span one to four files. Tops are available with a self edge, 3mm or T-mold edge. All wood core tops are 1 ⅛" thick.

Keying Information and Locking Options
All locks feature a removable core which is easily removed on site. All lock cores are interchangeable through all products as cores are universal.

Locks throughout an order or locks within a particular workstation can be keyed alike at no additional charge if specified when ordering. Keyed Alike means that all locks are identical. To order, specify which products are to be keyed alike and order a "Removable Core Lock Kit" for each group of products to be keyed alike. The specified products will be shipped without lock cores. The cores for each workstation will be packaged separately. All Removable Core Lock Kits are shipped with a control key for removing or inserting lock cores. Note that a control key works only when a lock is in the unlocked position.

Master keys, which operate any removable core lock, are available for $35 net each.

One control key is provided for each "key alike" order. If additional keys are needed, cost is $35 net each.

Additional keys can be purchased for $15 net per key.

Market Series

introduction - bookcases

General
All Market Bookcases are 14" in exterior depth and are available in three standard widths 30", 36" and 42". Market Bookcases have 4 height options 27 ½", 39 ½", 51 ½" and 67 ½". Adjustable glides are standard at the front and rear of all cases.

Shelf Configuration
All Market Bookcases have (1) fixed bottom shelf.

- 27 ½" high bookcases have (1) adjustable shelf.
- 39 ½" high bookcases have (2) adjustable shelves.
- 51 ½" high bookcases have (3) adjustable shelves.
- 67 ½" high bookcases have (4) adjustable shelves.

Each Adjustable shelf includes 4 clips to position the shelf at customer's preference. Additional shelves are available.

Assembly
All units ship fully assembled.

Installation
Correct installation should include proper leveling and ganging of multiple units.

Wood Core Tops
Laminate tops are available as a separate component. Tops are available with a self edge, 3mm or T-mold edge. All wood core tops are
1 ⅛" thick.

Captiva Series

introduction - pedestals

General
All Captiva Pedestals are 14 ⅞" in width. All file drawers are designed to accommodate hanging folders. Mobile units are standard with counterweights to reduce the likelihood of tipping. However, it is recommended that not more than one heavily loaded drawer be opened at one time. Caution should be exercised when pedestals are used as freestanding units.

Assembly
All units ship fully assembled.

Locks
Captiva Pedestals come standard with a removable core lock for easy reconfiguration on site. Units can be keyed alike to other Haskell Products upon request.

Unit Construction
The Captiva Series Pedestal drawer fronts are external to the case and are referred to as Proud.

Wood Core Tops
Laminate tops are available as a separate component. Tops are available with a self edge, 3mm or T-mold edge. All wood core tops are 1 ⅛" thick.

Casters/Glides
Captiva Pedestals are available with either adjustable glides or casters. Casters and glides are easily interchangeable in the field.

COM
All COM yardage is based on a 54" wide fabric.

Keying Information and Locking Options
All locks feature a removable core which is easily removed on site. All lock cores are interchangeable through all products as cores are universal.

Locks throughout an order or locks within a particular workstation can be keyed alike at no additional charge if specified when ordering. Keyed Alike means that all locks are identical. To order, specify which products are to be keyed alike and order a "Removable Core Lock Kit" for each group of products to be keyed alike. The specified products will be shipped without lock cores. The cores for each workstation will be packaged separately. All Removable Core Lock Kits are shipped with a control key for removing or inserting lock cores. Note that a control key works only when a lock is in the unlocked position.

Master keys, which operate any removable core lock, are available for $35 net each.

One control key is provided for each "key alike" order. If additional keys are needed, cost is $35 net each.

Additional keys can be purchased for $15 net per key.

Captiva Series

introduction - lateral files & storage cabinets

General
All Captiva Lateral Files are constructed using Haskell's unique "Double O" frame construction for outstanding strength and durability. Captiva Lateral Files and Overfile units are 18" deep. Adjustable glides are standard at the front and rear of all cases. Files are designed with dual lock bars and safety interlock mechanisms integrated into the suspensions. All standard lateral files with fixed fronts drawers come with a set of hanging folder frames for side-to-side filing. Two dividers can be substituted for side-to-side rails at no charge if specified when ordering. Front-to-back filing bars may be ordered separately for field installation. All drawer fronts are field replaceable.

Suspensions
All Captiva Lateral Files have heavy duty, fully progressive steel ball bearing suspensions with integrated slide lock system. The integrated slide lock system has the interlock built into the drawer slide to enable a more positive interlock system.

Assembly
All units ship fully assembled. Interior drawer accessories are field-installed only.

Locks
Captiva Laterals come standard with a removable core lock for easy reconfiguration on site. Units can be keyed alike to other Haskell Products upon request.

Wood Core Tops
Laminate tops are available as a separate component to span multiple files. Tops are available with a self edge, 3mm or T-mold edge. All wood core tops are are 1 ⅛" thick.

Unit Construction
The Captiva Series Laterals are offered with flush style drawer fronts.

Keying Information and Locking Options
All locks feature a removable core which is easily removed on site. All lock cores are interchangeable through all products as cores are universal.

Locks throughout an order or locks within a particular workstation can be keyed alike at no additional charge if specified when ordering. "Keyed Alike" means that all locks are identical. To order, specify which products are to be keyed alike and order a "Removable Core Lock Kit" for each group of products to be keyed alike. The specified products will be shipped without lock cores. The cores for each workstation will be packaged separately. All Removable Core Lock Kits are shipped with a control key for removing or inserting lock cores. Note that a control key works only when a lock is in the unlocked position.

Master keys, which operate any removable core lock, are available for $35 net each.

One control key is provided for each "key alike" order. If additional keys are needed, cost is $35 net each.

Additional keys can be purchased for $15 net per key.

Captiva Series

introduction - vertical files

General
All Captiva Vertical Files are constructed using Haskell's unique "Double O" frame construction for outstanding strength and durability. Captiva Vertical Files are 28" in exterior depth with an interior filing capacity of 26" and each unit ships with a spring loaded mechanical compressor in each drawer. Captiva Vertical Files come standard with the Haskell S.I.S.™ safety interlock system integrated within each slide, allowing only one drawer to open at a time. All vertical files are available in 14 ¾" (letter) or 17 ¾" (legal) widths. Adjustable glides are standard at the front and rear of all cases and all files drawers have been designed to accommodate hanging folders.

Suspensions:
All Captiva Vertical Files have heavy duty, fully progressive steel ball bearing suspensions with integrated slide lock system.

Assembly
All units ship fully assembled. Interior drawer accessories are field-installed only.

Locks
Captiva Vertical Files come standard with a removable core lock for easy reconfiguration on site. Units can be keyed alike to other Haskell Products upon request.

Unit Construction
The Captiva Series Verticall drawer fronts are external to the case and are referred to as Proud.

Wood Core Tops
Laminate tops are available as a separate component to span one to four files. Tops are available with a self edge, 3mm or T-mold edge. All wood core tops are 1 ⅛" thick.

Keying Information and Locking Options
All locks feature a removable core which is easily removed on site. All lock cores are interchangeable through all products as cores are universal.

Locks throughout an order or locks within a particular workstation can be keyed alike at no additional charge if specified when ordering. Keyed Alike means that all locks are identical. To order, specify which products are to be keyed alike and order a "Removable Core Lock Kit" for each group of products to be keyed alike. The specified products will be shipped without lock cores. The cores for each workstation will be packaged separately. All Removable Core Lock Kits are shipped with a control key for removing or inserting lock cores. Note that a control key works only when a lock is in the unlocked position.

Master keys, which operate any removable core lock, are available for $35 net each.

One control key is provided for each "key alike" order. If additional keys are needed, cost is $35 net each.

Additional keys can be purchased for $15 net per key.

General
All Market Desking Units are 28 ¾" H. All worksurfaces are laminate wood core tops at 1 3⁄16" thick and are available with a self edge, 3mm or T-mold edge. Pedestals lock individually.

Locks
Market Desks come standard with a removable core lock for easy reconfiguration on site. Units can be keyed alike to other Haskell products upon request.

Installation
Correct installation should include proper leveling.

Application Considerations
When specifying the units for workstation configurations, note the following points:

*24" D returns are used for the 66" x 30" or wider single pedestal desks.

COM
All COM yardage is based on a 54" wide fabric.

Keying Information and Locking Options
All locks feature a removable core which is easily removed on site. All lock cores are interchangeable through all products as cores are universal.

Locks throughout an order or locks within a particular workstation can be keyed alike at no additional charge if specified when ordering. Keyed Alike means that all locks are identical. To order, specify which products are to be keyed alike and order a "Removable Core Lock Kit" for each group of products to be keyed alike. The specified products will be shipped without lock cores. The cores for each workstation will be packaged separately. All Removable Core Lock Kits are shipped with a control key for removing or inserting lock cores. Note that a control key works only when a lock is in the unlocked position.

Master keys, which operate any removable core, lock are available for $35 net each.

One control key is provided for each "key alike" order. If additional keys are needed, cost is $35 net each.

Additional keys can be purchased for $15 net per key.

Marathon Series

introduction

General
All Marathon Desking Units are 30" H. All worksurfaces are laminate wood core tops at 1 3/16" thick and are available with a self edge, 3mm or T-mold edge. All Marathon Desking Units come with center drawers and central locking systems.

Assembly
All units ship without chrome legs attached. Legs can attach with no tools, but come with an added bracket that can be screwed to the bottom of the pedestal for additional support. Interior drawer accessories are field-installed only.

Locks
Marathon Desking Units comes standard with a removable core lock for easy reconfiguration on site. Units can be keyed alike to other Haskell products upon request.

Installation
Correct installation should include proper leveling.

Application Considerations
When specifying the units for workstation configurations, note the following points:

*18" D returns can be used for the 66" x 30" or wider single pedestal desks.

*Overstorage Units can not be used on 36" D with overhangs. The 6" overhang is not suitable to support a loaded overstorage unit.

COM
All COM yardage is based on a 54" wide fabric.

Keying Information and Locking Options
All locks feature a removable core which is easily removed on site. All lock cores are interchangeable through all products as cores are universal.

Locks throughout an order or locks within a particular workstation can be keyed alike at no additional charge, if specified when ordering. Keyed Alike means that all locks are identical. To order, specify which products are to be keyed alike and order a "Removable Core Lock Kit" for each group of products to be keyed alike. The specified products will be shipped without lock cores. The cores for each workstation will be packaged separately. All Removable Core Lock Kits are shipped with a control key for removing or inserting lock cores. Note that a control key works only when a lock is in the unlocked position.

Master keys, which operate any removable core lock, are available for $35 net each.

One control key is provided for each "key alike" order. If additional keys are needed, cost is $35 net each.

Additional keys can be purchased for $15 net per key.

DESKING

***** S – Standard Lead Time 4-6 weeks | E – Extended Lead Time 10-12 weeks | Lead times subject to change without notice

General
All Smart Desking Units are 29 1/16" H. All worksurfaces are laminate wood core tops at 1 3/16" thick and are available with a self edge, 3mm, T-mold or radius edge. Select Smart Desks are available with locking central drawers and will be noted in product descriptions. Pedestals lock individually. Overstorage units are constructed with a single wall steel back panel with a fabric tackboard insert on front. Overstorage units are available with flipper doors or open shelves.

Locks
Smart Desks come standard with a removable core lock for easy reconfiguration on site. Units can be keyed alike to other Haskell products upon request. Central locking is available on desks 66" in width or less.

Installation
Correct installation should include proper leveling.

Application Considerations
When specifying the units for workstation configurations, note the following points:

*24" D returns are used for the 66" x 30" or wider single pedestal desks.

*Overstorage Units can not be used on 36" D with overhangs. The 6" overhang is not suitable to support a loaded overstorage unit.

COM
All COM yardage is based on a 54" wide fabric.

Keying Information and Locking Options
All locks feature a removable core which is easily removed on site. All lock cores are interchangeable through all products as cores are universal.

Locks throughout an order or locks within a particular workstation can be keyed alike at no additional charge if specified when ordering. Keyed Alike means that all locks are identical. To order, specify which products are to be keyed alike and order a "Removable Core Lock Kit" for each group of products to be keyed alike. The specified products will be shipped without lock cores. The cores for each workstation will be packaged separately. All Removable Core Lock Kits are shipped with a control key for removing or inserting lock cores. Note that a control key works only when a lock is in the unlocked position.

Master keys, which operate any removable core, lock are available for $35 net each.

One control key is provided for each "key alike" order. If additional keys are needed, cost is $35 net each.

Additional keys can be purchased for $15 net per key.

General
All Market Series Desking Units are 28 ¾" H. All worksurfaces are laminate wood core tops at 1 3/16" thick and are available with a self edge, 3mm or T-mold edge. Pedestals lock individually.

Locks
Market Desks come standard with a removable core lock for easy reconfiguration on site. Units can be keyed alike to other Haskell products upon request.

Keying Information and Locking Options
All locks feature a removable core which is easily removed on site. All lock cores are interchangeable through all products as cores are universal.

Locks throughout an order or locks within a particular workstation can be keyed alike at no additional charge if specified when ordering. Keyed Alike means that all locks are identical. To order, specify which products are to be keyed alike and order a "Removable Core Lock Kit" for each group of products to be keyed alike. The specified products will be shipped without lock cores. The cores for each workstation will be packaged separately. All Removable Core Lock Kits are shipped with a control key for removing or inserting lock cores. Note that a control key works only when a lock is in the unlocked position.

Master keys, which operate any removable core, lock are available for $35 net each.

One control key is provided for each "key alike" order. If additional keys are needed, cost is $35 net each.

Additional keys can be purchased for $15 net per key.

Smart Series

introduction - instruction zone

General
All Smart Desking Units are 29 1/16" H. All worksurfaces are laminate wood core tops at 1 3/16" thick and are available with a self edge, 3mm, T-mold or radius edge. Select Smart Desks are available with locking central drawers and will be noted in product descriptions. Pedestals lock individually. Overstorage units are constructed with a single wall steel back panel with a fabric tackboard insert on front. Overstorage units are available with flipper doors or open shelves.

Locks
Smart Desks come standard with a removable core lock for easy reconfiguration on site. Units can be keyed alike to other Haskell products upon request. Central locking is available on desks 66" in width or less.

Installation
Correct installation should include proper leveling.

Application Considerations
When specifying the units for workstation configurations, note the following points:

*24" D returns are used for the 66" x 30" or wider single pedestal desks.

*Overstorage Units can not be used on 36" D with overhangs. The 6" overhang is not suitable to support a loaded overstorage unit.

COM
All COM yardage is based on a 54" wide fabric.

Keying Information and Locking Options
All locks feature a removable core which is easily removed on site. All lock cores are interchangeable through all products as cores are universal.

Locks throughout an order or locks within a particular workstation can be keyed alike at no additional charge if specified when ordering. Keyed Alike means that all locks are identical. To order, specify which products are to be keyed alike and order a "Removable Core Lock Kit" for each group of products to be keyed alike. The specified products will be shipped without lock cores. The cores for each workstation will be packaged separately. All Removable Core Lock Kits are shipped with a control key for removing or inserting lock cores. Note that a control key works only when a lock is in the unlocked position.

Master keys, which operate any removable core, lock are available for $35 net each.

One control key is provided for each "key alike" order. If additional keys are needed, cost is $35 net each.

Additional keys can be purchased for $15 net per key.

Zeal Series
The Zeal Series offers a robust product built around the unique understructure and incredibly strong, high-design leg that can accommodate even the most demanding educational and workspace needs. The Zeal Base is constructed of 3" diameter steel legs with an undersurface frame that offers continuous worksurface support - while tying all four legs together.

General
All Zeal Series Tables are 29" H. Worksurfaces are laminate wood core tops at 1 3/16" thick and are available with a self edge, 3mm and T-mold edges.

Assemble Series

introduction

General
All Assemble Series Tables are 29" H, with the exception of the Standard HL & HW styles, they are 28 ½" H. Worksurfaces are laminate wood core tops at 1 3/16" thick and are available with a self edge, 3mm, T-mold, and wood edges on select models. Worksurfaces are also available in Wilsonart ChemSurf Laminate. Assemble Series Tables offer s a variety of legs styles including the standard HL & HW, tubular, C-tubular, arc, path and disk base. Caster, modesty panels, folding legs, and nesting options are available on select models.

Electrical Options
Assemble Series Tables offer an extensive collection of electrical options including power/data modules, grommets, and vertical/horizontal wire management. Power beam and Daisy chain electrical systems are available on the standard HL and HW leg styles. Contact customer service for a detailed quotation.

Installation
Correct installation should include proper leveling.

Echo Series

introduction - training & teaming tables

General

The Echo Series tables are offered in three styles, rectangular, chevron and meeting. The 84” length in both the chevron and meeting styles are designed with 3 contours on the user side to accommodate 3 people. The Echo Series tables are 29" H, worksurfaces are laminate wood core tops at 1 3⁄16" thick and are available with 3mm or T-mold edges. Worksurfaces are also available in Wilsonart marker board laminate. Echo Series legs are offered in a standard Platinum paint finish, all other standard paints are available with a minimum order of 25 pieces and with an extended lead time. The Echo Series legs are offered with the follow options; glides, casters and a combination of glide/caters on one table.

Personal Marker Boards

The Echo Series personal marker boards are sold separately from the tables. These personal marker boards interact with the Echo Series tables when base options, Desk Docking Grommets/Side Hook & Docking Grommets, are specified on table configurations.

Z2 Series

introduction - training tables

General
The Z2 Series is a close cousin to the popular Zeal Series, but offers an alternative to the unique understructure found within the Zeal Series. The Z2 has been designed to mirror all of the aesthetic features of its cousin, maintain the, 3” diameter steel leg along with the beautifully designed caters, glides and height adjust-able leg options, while removing the extensive understructure to provide a solution for standard table application.

The Z2 Series is the perfect companion to the Zeal Series allowing clients to outfit entire projects with coordinating products tailor-made for the applications at hand.

Specifications
Z2 Series tables are 29" H. Worksurfaces are laminate wood core tops at 1 3⁄16" thick and are available with a self edge, 3mm, T-mold, and with wood edges.

Electrical Options
Z2 Series tables offer an extensive collection of electrical options including power/data modules, grommets, and vertical/horizontal wire management.

Installation
Correct installation should include proper leveling.

Zeal Series

introduction

Zeal Series
The Zeal Series offers a robust table system built around the unique understructure and incredibly strong, high-design leg that can accommodate even the most demanding educational and workspace needs. The Zeal Base is constructed of 3" diameter steel legs with an undersurface frame that offers continuous worksurface support - while tying all four legs together. Available with casters, glides or even height adjustable legs, the Zeal tables system can be paired with a resin surface appropriate for science applications, or with the standard laminate top available with and without a solid wood edge, making Zeal the perfect choice for all high traffic applications.

General
All Zeal Series Tables are 29" H. Worksurfaces are laminate wood core tops at 1 3⁄16" thick and are available with a self edge, 3mm, T-mold, and with wood edges. Worksurfaces are also available in Wilsonart ChemSurf Laminate and a Science Epoxy Resin on select models.

Electrical Options
Zeal Series Tables offer an extensive collection of electrical options including power/data modules, grommets, and vertical/horizontal wire management.

Installation
Correct installation should include proper leveling.

General

Flexible seating solutions complete the Haskell lineup of education products for a clean, consistent look; meet the demands of K–12, higher education and corporate training facilities. Designed for 21st Century Learning, Haskell seating supports dynamic classrooms where the physical environment responds to the curriculum; smoothly transitioning from lectures to collaborative activities and back, becoming a platform for active learning.

More than a chair, Ethos doubles as an active learning platform for twenty-first century pedagogy. An agile quad base plus classic seat shell, Ethos blends flexibility (like 360-degree swiveling capability and an ambidextrous tablet arm) with mobility and personal storage. Haskell's seating design anticipates the needs of today's vibrant classroom, a classroom that transitions seamlessly from **lectures** to **group work** and **discussion** groups.

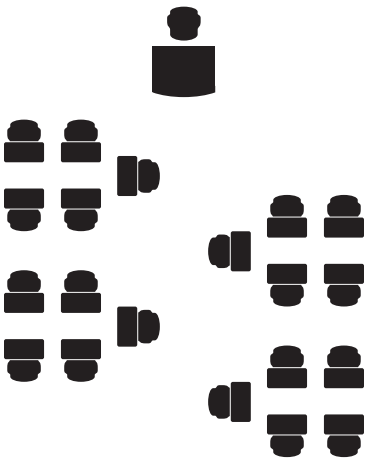
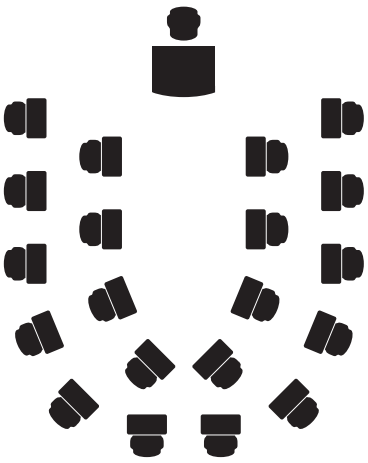
Group Work



Discussion



Ethos Series

product specifications

Statement of Line

Chairs and stools are available with molded polypropylene fiberglass reinforced shells. Chairs are available with a quad base, quad base with tablet worksurface, five-star base with pneumatic adjustment, and five-star base with pneumatic adjustment with tablet worksurface.
Stools are available with five-star base only.

Base

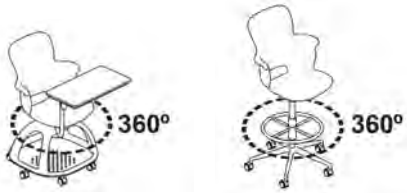
The Quad and Metal base offer generous access and fully utilizes the space under the seat. The space easily accommodates large backpacks and other personal belongings and is comfortable as a footrest. The Quad base comes standard with a two-toned finish.The five-star base is an option when storage is not needed.

Tablet Worksurface

Tablet worksurface is non handed and can swivel completely right and left to accommodate both right and left handed users. It is 12.5”D x 23.25”W to allow for space for both books and technology.

360° Swivel

360° fixed height swivel mechanism on quad base models allows students to adjust their orientation to focus on the instructor, presentation materials, and other students as needed. 360° adjustable height swivel mechanism is standard on five-star base models.



Pneumatic Five-Star Base

Seat height adjusts pneumatically. To lower, pull lever up while seated. To raise, pull lever up and keep your weight off the chair. Range of adjustability is 5” from 16"H to 21”H, a 3 3/4" range (171/4"H to 21”H) is available on chairs with a worksurface. Stools are standard with a 7" range of adjustability (23 1/2"H to 30 ½""H).

Cup Holder

Cup holder is available as an option on Ethos chairs with tablet worksurfaces.

Shipping & Assembly

The Ethos Series, including the quad, metal and five-star bases, with or without worksurface, ships standard unassembled with the seat shell separated from the base. Assembly by a qualified Haskell dealer and/or installer is recommended. No tools required for assembly.

Testing

Ethos meets or exceeds ANSI/BIFMA testing standards.

General

Haskell's Marathon Series is proud to be U.S. Made in Grand Rapids, Michigan.

Our seating is designed with today's workplace in mind. Superior craftmanship, outstanding comfort, and produced with the use of recycled materials for sustainability. Our chairs our constant but the people who use them come in all shapes and sizes, that's why our task seating comes with the following features:

- Fully height adjustable one touch pneumatic height adjustment
- Comfortable waterfall seat construction with contoured foam for all day use
- Adjustable lumbar support which allows the lumbar to hit just the right spot
- Adjustable seat depth to fit any size individual
- Durable easy care fabrics that breath so your body breaths as well
- Marathon chairs swivel 360 degrees
- Durable scuff resistant 5 star base with with dual hard wheel casters for strength and mobility
- Synchro Tilt Hardware with back lock and tension adjustable settings
- 24/7 Intensive use chair comes with 3.5" of high density foam for comfort and durability
- Your choice of arms: Vertically adjustable arms with urethane arm pads for comfort and durability or Urethane Fixed Arms when adjustability is not needed

When you are making your seating choice you can sit assured that the Marathon Series will provide you with the features that will give you hours of productivity and comfort in the workplace.

Haskell Environmental Statement

Haskell has provided federal agencies, schools and the contract furniture markets, with furniture that is known for its extra long life cycle. Our furniture is constructed from steel, the most widely recycled material in North America. These products are a key value for Haskell in serving the community, including acting responsibly. In this vein, Haskell has demonstrated an exceptional commitment to Environmental improvement. Haskell has always taken the common sense approach in designing both quality and durability into its products.

MAS CERTIFIED GREEN for a healthier indoor environment

Marathon Series

introduction - seating

Steel
Haskell's primary material is steel. Steel is the most recycled post consumer material used in North America. More steel is recycled than all other metals, paper, glass and plastic combined. The use of recycled steel does not degrade any performance characteristics of steel.

Powder Coating
Haskell's products are designed around the newest steel coating technology. All steel parts and products are coated with powder that is cured in an oven. This offers superior durability and performance while eliminating waste and pollutants. Powder coating is in the enviable position of completely eliminating ozone layer eroding VOC (Volatile Organic Compounds).

Adhesives
In keeping with our powder coating that helps eliminate harmful VOC's. Haskell's Marathon seating incorporates the use of virtually VOC free adhesives when producing our seating product. We follow the stringent Ansi/Bifma M7.1 guidelines set for VOC adhesives. Every step in our process we are evaluating and using methods that eliminate our carbon footprint.

Packaging
Delivery of an undamaged unit on-site is a positive alternative to manufacturing a replacement in terms of energy and materials. For the last three years Haskell has consistently reduced the cardboard content of it's packaging by more than half while decreasing shipping damage. Corrugated cardboard used by Haskell contain at least 25% recycled materials.

…And More
Haskell's manufacturing process and facility is a 99% solvent-free environment and the company is as dedicated to the conservation of our natural resources as it is to the elimination of pollutants. All forklifts have been converted from gasoline to either natural gas or electric power, or have been replaced by electric scissor lifts and gravity fed roller tables.
