REVISION TO BID SPECIFICATION (PAGE 21)

On page 21 of the above Invitation for Bids, clause “6.6 – Asphalt Price Adjustments / 6.6.1 General Section a” has been replaced with the following:

6.6 Asphalt Price Adjustments

6.6.1 General

- a. Asphalt price adjustments allowed will be based on the **September 1, 2015** average of the F.O.B. terminal price **per ton** of unmodified PG 64S-22 binder without anti-stripping agent (base average F.O.B. terminal price) **for the hot mix asphalt and tack coat.**

The September 1, 2015 average is \$521.000 per ton.

The new monthly average terminal price will be determined by the New York State Department of Transportation based on prices of pre-approved primary sources of performance graded binder in accordance with the New York State Department of Transportation Standard Specification.

NOTE: The same grade of asphalt cement used in establishing the base average F.O.B. terminal price shall be used in establishing the new average F.O.B. terminal price.

In the event that one or more of the New York State Department of Transportation pre-approved sources discontinue posting a price for asphalt cement, the base average F.O.B. terminal **price shall not be recalculated**

CLARIFICATION TO BID SPECIFICATION

Inquiry: “It seems that the route markers for OGS Project #7 (NYSDOT Project No. 360340) are not right. The project is on Route 392 but has markers for Route 90. Please advise.”

Response: The mile marker designation in the IFB is correct. Route 392 from the intersection of Route 215/392 to the intersection of Route 11/392 still carries Route 90 mile markers, as it was formerly designated as Route 90.
