

## Chapter 9 – Design Guides

### 9.1 GENERAL

- A. This Section of the Design Manual includes design guides that are not to be considered as authoritative, but will provide guidance, tips and tools that OGS D&C believes the Designer will find helpful in structuring projects that include portions of these guides. Most of these guides are based on past OGS D&C project experiences dealing with design issues, agency standards and initiatives such as LEED, Executive Order 88 and the New York State Building Codes.
