Mounting Panels for the Learning Activity Panel [sold separately]

Mounting panels are sold separately from the Learning Activity Panel. Mounting Panels are 3/4" thick and can be made to hold up to 5 Learning Activity Panels or up to 95.5" in length and can get tight joint fastened for longer runs. Mounting Panels come with predetermined pilot holes machined to accept the Learning Activity Panel.

Laminate Mounting Panel - HPL colored laminate on the front and HPL backer material with exposed plywood edge.

Wood Mounting Panel - .75" Baltic Birch with exposed plywood edge.

Mounting panels are generally field drilled and mounted to a wall using wall fasteners such as long screws into the wall stud, drywall toggles for drywall or cement inserts for cement walls. The position of the holes for the anchors are dependent on the installer and the type of wall the panel is mounted to. Learning Activity Panels are then attached to the mounting panel by slipping them onto the 4 male shoulder screws per panel.

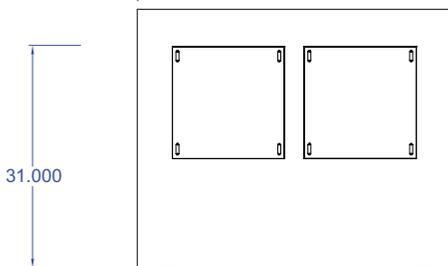

Learning Activity Panels can not be installed directly onto drywall, plaster or concrete walls without the mounting panel accessory.

Mounting Heights for Learning Activity Panels

Standard universal heights we suggest 31" from the floor to the top of the Learning Activity Panel.

For baby or really small children, 24" from the floor to the top of the Learning Activity Panel.

We also recommend ample spacing 2.5" - 3" between Learning Activity Panels panels for ease of use.

Mounting Panels

Description	Name	Model	List Price
Wood Mounting Panel	Single Mounting Panel 20" x 20" x .75"	APC2020-MV	\$210.
Laminate Mounting Panel	Single Mounting Panel 20" x 20" x .75"	APC2020-SL	\$210.

For longer mounting panel options please see customer service

Ordering Information

Order all items by their product code.
To create the product code specify:

Example: APC2020-MV -

Model

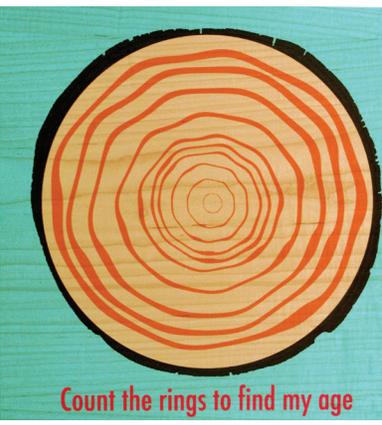

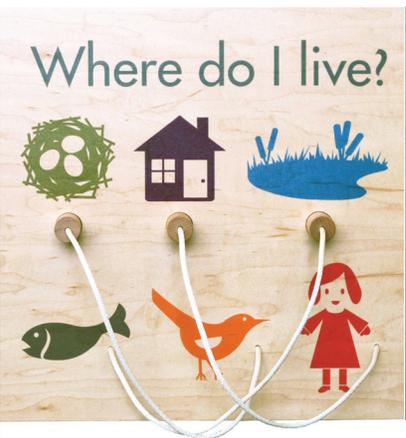

Specify finish color or laminate.
Custom finish color: CC
Standard laminate: SL
Custom laminate: CL

Construction

Baltic birch with exposed edge. Standard laminates from Formica, Wilsonart, Pionite and Nevamar may be specified. Premium laminates will require upcharge. Please see customer service for details. Mounting panels provide CNC machining and hardware to accept learning panels. Mounting panels will require different hardware applications for differing mounting surfaces. Dry wall, CMS or wood will require different hardware. See next page for more details.

Ordering Information

Environment and Sustainability

TMC Furniture is committed to reducing, reusing and recycling to help ease the strain on our environment.

- We design and manufacture all of our products with long life cycles to reduce the need to discard and replace furniture.
- Our products are primarily manufactured using wood – a wonderful organic material that is renewable, recyclable and biodegradable.
- The northern hardwoods that we select for our furniture come from renewable and sustainable forests; we do not use wood from endangered tree species.
- TMC furnishings are made in the USA, which limits our transportation needs (as compared to trans-oceanic imports), thus reducing the carbon footprint of our products.
- Many of our products are constructed using Forbo Linoleum a “high-scoring” LEED material. TMC’s extensive experience with environmentally-friendly materials allows us to easily incorporate them into semi-custom and fully-custom products.
- Our metal and plastic products contain recycled content.
- Our adhesives, stains and finishes are designed to minimize harmful emissions – wherever possible, we use water-based products.
- Both our locations – TMC’s Grand Rapids Factory and Ann Arbor Office – are committed to recycling paper, cardboard, plastics and scrap materials left over from our furniture production, thus dramatically reducing landfill requirements.
- We are just-in-time manufacturers, eliminating storing unnecessary inventory.
- We offer blanket-wrap shipping, thereby eliminating packaging waste.

Whenever possible, TMC uses processing procedures and products that have minimal environmental impact.

BIFMA

ORDERS

Please submit all orders in writing and specify each item by its product code and the corresponding model description, finish, upholstery and options offered in the price list. If your current order must match a previous order, a sample product from the original order needs to accompany your new order to assure uniformity of finish and construction.

ACKNOWLEDGEMENT

Our written acknowledgement will notify you that your order has been accepted. If there is any discrepancy, you need to notify us within 72 hours using the approval request form that is provided by TMC.

You will receive an estimated ship date once your order has been fully acknowledged and approved. If for some reason your furniture must not ship earlier than the estimated ship date, please specify a “Do not ship before date” in your purchase order. While we make every effort to ship your furniture on time, we are not responsible for delays in scheduling or failure to make a scheduled shipping date due to factors beyond our control such as strikes, lockouts or other labor complications, wars, riots, Acts of God, fires, accidents, restraints affecting shipment or credit, reduced supply, excessive cost of fuel or raw material, delays from suppliers, compliance with government regulations or other unforeseen contingencies.

WOOD FINISHES

TMC’s wood finishes, like all wood finishes, can be light sensitive, therefore care should be taken to avoid placing your chairs in areas exposed to intense natural light. We apply UV blocker on our furniture, however, expect some wood finish colors to shift over time. There are variations common to all wood species, so the color and grain characteristics of our finish samples may not exactly match the finish of the furniture you receive from us. The aniline dyes, wood stains and toners penetrate wood, however, chair seats, furniture surfaces and edges may show wearing with use especially on the dark finish colors.

WATER BASE TOP COAT FINISH

TMC’s water base top coat is also available on all of our products. No upcharges will apply. To order simply put a W- before the finish number. For example W-01 is water based Clear.

CUSTOM WOOD FINISH MATCH

We will be pleased to prepare custom wood finish matches for you, however, all custom matches are subject to a minimum mixing charge. The set-up is \$445.00 LIST and \$16.00 LIST per unit. We require several important conditions for all custom finish orders. First, your custom finish must be approved by our factory. Please allow up to three weeks for our factory to prepare the custom wood finish match sample. Second, due to limitations of the raw materials and the natural background color of wood, not all colors can be successfully reproduced. As a result, we cannot always determine beforehand whether or not a color is suitable for custom finish matching. This is especially true in the case of custom colors submitted on non-wood products. If we are unable to produce a commercial match to your custom color, you will be notified as early as possible and you will not be charged.

Terms, Conditions and Shipping Information

PRICES

All prices in our catalog are list prices F.O.B. our factory in Grand Rapids, Michigan. Our chair pricing includes packing and corrugated cartoning for common carrier shipments. Our list prices do not include freight, storage, taxes or additional packaging required for UPS or blanket wrapped shipments. Our prices are subject to change without notice.

We reserve the right to change quotation prices prior to acceptance by you. Our quotation prices are valid for 30 days; a TMC quote older than 30 days must be re-submitted for dating and approval. Any pricing for orders in which you specify a shipment 90 days or more after the formal date of acknowledgment will be based on the product's prevailing price at time of shipment.

RESALE RIGHTS

We reserve the right to reject any order placed by any customer for any reason, irrespective of whether orders have been previously accepted from that customer; and without incurring any liability to that customer. No customer shall have a continuing right to buy products from us except as part of a formal dealer agreement or other written agreement covering future supply and authorized by us and the reseller. Distribution of our price list or catalog does not itself constitute an offer to sell.

CREDIT AND PAYMENT TERMS

New customers are encouraged to establish an open account; to do this, please request a credit application from our accounting department. One bank and three trade references will be required. Credit will be established upon review and approval of your application. Please allow up to four weeks delay for credit approval. To avoid this delay, orders from new accounts must be accompanied by a 50% deposit. If credit is approved by the time your first order is ready to ship, the balance must be paid within the terms stated on your acknowledgement. Accounts that are inactive for a twelve-month period will automatically be closed and are subject to the above conditions for new accounts. We reserve the right to change or cancel credit and may request advance payment at any time.

Once you have established an open account with us, terms are "Net 15 Days" after the date of our invoice. We add a service charge of 2% each month to all past due accounts. Additionally, we cease processing all orders for past due accounts until the amount due, including any service charge, is paid in full. We require a down payment of 50% for all custom orders, and we will not schedule custom orders for production until the down payment is received.

CHANGES AND CANCELLATIONS

You must receive factory approval to change or cancel your order. We will make every reasonable effort to stop production scheduling and shipment after we have received your written notification of any changes, cancellations or deferrals. However, we ask that you comply with the following:

Changes

Order changes are subject to a fee which will be used to cover administrative, design and/or engineering time. Any change request(s) must be documented in writing. We will in turn, confirm in writing, our acknowledgement of your change and inform you of the fee amount (if applicable). Order changes received after production has started involving only an increase in quantity will not be assessed a charge. Custom orders or orders with custom finishes cannot be changed after work has been started. Orders for upholstered chairs may not be changed after upholstery cover has been cut. You will receive the goods as ordered and be liable for amount due.

Cancellations

We charge \$100 for cancellations received prior to production. Cancellations received after production has been started will be assessed the total accumulated cost of the project plus a \$100 net cancellation charge to cover administrative costs.

FREIGHT PROGRAM

TMC Furniture has a freight program that applies to deliveries inside the continental United States. The rates are based on the percentage of the LIST price of TMC Furniture products. Percentages will vary according to the destination state. Please see the LTL Freight Program PDF, a companion worksheet, for freight zones and percentage rates. Available on our website under Resources>Programs. For deliveries outside the continental United States, please contact customer service for your freight rate.

SHIPPING

We will ship in accordance with your written instructions. If you omit specific shipping instructions, then we will ship in the manner that we consider to be the best way. All shipments are sent F.O.B. Grand Rapids, Michigan. Our liability ends when the carrier issues a receipt to us, which is an acknowledgement by the transportation company that the shipment has been received in good condition. Title of the goods and risk of loss then transfers to you. Freight must be paid by you unless otherwise acknowledged in writing by TMC. We make every effort to ship orders complete and on schedule. We reserve the right to make partial shipments as merchandise is ready. Our failure to deliver all the merchandise at one time does not relieve you from the obligation to accept and pay for the merchandise you receive.

DAMAGE CLAIMS

All our products are thoroughly inspected prior to shipment from our factory and packed to comply with carrier requirements. You should carefully inspect all items upon arrival and note any obvious damage on the receipt of delivery and if possible, photograph the damage. You need to file a written claim immediately with the carrier if you discover any obvious or subsequently concealed damage. Caution: When a clear receipt is obtained by a carrier, then the carrier is no longer responsible for damages or shortages. Damaged freight cannot be refused by the consignee (buyer). Processing claims for damage and shortages are the responsibility of the buyer. At no time can claims be deducted from our invoices.

DEFERRED SHIPMENTS

If you request a delay in shipment of your order and your order is complete or in the production cycle, then we assess charges from the completion date in accordance with our policy for "Storage by the Manufacturer."

STORAGE BY THE MANUFACTURER

If you cannot accept delivery when your furniture is ready, according to the terms of our acknowledgement, then we reserve the right to transfer the merchandise to storage at your expense, and the order will be invoiced at the time of storage. Payment of this invoice will be due on the original terms stipulated in our acknowledgement. Storage charges and freight charges for delivery will be invoiced separately upon release of the merchandise from storage and will be due upon receipt of the invoice.

We charge \$3.50 net per hundred weight, or a minimum of \$35.00, whichever is greater, plus \$35.00 net handling for any items that are required to be stored for more than a week. If long-term storage (i.e., anything over 30 days) becomes necessary, then we require you to arrange appropriate warehousing and insurance coverage and the merchandise will be stored at your risk.

STORAGE AND USE BY OWNER

Due to the nature of wood products, we cannot guarantee any product stored, used or placed in an environment where temperature and humidity are not controlled. Temperatures must be maintained within a range of 50°-80° F (10°-27° C); the relative humidity must be maintained between 25% and 40%. Not surprisingly, these conditions are also commonly recommended human health standards.

RETURN POLICY

All of products are made to order and are not eligible for return. If by small chance your product was given the ok for return there is a 30% restocking charge plus freight.

WARRANTY

All TMC products are made to our high production and design standards and are warranted to be free from defects in material and workmanship for a period of five years from the date of shipment from our factory. Our obligation during this warranty period is limited to repair or replacement at our option. This warranty covers defects in workmanship that would lead to veneer lifting or peeling, glue joint failure, and wood joints pulling apart. TMC's warranty covers the lifting of plastic laminate, linoleum or other surface material from substrate, but we can only underwrite the original manufacturer's guarantee against scratching, chipping and material defect. TMC uses finishing techniques that highlight the inherent beauty of wood. However, wood is a natural product with naturally-occurring imperfections: depending on the species and cut certain hardwoods and veneers may absorb our stains differently; all finishes can be expected to mellow with age; and some expansion/contraction is normal. Therefore, the foregoing are not considered defects in materials or manufacturing process and are not covered under this warranty. TMC does not warrant products manufactured to the specifications of others nor their fitness for particular purpose or use. No warranty is made for non-standard materials selected by and used at the request of the customer such as COM, COL, or any other customer-supplied or specified product.

Our warranty becomes null and void on any goods repaired or altered by any person who is not authorized by TMC or where the purchaser has failed to follow published instructions for assembly, use or care. This warranty covers our products under normal use and in service under conditions for which the products are designed. TMC considers normal use to be single-shift service (eight hours per day, five days per week); extended use (multiple shifts, 24-hour facilities, etc.) will reduce this warranty to two years. Additionally, this warranty becomes null and void on any products which, in the judgment of TMC, have been subject to abuse, misuse, improper storage, negligence, acts of God, or environmental conditions such as heat or humidity or damage to the products that is not attributable to the failure of the products themselves. We make no other warranties either expressed or implied regarding any matter whatsoever, including, without limitation, the condition of the merchandise, its merchantability, or its fitness for any particular use or purpose, and in no event shall TMC be liable for incidental or consequential damages. Any defects should be reported immediately. All claims will be processed by TMC's Customer Service Department, and all returns must be authorized by us in writing. Merchandise authorized for return, repair or replacement must be removed from service, shipped and installed at the expense of the customer. A copy of the original purchase order must accompany all claims. This warranty is not transferable.

PRODUCT DIMENSIONS, SPECIFICATIONS AND VARIATIONS

The sizes and weights listed for our products are approximated. We reserve the right to make changes in design and construction or discontinue products without notice. Due to conditions beyond our control all wood products, fabrics and vinyls are subject to variations in color, texture and grain.

Our price list specifications supersede all other specifications whether verbal or written, and may not be altered without the written consent of an officer of TMC. All clerical errors on any agreement, publication, correspondence, price list, or product literature pieces are subject to correction at any time.

CARE AND MAINTENANCE

Since furniture is installed and used under a variety of conditions, we urge you to make inspections no less than every six months to look for damage or signs of structural fatigue incurred in daily handling, use and abuse. Your examination should include welds, machine screw assemblies and the shell to base fasteners. If you discover problems that could compromise the structural safety of a chair, table or other product, you should immediately remove it from service and TMC should be notified. Coats and other articles should not be hung on the backs of chairs. This practice may cause chairs to be unstable.

Wood Edges and Veneer Surfaces

Clean surfaces with a damp soft cloth. Dry surface by moving a soft cloth in the direction of the wood grain. Avoid placing tables under intense direct sunlight.

Powder Coat Surfaces

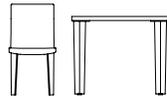

Clean surfaces with a mild soap solution. Dry with a soft cloth.

Chrome Surfaces

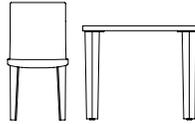

Clean with window cleaner or a damp cloth. Dry with a soft cloth.

SIZE AND AGE CHART

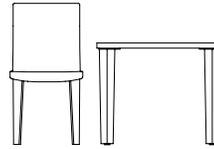

Recommended table and chair seat height and table height combinations for each stage of a child's development. Chair and table options recommended for 14 + Years Old are part of the adult collection.

CUT-OUT PROCESS OPTIONS AND CODES

2 cut-out process options: Cut-Thru (CT) and InScribed (NC) and InSet (NT). To learn more about designs and processes available, reference the Cut-Out Portfolio, a companion workbook.

CutThru™
[CT]

A panel with a CutOut design that leaves a void you can see through.

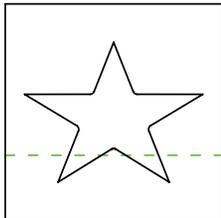

InScribed™
[NC]

A panel with a laser design that is flush to the panel's surface.

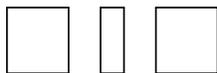

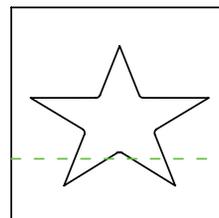

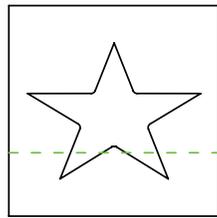

InSet™
[NT]

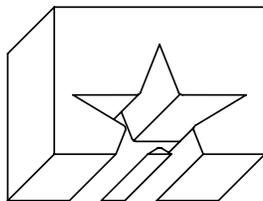

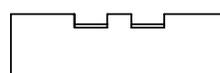

A panel with a recessed Cut-Out design (usually 1/4" deep) and filled with a material such as laminate or wood.

Ordering Information

Order all items by their product code.

To create the product code specify:

1. Model
2. Top selection [specify Standard Laminate [SL]; Custom [CL]]
3. Edge treatment code [see page 11]
4. Edge color [see page 9]
5. Cut-Out [no cut-out specify XX]
6. Cut-Out Placement [see diagram page 13; none XX] Example: CASCC3030LA -
7. Leg Model + height
8. Carrel finish [see page 9]
9. Electrical Components [see Power Data Guide]

Construction

Panels: Premium maple veneer plywood with exposed plywood edge. Other veneer and edge-banded woods are available.

Worksurfaces: Standard grade laminate from Formica, Wilsonart, Pionite and Nevamar. Linoleum may be specified at an additional cost.

CutOut™: Standard technique is CutThru™.

Wire Management: Grommets come standard on all. Various options exist to facilitate computer access, including power and data receptacles, CPU holders and keyboard trays. For detailed information please refer to our Power Data Guide.

Notes: Reference shelf is optional.

Ordering Information

Order all items by their product code.
To create the product code specify:

1. Model
2. Top selection [specify Standard Laminate [SL]; Custom [CL]]
3. Edge treatment code [see page 11]
4. Edge color [see page 9]
5. Cut-Out [no cut-out specify XX]
6. Cut-Out Placement [see diagram page 13; none XX]
7. Leg Model + height
8. Carrel finish [see page 9]
9. Electrical Components [see Power Data Guide]

Construction

Panels: Premium maple veneer plywood with exposed plywood edge. Other veneer and edge-banded woods are available.
Worksurfaces: Standard grade laminate from Formica, Wilsonart, Pionite and Nevamar. Linoleum may be specified at an additional cost.
CutOut™: Standard technique is CutThru™.
Wire Management: Grommets come standard on all. Various options exist to facilitate computer access, including power and data receptacles, CPU holders and keyboard trays. For detailed information please refer to our Power Data Guide.
Notes: Reference shelf is optional.

Example: CASCC3030LS -

Model	Top surface SL- standard laminate selection* CL- Custom	Edge treatment code	Edge color	CutOut™ [no cut-out specify XX; custom CC]	CutOut™ Placement see diagram on page 11 [if applicable]	Leg Model F20 = 20" F24 = 24" F26 = 26"	Carrel finish
--------------	--	----------------------------	-------------------	--	--	---	----------------------

Ordering Information

Order all items by their product code.

To create the product code specify:

1. Model
2. Top selection [specify Standard Laminate [SL]; Custom [CL]]
3. Edge treatment code [see page 11]
4. Edge color [see page 9]
5. Carrel finish [see page 9]
5. Cut-Out [no cut-out specify XX]
6. Cut-Out Placement [see diagram page 13; none XX]
7. Leg Model
8. Leg finish
9. Glide color [if applicable]
9. Electrical Components [see Power Data Guide]

Example: CWAC4260LP - - - - -

Model	Top surface SL- standard laminate selection*	Edge treatment code	Edge color	Carrel finish color	CutOut™ [no cut-out specify XX; custom CC]	CutOut™ Placement see diagram on page 11 [if applicable]	Leg Model see page 8 for leg codes	Leg finish	Glide color [if applicable]
CWAC4260LP	CL- Custom								

Construction

Panels: Premium maple veneer plywood with exposed plywood edge. Other veneer and edge-banded woods are available.

Worksurfaces: Standard grade laminate from Formica, Wilsonart, Pionite and Nevamar. Linoleum specified at an additional cost.

CutOut™: Standard technique is CutThru™.

Wire Management: Grommets come standard on all. Various options exist to facilitate computer access, including power and data receptacles, CPU holders and keyboard trays. For detailed information please refer to our Power Data Guide.

Notes: Reference shelf is optional.

Electrical Data -

One grommet per workstation is included

* Standard grade laminate from Formica, Wilsonart, Pionite and Nevamar

Speciality Tables

Leaf table

Construction

Worksurfaces: 1" Baltic Birch with laminate or wood veneer surface. A phenolic backer on the underside is standard.

Plover Legs: Constructed of 1" thick plywood of select North American rotary-cut maple veneer with an adjustable level feature. A wide variety of wood finish colors are available.

Lorca Legs: Constructed of 2" diameter steel tube welded to a 4" x 4" steel top plate. Legs are electrostatically coated with epoxy powder. A wide variety of powder coat finishes are available. Glide is constructed of hard maple turned to match the Lorca/Wyoming chair glide with an adjustable level feature. Available in red, yellow, blue, grey and black.

Ordering Information

Environment and Sustainability

TMC Furniture is committed to reducing, reusing and recycling to help ease the strain on our environment.

- We design and manufacture all of our products with long life cycles to reduce the need to discard and replace furniture.
- Our products are primarily manufactured using wood – a wonderful organic material that is renewable, recyclable and biodegradable.
- The northern hardwoods that we select for our furniture come from renewable and sustainable forests; we do not use wood from endangered tree species.
- TMC furnishings are made in the USA, which limits our transportation needs (as compared to trans-oceanic imports), thus reducing the carbon footprint of our products.
- Many of our products are constructed using Forbo Linoleum a “high-scoring” LEED material. TMC’s extensive experience with environmentally-friendly materials allows us to easily incorporate them into semi-custom and fully-custom products.
- Our metal and plastic products contain recycled content.
- Our adhesives, stains and finishes are designed to minimize harmful emissions – wherever possible, we use water-based products.
- Both our locations – TMC’s Grand Rapids Factory and Ann Arbor Office – are committed to recycling paper, cardboard, plastics and scrap materials left over from our furniture production, thus dramatically reducing landfill requirements.
- We are just-in-time manufacturers, eliminating storing unnecessary inventory.
- We offer blanket-wrap shipping, thereby eliminating packaging waste.

Whenever possible, TMC uses processing procedures and products that have minimal environmental impact.

BIFMA

ORDERS

Please submit all orders in writing and specify each item by its product code and the corresponding model description, finish, upholstery and options offered in the price list. If your current order must match a previous order, a sample product from the original order needs to accompany your new order to assure uniformity of finish and construction.

ACKNOWLEDGEMENT

Our written acknowledgement will notify you that your order has been accepted. If there is any discrepancy, you need to notify us within 72 hours using the approval request form that is provided by TMC.

You will receive an estimated ship date once your order has been fully acknowledged and approved. If for some reason your furniture must not ship earlier than the estimated ship date, please specify a “Do not ship before date” in your purchase order. While we make every effort to ship your furniture on time, we are not responsible for delays in scheduling or failure to make a scheduled shipping date due to factors beyond our control such as strikes, lockouts or other labor complications, wars, riots, Acts of God, fires, accidents, restraints affecting shipment or credit, reduced supply, excessive cost of fuel or raw material, delays from suppliers, compliance with government regulations or other unforeseen contingencies.

WOOD FINISHES

TMC’s wood finishes, like all wood finishes, can be light sensitive, therefore care should be taken to avoid placing your chairs in areas exposed to intense natural light. We apply UV blocker on our furniture, however, expect some wood finish colors to shift over time. There are variations common to all wood species, so the color and grain characteristics of our finish samples may not exactly match the finish of the furniture you receive from us. The aniline dyes, wood stains and toners penetrate wood, however, chair seats, furniture surfaces and edges may show wearing with use especially on the dark finish colors.

WATER BASE TOP COAT FINISH

TMC’s water base top coat is also available on all of our products. No upcharges will apply. To order simply put a W- before the finish number. For example W-01 is water based Clear.

CUSTOM WOOD FINISH MATCH

We will be pleased to prepare custom wood finish matches for you, however, all custom matches are subject to a minimum mixing charge. The set-up is \$445.00 LIST and \$16.00 LIST per unit. We require several important conditions for all custom finish orders. First, your custom finish must be approved by our factory. Please allow up to three weeks for our factory to prepare the custom wood finish match sample. Second, due to limitations of the raw materials and the natural background color of wood, not all colors can be successfully reproduced. As a result, we cannot always determine beforehand whether or not a color is suitable for custom finish matching. This is especially true in the case of custom colors submitted on non-wood products. If we are unable to produce a commercial match to your custom color, you will be notified as early as possible and you will not be charged.

Terms, Conditions and Shipping Information

PRICES

All prices in our catalog are list prices F.O.B. our factory in Grand Rapids, Michigan. Our chair pricing includes packing and corrugated cartoning for common carrier shipments. Our list prices do not include freight, storage, taxes or additional packaging required for UPS or blanket wrapped shipments. Our prices are subject to change without notice.

We reserve the right to change quotation prices prior to acceptance by you. Our quotation prices are valid for 30 days; a TMC quote older than 30 days must be re-submitted for dating and approval. Any pricing for orders in which you specify a shipment 90 days or more after the formal date of acknowledgment will be based on the product's prevailing price at time of shipment.

RESALE RIGHTS

We reserve the right to reject any order placed by any customer for any reason, irrespective of whether orders have been previously accepted from that customer; and without incurring any liability to that customer. No customer shall have a continuing right to buy products from us except as part of a formal dealer agreement or other written agreement covering future supply and authorized by us and the reseller. Distribution of our price list or catalog does not itself constitute an offer to sell.

CREDIT AND PAYMENT TERMS

New customers are encouraged to establish an open account; to do this, please request a credit application from our accounting department. One bank and three trade references will be required. Credit will be established upon review and approval of your application. Please allow up to four weeks delay for credit approval. To avoid this delay, orders from new accounts must be accompanied by a 50% deposit. If credit is approved by the time your first order is ready to ship, the balance must be paid within the terms stated on your acknowledgement. Accounts that are inactive for a twelve-month period will automatically be closed and are subject to the above conditions for new accounts. We reserve the right to change or cancel credit and may request advance payment at any time.

Once you have established an open account with us, terms are "Net 15 Days" after the date of our invoice. We add a service charge of 2% each month to all past due accounts. Additionally, we cease processing all orders for past due accounts until the amount due, including any service charge, is paid in full. We require a down payment of 50% for all custom orders, and we will not schedule custom orders for production until the down payment is received.

CHANGES AND CANCELLATIONS

You must receive factory approval to change or cancel your order. We will make every reasonable effort to stop production scheduling and shipment after we have received your written notification of any changes, cancellations or deferrals. However, we ask that you comply with the following:

Changes

Order changes are subject to a fee which will be used to cover administrative, design and/or engineering time. Any change request(s) must be documented in writing. We will in turn, confirm in writing, our acknowledgement of your change and inform you of the fee amount (if applicable). Order changes received after production has started involving only an increase in quantity will not be assessed a charge. Custom orders or orders with custom finishes cannot be changed after work has been started. Orders for upholstered chairs may not be changed after upholstery cover has been cut. You will receive the goods as ordered and be liable for amount due.

Cancellations

We charge \$100 for cancellations received prior to production. Cancellations received after production has been started will be assessed the total accumulated cost of the project plus a \$100 net cancellation charge to cover administrative costs.

FREIGHT PROGRAM

TMC Furniture has a freight program that applies to deliveries inside the continental United States. The rates are based on the percentage of the LIST price of TMC Furniture products. Percentages will vary according to the destination state. Please see the LTL Freight Program PDF, a companion worksheet, for freight zones and percentage rates. Available on our website under Resources>Programs. For deliveries outside the continental United States, please contact customer service for your freight rate.

SHIPPING

We will ship in accordance with your written instructions. If you omit specific shipping instructions, then we will ship in the manner that we consider to be the best way. All shipments are sent F.O.B. Grand Rapids, Michigan. Our liability ends when the carrier issues a receipt to us, which is an acknowledgement by the transportation company that the shipment has been received in good condition. Title of the goods and risk of loss then transfers to you. Freight must be paid by you unless otherwise acknowledged in writing by TMC. We make every effort to ship orders complete and on schedule. We reserve the right to make partial shipments as merchandise is ready. Our failure to deliver all the merchandise at one time does not relieve you from the obligation to accept and pay for the merchandise you receive.

DAMAGE CLAIMS

All our products are thoroughly inspected prior to shipment from our factory and packed to comply with carrier requirements. You should carefully inspect all items upon arrival and note any obvious damage on the receipt of delivery and if possible, photograph the damage. You need to file a written claim immediately with the carrier if you discover any obvious or subsequently concealed damage. Caution: When a clear receipt is obtained by a carrier, then the carrier is no longer responsible for damages or shortages. Damaged freight cannot be refused by the consignee (buyer). Processing claims for damage and shortages are the responsibility of the buyer. At no time can claims be deducted from our invoices.

DEFERRED SHIPMENTS

If you request a delay in shipment of your order and your order is complete or in the production cycle, then we assess charges from the completion date in accordance with our policy for "Storage by the Manufacturer."

STORAGE BY THE MANUFACTURER

If you cannot accept delivery when your furniture is ready, according to the terms of our acknowledgement, then we reserve the right to transfer the merchandise to storage at your expense, and the order will be invoiced at the time of storage. Payment of this invoice will be due on the original terms stipulated in our acknowledgement. Storage charges and freight charges for delivery will be invoiced separately upon release of the merchandise from storage and will be due upon receipt of the invoice.

We charge \$3.50 net per hundred weight, or a minimum of \$35.00, whichever is greater, plus \$35.00 net handling for any items that are required to be stored for more than a week. If long-term storage (i.e., anything over 30 days) becomes necessary, then we require you to arrange appropriate warehousing and insurance coverage and the merchandise will be stored at your risk.

STORAGE AND USE BY OWNER

Due to the nature of wood products, we cannot guarantee any product stored, used or placed in an environment where temperature and humidity are not controlled. Temperatures must be maintained within a range of 50°-80° F (10°-27° C); the relative humidity must be maintained between 25% and 40%. Not surprisingly, these conditions are also commonly recommended human health standards.

RETURN POLICY

All of products are made to order and are not eligible for return. If by small chance your product was given the ok for return there is a 30% restocking charge plus freight.

Terms, Conditions and Shipping Information

WARRANTY

All TMC products are made to our high production and design standards and are warranted to be free from defects in material and workmanship for a period of five years from the date of shipment from our factory. Our obligation during this warranty period is limited to repair or replacement at our option. This warranty covers defects in workmanship that would lead to veneer lifting or peeling, glue joint failure, and wood joints pulling apart. TMC's warranty covers the lifting of plastic laminate, linoleum or other surface material from substrate, but we can only underwrite the original manufacturer's guarantee against scratching, chipping and material defect. TMC uses finishing techniques that highlight the inherent beauty of wood. However, wood is a natural product with naturally-occurring imperfections: depending on the species and cut certain hardwoods and veneers may absorb our stains differently; all finishes can be expected to mellow with age; and some expansion/contraction is normal. Therefore, the foregoing are not considered defects in materials or manufacturing process and are not covered under this warranty. TMC does not warrant products manufactured to the specifications of others nor their fitness for particular purpose or use. No warranty is made for non-standard materials selected by and used at the request of the customer such as COM, COL, or any other customer-supplied or specified product.

Our warranty becomes null and void on any goods repaired or altered by any person who is not authorized by TMC or where the purchaser has failed to follow published instructions for assembly, use or care. This warranty covers our products under normal use and in service under conditions for which the products are designed. TMC considers normal use to be single-shift service (eight hours per day, five days per week); extended use (multiple shifts, 24-hour facilities, etc.) will reduce this warranty to two years. Additionally, this warranty becomes null and void on any products which, in the judgment of TMC, have been subject to abuse, misuse, improper storage, negligence, acts of God, or environmental conditions such as heat or humidity or damage to the products that is not attributable to the failure of the products themselves. We make no other warranties either expressed or implied regarding any matter whatsoever, including, without limitation, the condition of the merchandise, its merchantability, or its fitness for any particular use or purpose, and in no event shall TMC be liable for incidental or consequential damages. Any defects should be reported immediately. All claims will be processed by TMC's Customer Service Department, and all returns must be authorized by us in writing. Merchandise authorized for return, repair or replacement must be removed from service, shipped and installed at the expense of the customer. A copy of the original purchase order must accompany all claims. This warranty is not transferable.

Additional Information

PRODUCT DIMENSIONS, SPECIFICATIONS AND VARIATIONS

The sizes and weights listed for our products are approximated. We reserve the right to make changes in design and construction or discontinue products without notice. Due to conditions beyond our control all wood products, fabrics and vinyls are subject to variations in color, texture and grain.

Our price list specifications supersede all other specifications whether verbal or written, and may not be altered without the written consent of an officer of TMC. All clerical errors on any agreement, publication, correspondence, price list, or product literature pieces are subject to correction at any time.

CARE AND MAINTENANCE

Since furniture is installed and used under a variety of conditions, we urge you to make inspections no less than every six months to look for damage or signs of structural fatigue incurred in daily handling, use and abuse. Your examination should include welds, machine screw assemblies and the shell to base fasteners. If you discover problems that could compromise the structural safety of a chair, table or other product, you should immediately remove it from service and TMC should be notified. Coats and other articles should not be hung on the backs of chairs. This practice may cause chairs to be unstable.

Wood Edges and Veneer Surfaces

Clean surfaces with a damp soft cloth. Dry surface by moving a soft cloth in the direction of the wood grain. Avoid placing tables under intense direct sunlight.

Powder Coat Surfaces

Clean surfaces with a mild soap solution. Dry with a soft cloth.

Chrome Surfaces

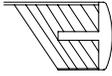

Clean with window cleaner or a damp cloth. Dry with a soft cloth.

CUT-OUT PROCESS OPTIONS AND CODES

2 cut-out process options: Cut-Thru (CT) and InScribed (NC) and InSet (NT). To learn more about designs and processes available, reference the Cut-Out Portfolio, a companion workbook.

**CutThru™
[CT]**

A panel with a CutOut design that leaves a void you can see through.

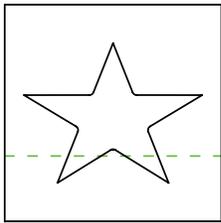

**InScribed™
[NC]**

A panel with a laser design that is flush to the panel's surface.

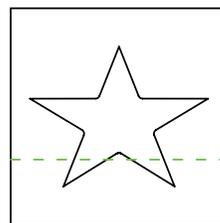

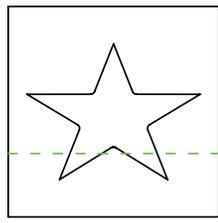

**InSet™
[NT]**

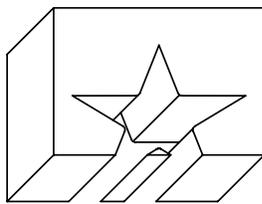

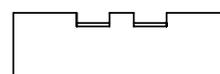

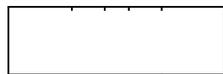

A panel with a recessed Cut-Out design (usually 1/4" deep) and filled with a material such as laminate or wood.

Product Code Builder

TMC's ordering system uses a product code that requires specifications to be detailed in a precise order. To make it easier for you to specify tables from the many options available, we suggest you follow the steps below in creating your table and corresponding product code. Should you have any questions, feel free to contact our customer service department or your sales rep, and they will be happy to assist you.

How to Order

Order all items by their product code.

To create the product code specify:

1. Model
2. Top surface selection
3. Top finish [if applicable]
4. Edge treatment
5. Edge color or finish
6. Table finish color
7. Cut-Out [no cut-out specify XX]
8. Cut-Out process selection
9. Cut-Out detail finish color [if applicable]
10. Base finish [see wood finish card]

Example: TVAM181820M - - - - -

Top surface	Top finish	Edge treatment	Edge color or finish	Table finish	CutOut™	CutOut™	CutOut™	Base finish
SL- Laminate CL- Custom Laminate MV- Maple Veneer CC - Custom	finish color [if applicable]				[no cut-out specify XX, custom CC]	process selection.* For InSet™ technique specify standard laminate [SL]** or custom [CL]. For InScribed™ technique specify standard wood finish [FC] or custom finish [CC].	detail finish color [if applicable]	
Standard laminates from: Wilsonart, Pionite, Formica and Nevamar Custom/Premium laminate from Wilsonart, Formica, Nevamar and Pionite or laminate from any other manufacturers is considered custom								** Standard grade laminate from Formica, Wilsonart, Pionite and Nevamar

Ordering Information

Orders

Please submit all orders in writing and specify each item by its product code and the corresponding model description, finish, upholstery and options offered in the price list. If your current order must match a previous order; a sample product from the original order needs to accompany your new order to assure uniformity of finish and construction.

Acknowledgement

Our written acknowledgement will notify you that your order has been accepted. If there is any discrepancy, you need to notify us within 72 hours using the approval request form that is provided by TMC.

You will receive an estimated ship date once your order has been fully acknowledged and approved. If for some reason your furniture must not ship earlier than the estimated ship date, please specify a "Do not ship before date" in your purchase order. While we make every effort to ship your furniture on time, we are not responsible for delays in scheduling or failure to make a scheduled shipping date due to factors beyond our control such as strikes, lockouts or other labor complications, wars, riots, Acts of God, fires, accidents, restraints affecting shipment or credit, reduced supply, excessive cost of fuel or raw material, delays from suppliers, compliance with government regulations or other unforeseen contingencies.

Wood Finishes

TMC's wood finishes, like all wood finishes, can be light sensitive, therefore care should be taken to avoid placing your chairs in areas exposed to intense natural light. We apply UV blocker on our furniture, however, expect some wood finish colors to shift over time. There are variations common to all wood species, so the color and grain characteristics of our finish samples may not exactly match the finish of the furniture you receive from us. The aniline dyes, wood stains and toners penetrate wood, however, chair seats, furniture surfaces and edges may show wearing with use especially on the dark finish colors.

Water Based Top Coat Finish

TMC's water based top coat finish is available on all of products. No upcharges will apply. To order water-based finishes simply put a W- before the finish number.

For example W-01 is water base Clear.

Custom Wood Finish Match

We will be pleased to prepare custom wood finish matches for you, however, all custom matches are subject to a minimum mixing charge. The set-up is \$445.00 List and \$16.00 LIST per unit. We require several important conditions for all custom finish orders. First, your custom finish must be approved by our factory. Please allow up to three weeks for our factory to prepare the custom wood finish match sample. Second, due to limitations of the raw materials and the natural background color of wood, not all colors can be successfully reproduced. As a result, we cannot always determine beforehand whether or not a color is suitable for custom finish matching. This is especially true in the case of custom colors submitted on non-wood products. If we are unable to produce a commercial match to your custom color; you will be notified as early as possible and you will not be charged.

Customer's Own Material [COM]

To make sure that all materials in our products work properly together, we reserve the right to approve all COM, prior to accepting your order. Even after our preliminary approval, we must reserve the right to reject COM if we find, upon physical inspection of the COM, that it proves unacceptable for use on our products. If this occurs, you will be notified in writing with an explanation of the problem. A written release from you will be required for the order to be processed.

We cannot assume responsibility for durability, appearance or other qualities of COM on our finished products. As a condition of our acceptance of a COM order, we may require additional yardage, labor charges or handling surcharges. Please make sure that all your COM deliveries to TMC are properly identified; COM delivered to our factory without proper identification may be refused, and we will have no responsibility for loss or any other claims. We do not return excess fabric unless you specifically request in writing that we do so.

Please contact our factory for yardage requirements on all COM fabrics which are patterned or narrower than 54 inches wide. If you order using COM, we cannot schedule production until we receive the COM at our factory. We will make every effort to avoid a delay and to complete your order within our standard lead times.

All shipments of COM to TMC must be sent prepaid. COM should be sent to:

TMC Furniture
4525 Airwest Dr. SE
Kentwood, MI 49512

COM packages shipped to our factory must include the following information:

- Your name and address
- Project name
- TMC Order # (if you have)
- The purchase order number to which your material applies

When you specify COM, your purchase order must include:

- A small sample of your COM fabric (stapled to the order)
- Directions as to which is the exposed side of the fabric
- An indication as to whether the upholstered application is vertical or horizontal
- COM supplier's name and fabric number
- The quantity of pieces to which the material is to be applied

California Technical Bulletin 133 [TB 133]

TB 133 is a full-scale fire performance test of complete articles of seating furniture. Products must be tested in combination with a specific fabric to be in compliance with TB 133. Our test documentation for furniture and fabric combinations may be available upon request. If you wish to specify TMC products that have not been tested for compliance with TB 133 please consult the factory for TB 133 testing cost information.

In order for our products to comply with TB 133, the foam must be protected with a fireblocker, or a special fire retardant foam must be used. If you order a TMC product that must comply with TB 133, we will charge \$15.00 net per chair or \$100.00 net per minimum order for fire blocker laminating or fire retardant foam.

California Technical Bulletin 117-2013

All of TMC products are manufactured to conform to California TB 117-2013. COM fabrics will also need to meet the same technical bulletin criteria to insure California TB 117-2013 compliance.

Terms, Conditions and General Information

Prices

All prices in our catalog are list prices F.O.B. our factory in Grand Rapids, Michigan. Our chair pricing includes packing and corrugated cartoning for common carrier shipments. Our list prices do not include freight, storage, taxes or additional packaging required for UPS or blanket wrapped shipments. Our prices are subject to change without notice.

We reserve the right to change quotation prices prior to acceptance by you. Our quotation prices are valid for 30 days; a TMC quote older than 30 days must be re-submitted for dating and approval. Any pricing for orders in which you specify a shipment 90 days or more after the formal date of acknowledgment will be based on the product's prevailing price at time of shipment.

Resale Rights

We reserve the right to reject any order placed by any customer for any reason, irrespective of whether orders have been previously accepted from that customer, and without incurring any liability to that customer. No customer shall have a continuing right to buy products from us except as part of a formal dealer agreement or other written agreement covering future supply and authorized by us and the reseller. Distribution of our price list or catalog does not itself constitute an offer to sell.

Credit and Payments Terms

New customers are encouraged to establish an open account; to do this, please request a credit application from our accounting department. One bank and three trade references will be required. Credit will be established upon review and approval of your application. Please allow up to four weeks delay for credit approval. To avoid this delay orders on new accounts must be accompanied by a 50% deposit. If credit is approved by the time your first order is

ready to ship, the balance must be paid within the terms stated on your acknowledgement. Accounts that are inactive for a twelve-month period will automatically be closed and are subject to the above conditions for new accounts. We reserve the right to change or cancel credit and may request advance payment at any time.

Once you have established an open account with us, terms are "Net 15 Days" after the date of our invoice. We add a service charge of 2% each month to all past due accounts. Additionally, we cease processing all orders for past due accounts until the amount due, including any service charge, is paid in full. We require a down payment of 50% for all custom orders, and we will not schedule custom orders for production until the down payment is received.

Changes and Cancellations

You must receive factory approval to change or cancel your order. We will make every reasonable effort to stop production scheduling and shipment after we have received your written notification of any changes, cancellations or deferrals. However, we ask that you comply with the following:

Order Changes

Order changes are subject to a fee which will be used to cover administrative, design and/or engineering time. Any change request(s) must be documented in writing. We will in turn, confirm in writing, our acknowledgement of your change and inform you of the fee amount (if applicable). Order changes received after production has started involving only an increase in quantity will not be assessed a charge. Custom orders or orders with custom finishes cannot be changed after work has been started. Orders for upholstered chairs may not be changed after upholstery cover has been cut. You will receive the goods as ordered and be liable for amount due.

Cancellations

We charge \$100 for cancellations received prior to production. Cancellations received after production has been started will be assessed the total accumulated cost of the project plus a \$100 net cancellation charge to cover administrative costs.

Deferred Shipments

If you request a delay in shipment of your order and your order is complete or in the production cycle, then we assess charges from the completion date in accordance with our policy for "Storage by the Manufacturer."

Storage by the Manufacturer

If you cannot accept delivery when your furniture is ready, according to the terms of our acknowledgement, then we reserve the right to transfer the merchandise to storage at your expense, and the order will be invoiced at the time of storage. Payment of this invoice will be due on the original terms stipulated in our acknowledgement. Storage charges and freight charges for delivery will be invoiced separately upon release of the merchandise from storage and will be due upon receipt of the invoice.

We charge \$3.50 net per hundred weight, or a minimum of \$35.00, whichever is greater, plus \$35.00 net handling for any items that are required to be stored for more than a week. If long-term storage (i.e., anything over 30 days) becomes necessary, then we require you to arrange appropriate warehousing and insurance coverage and the merchandise will be stored at your risk.

Freight Program

TMC Furniture has a freight program that applies to deliveries inside the continental United States. The rates are based on the percentage of the LIST price of TMC Furniture products. Percentages will vary according to the destination state. Please see the LTL Freight Program PDF, a companion worksheet, for freight zones and percentage rates, available on our website under Resources>Programs. For deliveries outside the continental United States, please contact customer service for your freight rate.

Shipping

We will ship in accordance with your written instructions. If you omit specific shipping instructions, then we will ship in the manner that we consider to be the best way. All shipments are sent F.O.B. Grand Rapids, Michigan. Our liability ends when the carrier issues a receipt to us, which is an acknowledgment by the transportation company that the shipment has been received in good condition. Title of the goods and risk of loss then transfers to you. Freight must be paid by you unless otherwise acknowledged in writing by TMC. We make every effort to ship orders complete and on schedule. We reserve the right to make partial shipments as merchandise is ready. Our failure to deliver all the merchandise at one time does not relieve you from the obligation to accept and pay for the merchandise you receive.

Damage Claims

All our products are thoroughly inspected prior to shipment from our factory and packed to comply with carrier requirements. You should carefully inspect all items upon arrival and note any obvious damage on the receipt of delivery and if possible, photograph the damage. You need to file a written claim immediately with the carrier if you discover any obvious or subsequently concealed damage. Caution: When a clear receipt is obtained by a carrier, then the carrier is no longer responsible for damages or shortages. Damaged freight cannot be refused by the consignee (buyer). Processing claims for damage and shortages are the responsibility of the buyer. At no time can claims be deducted from our invoices.

Product Dimensions, Weights, Specifications and Variations

The sizes and weights listed for our products are approximated. We reserve the right to make changes in design and construction or discontinue products without notice. Due to conditions beyond our control all wood products, fabrics and vinyls are subject to variations in color, texture and grain.

Our price list specifications supersede all other specifications whether verbal or written, and may not be altered without the written consent of an officer of TMC. All clerical errors on any agreement, publication, correspondence, price list, or product literature pieces are subject to correction at any time.

Care and Maintenance

Since furniture is installed and used under a variety of conditions, we urge you to make inspections no less than every six months to look for damage or signs of structural fatigue incurred in daily handling, use and abuse. Your examination should include welds, machine screw assemblies and the shell to base fasteners. If you discover problems that could compromise the structural safety of a chair, table or other product, you should immediately remove it from service and TMC should be notified. Coats and other articles should not be hung on the backs of chairs. This practice may cause chairs to be unstable.

Wood Edges and Veneer Surfaces

Clean surfaces with a damp soft cloth. Dry surface by moving a soft cloth in the direction of the wood grain. Avoid placing tables under intense direct sunlight.

Powder Coat Surfaces

Clean surfaces with a mild soap solution. Dry with a soft cloth.

Chrome Surfaces

Clean with window cleaner or a damp cloth. Dry with a soft cloth.

Warranty

All TMC products are made to our high production and design standards and are warranted to be free from defects in material and workmanship for a period of five years from the date of shipment from our factory. Our obligation during this warranty period is limited to repair or replacement at our option. This warranty covers defects in workmanship that would lead to veneer lifting or peeling, glue joint failure, and wood joints pulling apart. TMC's warranty covers the lifting of plastic laminate, linoleum or other surface material from substrate, but we can only underwrite the original manufacturer's guarantee against scratching, chipping and material defect. TMC uses finishing techniques that highlight the inherent beauty of wood. However, wood is a natural product with naturally-occurring imperfections: depending on the species and cut certain hardwoods and veneers may absorb our stains differently; all finishes can be expected to mellow with age; and some expansion/contraction is normal. Therefore, the foregoing are not considered defects in materials or manufacturing process and are not covered under this warranty. TMC does not warrant products manufactured to the specifications of others nor their fitness for particular purpose or use. No warranty is made for non-standard materials selected by and used at the request of the customer such as COM, COL, or any other customer-supplied or specified product.

Our warranty becomes null and void on any goods repaired or altered by any person who is not authorized by TMC or where the purchaser has failed to follow published instructions for assembly, use or care. This warranty covers our products under normal use and in service under conditions for which the products are designed. TMC considers normal use to be single-shift service (eight hours per day, five days per week); extended use (multiple shifts, 24-hour facilities, etc.) will reduce this warranty to two years. Additionally, this warranty becomes null and void on any products which, in the judgment of TMC, have been subject to abuse, misuse, improper storage, negligence, acts of God, or environmental conditions such as heat or humidity or damage to the products that is not attributable to the failure of the products themselves. We make no other warranties either expressed or implied regarding any matter whatsoever, including, without limitation, the condition of the merchandise, its merchantability, or its fitness for any particular use or purpose, and in no event shall TMC be liable for incidental or consequential damages. Any defects should be reported immediately. All claims will be processed by TMC's Customer Service Department, and all returns must be authorized by us in writing. Merchandise authorized for return, repair or replacement must be removed from service, shipped and installed at the expense of the customer. A copy of the original purchase order must accompany all claims. This warranty is not transferable.

Environment and Sustainability

TMC Furniture is committed to reducing, reusing and recycling to help ease the strain on our environment.

- We design and manufacture all of our products with long life cycles to reduce the need to discard and replace furniture.
- Our products are primarily manufactured using wood – a wonderful organic material that is renewable, recyclable and biodegradable.
- The northern hardwoods that we select for our furniture come from renewable and sustainable forests; we do not use wood from endangered tree species.
- TMC furnishings are made in the USA, which limits our transportation needs (as compared to trans-oceanic imports), thus reducing the carbon footprint of our products.
- Many of our products are constructed using Forbo Linoleum a “high-scoring” LEED material. TMC’s extensive experience with environmentally-friendly materials allows us to easily incorporate them into semi-custom and fully-custom products.
- Our metal and plastic products contain recycled content.
- Our adhesives, stains and finishes are designed to minimize harmful emissions – wherever possible, we use water-based products.
- Both our locations – TMC’s Grand Rapids Factory and Ann Arbor Office – are committed to recycling paper, cardboard, plastics and scrap materials left over from our furniture production, thus dramatically reducing landfill requirements.
- We are just-in-time manufacturers, eliminating storing unnecessary inventory.
- We offer blanket-wrap shipping, thereby eliminating packaging waste.

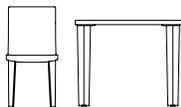

Whenever possible, TMC uses processing procedures and products that have minimal environmental impact.

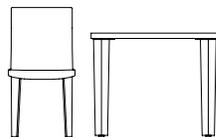

BIFMA

SIZE AND AGE CHART

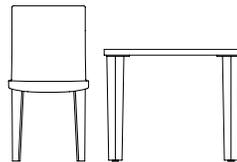

Recommended table and chair seat height and table height combinations for each stage of a child's development. Chair and table options recommended for 14 + Years Old are part of the adult collection and price sheet.

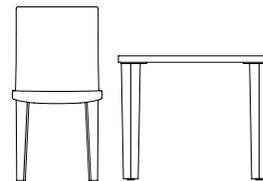

4 - 9 Years Old
Chair 12" and Table 20"

7 - 12 Years Old
Chair 14" and Table 24"

10 - 15 Years Old
Chair 16" and Table 26"

14 + Years Old
Chair 18" and Table 29"

CUT-OUT DESIGNS

CutOut™ Information

CutOuts may be referenced and selected in the TMC CutOut Portfolio. Each CutOut in the Portfolio is assigned to a series and is priced using a "Tier". After each series' title, you will see a letter [A] [B] [C] which indicates the CutOut Tier. This TMC Tier pricing system works the same way fabrics are priced by grade. You may select any CutOut and price will be reflected by Tier specified.

Custom CutOut Code CC

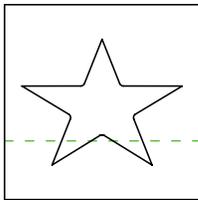

Custom CutOuts require special pricing. Custom CutOut prices are largely determined by complexity.

For pricing upcharges on custom CutOuts please consult TMC Customer Service.

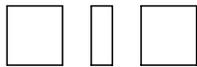

Glossary of CutOut™ Techniques

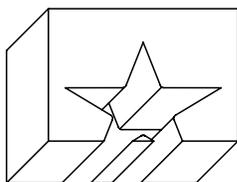

CutThru™ [CT] - A panel with a CutOut design that leaves a void you can see through.

Plan View

Cross-Section View

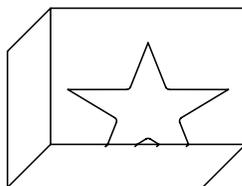

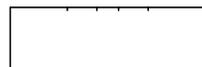

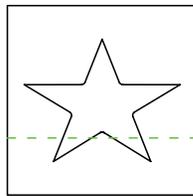

Isometric View

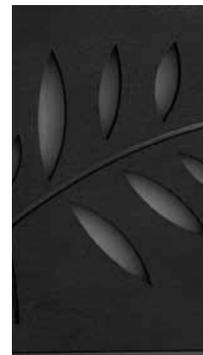

TMC Pull-Up and Stacking Chairs with wood backs often use the CutThru™ process.

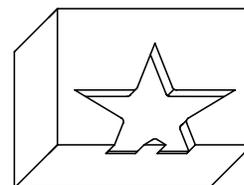

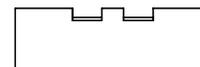

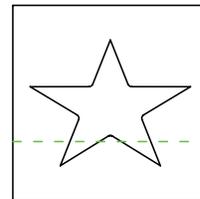

InScribed™ [NC] - A panel with a laser design that is flush to the panel's surface.

TMC Lounge Chairs and Benches often use InScribed™ or InSet™ processes on their side panels.

InSet™ [NT] - A panel with a recessed CutOut design (usually 1/4" deep) and filled with a material such as laminate or wood.

How to create a product code

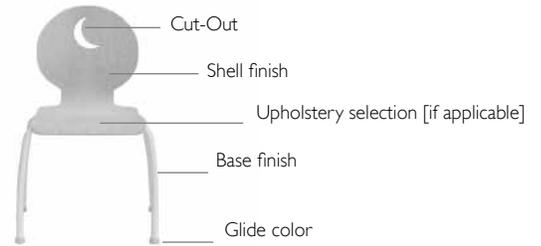

TMC's ordering system uses a product code that requires specifications to be detailed in a precise order. To make it easier for you to specify your seating from the many options available, we suggest you follow the steps below in creating your chair and corresponding product code. Should you have any questions, feel free to contact our customer service department or your sales rep, and they will be happy to assist you.

How to Order

Order all items by their product code.

To create the product code specify:

1. Model
2. Cut-Out [please refer to Cut-Out Portfolio; each cut-out is given a tier for pricing information]
3. Shell finish [please refer to page 12 or wood finish cards]
4. Base finish [please refer to page 14 or powder coat card]
5. Glide color [please refer to page 14 or glide color card]
6. Upholstery selection [if applicable]

Please note the CutOut™ Tier price ranges. In the CutOut™ Portfolio after each series' title, there is a letter [A] [B] [C]. You may select any cut-out but price will be reflected by tier specified. Custom cut-outs will need special pricing depending upon complexity.

Example: SLOC11312 - _____ - _____ - _____ - _____ - COM

Model	CutOut™ [no cut-out specify XX, custom specify CC]	Shell finish	Base powder coat finish	Glide color	Upholstery COM selection [if applicable]
					 All fabric is COM.

Lounge seating

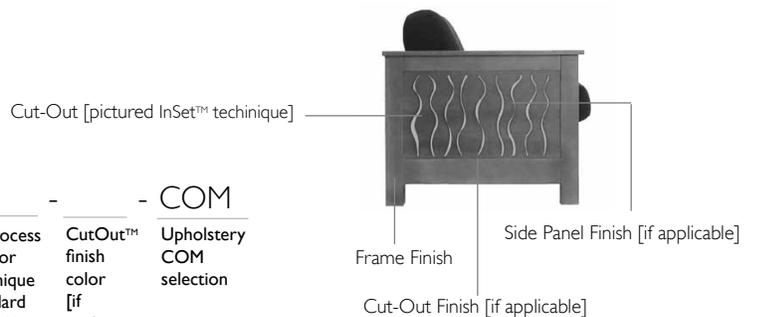

How to create a product code

Order all items by their product code.

To create the product code specify:

Example: SAL11118 - _____ - _____ - _____ - _____ - _____ - COM

Model	CutOut™ [no cut-out specify XX, custom specify CC]	Frame finish	Side panels finish	CutOut™ process selection.* For InSet™ technique specify standard laminate [SL]** or custom [CL]. For InScribed™ technique specify standard wood finish [FC] or custom finish [CC].	CutOut™ finish color [if applicable]	Upholstery COM selection
						* One cut-out color selection is standard. For more than one color the following upcharges will apply: Standard laminate: \$50 list per color Standard wood finish: \$50 list per color ** Standard grade laminate from Formica, Wilsonart, Pionite and Nevamar

Ordering Information

Environment and Sustainability

TMC Furniture is committed to reducing, reusing and recycling to help ease the strain on our environment.

- We design and manufacture all of our products with long life cycles to reduce the need to discard and replace furniture.
- Our products are primarily manufactured using wood – a wonderful organic material that is renewable, recyclable and biodegradable.
- The northern hardwoods that we select for our furniture come from renewable and sustainable forests; we do not use wood from endangered tree species.
- TMC furnishings are made in the USA, which limits our transportation needs (as compared to trans-oceanic imports), thus reducing the carbon footprint of our products.
- Many of our products are constructed using Forbo Linoleum a "high-scoring" LEED material. TMC's extensive experience with environmentally-friendly materials allows us to easily incorporate them into semi-custom and fully-custom products.
- Our metal and plastic products contain recycled content.
- Our adhesives, stains and finishes are designed to minimize harmful emissions – wherever possible, we use water-based products.
- Both our locations – TMC's Grand Rapids Factory and Ann Arbor Office – are committed to recycling paper, cardboard, plastics and scrap materials left over from our furniture production, thus dramatically reducing landfill requirements.
- We are just-in-time manufacturers, eliminating storing unnecessary inventory.
- We offer blanket-wrap shipping, thereby eliminating packaging waste.

Whenever possible, TMC uses processing procedures and products that have minimal environmental impact.

BIFMA

ORDERS

Please submit all orders in writing and specify each item by its product code and the corresponding model description, finish, upholstery and options offered in the price list. If your current order must match a previous order; a sample product from the original order needs to accompany your new order to assure uniformity of finish and construction.

ACKNOWLEDGEMENT

Our written acknowledgement will notify you that your order has been accepted. If there is any discrepancy, you need to notify us within 72 hours using the approval request form that is provided by TMC.

You will receive an estimated ship date once your order has been fully acknowledged and approved. If for some reason your furniture must not ship earlier than the estimated ship date, please specify a "Do not ship before date" in your purchase order. While we make every effort to ship your furniture on time, we are not responsible for delays in scheduling or failure to make a scheduled shipping date due to factors beyond our control such as strikes, lockouts or other labor complications, wars, riots, Acts of God, fires, accidents, restraints affecting shipment or credit, reduced supply, excessive cost of fuel or raw material, delays from suppliers, compliance with government regulations or other unforeseen contingencies.

WOOD FINISHES

TMC's wood finishes, like all wood finishes, can be light sensitive, therefore care should be taken to avoid placing your chairs in areas exposed to intense natural light. We apply UV blocker on our furniture, however; expect some wood finish colors to shift over time. There are variations common to all wood species, so the color and grain characteristics of our finish samples may not exactly match the finish of the furniture you receive from us. The aniline dyes, wood stains and toners penetrate wood, however; chair seats, furniture surfaces and edges may show wearing with use especially on the dark finish colors.

WATER BASE TOP COAT FINISH

TMC's water base top coat is also available on all of our products. No upcharges will apply. To order simply put a W- before the finish number. For example W-01 is water based Clear.

CUSTOM WOOD FINISH MATCH

We will be pleased to prepare custom wood finish matches for you, however; all custom matches are subject to a minimum mixing charge. The set-up is \$445.00 LIST and \$16.00 LIST per unit. We require several important conditions for all custom finish orders. First, your custom finish must be approved by our factory. Please allow up to three weeks for our factory to prepare the custom wood finish match sample. Second, due to limitations of the raw materials and the natural background color of wood, not all colors can be successfully reproduced. As a result, we cannot always determine beforehand whether or not a color is suitable for custom finish matching. This is especially true in the case of custom colors submitted on non-wood products. If we are unable to produce a commercial match to your custom color; you will be notified as early as possible and you will not be charged.

Terms, Conditions and Shipping Information

PRICES

All prices in our catalog are list prices F.O.B. our factory in Grand Rapids, Michigan. Our chair pricing includes packing and corrugated cartoning for common carrier shipments. Our list prices do not include freight, storage, taxes or additional packaging required for UPS or blanket wrapped shipments. Our prices are subject to change without notice.

We reserve the right to change quotation prices prior to acceptance by you. Our quotation prices are valid for 30 days; a TMC quote older than 30 days must be re-submitted for dating and approval. Any pricing for orders in which you specify a shipment 90 days or more after the formal date of acknowledgment will be based on the product's prevailing price at time of shipment.

RESALE RIGHTS

We reserve the right to reject any order placed by any customer for any reason, irrespective of whether orders have been previously accepted from that customer; and without incurring any liability to that customer. No customer shall have a continuing right to buy products from us except as part of a formal dealer agreement or other written agreement covering future supply and authorized by us and the reseller. Distribution of our price list or catalog does not itself constitute an offer to sell.

CREDIT AND PAYMENT TERMS

New customers are encouraged to establish an open account; to do this, please request a credit application from our accounting department. One bank and three trade references will be required. Credit will be established upon review and approval of your application. Please allow up to four weeks delay for credit approval. To avoid this delay, orders from new accounts must be accompanied by a 50% deposit. If credit is approved by the time your first order is ready to ship, the balance must be paid within the terms stated on your acknowledgement. Accounts that are inactive for a twelve-month period will automatically be closed and are subject to the above conditions for new accounts. We reserve the right to change or cancel credit and may request advance payment at any time.

Once you have established an open account with us, terms are "Net 15 Days" after the date of our invoice. We add a service charge of 2% each month to all past due accounts. Additionally, we cease processing all orders for past due accounts until the amount due, including any service charge, is paid in full. We require a down payment of 50% for all custom orders, and we will not schedule custom orders for production until the down payment is received.

CHANGES AND CANCELLATIONS

You must receive factory approval to change or cancel your order. We will make every reasonable effort to stop production scheduling and shipment after we have received your written notification of any changes, cancellations or deferrals. However, we ask that you comply with the following:

Changes

Order changes are subject to a fee which will be used to cover administrative, design and/or engineering time. Any change request(s) must be documented in writing. We will in turn, confirm in writing, our acknowledgement of your change and inform you of the fee amount (if applicable). Order changes received after production has started involving only an increase in quantity will not be assessed a charge. Custom orders or orders with custom finishes cannot be changed after work has been started. Orders for upholstered chairs may not be changed after upholstery cover has been cut. You will receive the goods as ordered and be liable for amount due.

Cancellations

We charge \$100 for cancellations received prior to production. Cancellations received after production has been started will be assessed the total accumulated cost of the project plus a \$100 net cancellation charge to cover administrative costs.

FREIGHT PROGRAM

TMC Furniture has a freight program that applies to deliveries inside the continental United States. The rates are based on the percentage of the LIST price of TMC Furniture products. Percentages will vary according to the destination state. Please see the LTL Freight Program PDF, a companion worksheet, for freight zones and percentage rates. Available on our website under Resources>Programs. For deliveries outside the continental United States, please contact customer service for your freight rate.

SHIPPING

We will ship in accordance with your written instructions. If you omit specific shipping instructions, then we will ship in the manner that we consider to be the best way. All shipments are sent F.O.B. Grand Rapids, Michigan. Our liability ends when the carrier issues a receipt to us, which is an acknowledgement by the transportation company that the shipment has been received in good condition. Title of the goods and risk of loss then transfers to you. Freight must be paid by you unless otherwise acknowledged in writing by TMC. We make every effort to ship orders complete and on schedule. We reserve the right to make partial shipments as merchandise is ready. Our failure to deliver all the merchandise at one time does not relieve you from the obligation to accept and pay for the merchandise you receive.

DAMAGE CLAIMS

All our products are thoroughly inspected prior to shipment from our factory and packed to comply with carrier requirements. You should carefully inspect all items upon arrival and note any obvious damage on the receipt of delivery and if possible, photograph the damage. You need to file a written claim immediately with the carrier if you discover any obvious or subsequently concealed damage. Caution: When a clear receipt is obtained by a carrier, then the carrier is no longer responsible for damages or shortages. Damaged freight cannot be refused by the consignee (buyer). Processing claims for damage and shortages are the responsibility of the buyer. At no time can claims be deducted from our invoices.

DEFERRED SHIPMENTS

If you request a delay in shipment of your order and your order is complete or in the production cycle, then we assess charges from the completion date in accordance with our policy for "Storage by the Manufacturer:"

STORAGE BY THE MANUFACTURER

If you cannot accept delivery when your furniture is ready, according to the terms of our acknowledgement, then we reserve the right to transfer the merchandise to storage at your expense, and the order will be invoiced at the time of storage. Payment of this invoice will be due on the original terms stipulated in our acknowledgement. Storage charges and freight charges for delivery will be invoiced separately upon release of the merchandise from storage and will be due upon receipt of the invoice.

We charge \$3.50 net per hundred weight, or a minimum of \$35.00, whichever is greater; plus \$35.00 net handling for any items that are required to be stored for more than a week. If long-term storage (i.e., anything over 30 days) becomes necessary, then we require you to arrange appropriate warehousing and insurance coverage and the merchandise will be stored at your risk.

STORAGE AND USE BY OWNER

Due to the nature of wood products, we cannot guarantee any product stored, used or placed in an environment where temperature and humidity are not controlled. Temperatures must be maintained within a range of 50°-80° F (10°-27° C); the relative humidity must be maintained between 25% and 40%. Not surprisingly, these conditions are also commonly recommended human health standards.

RETURN POLICY

All of products are made to order and are not eligible for return. If by small chance your product was given the ok for return there is a 30% restocking charge plus freight.

Terms, Conditions and Shipping Information**WARRANTY**

All TMC products are made to our high production and design standards and are warranted to be free from defects in material and workmanship for a period of five years from the date of shipment from our factory. Our obligation during this warranty period is limited to repair or replacement at our option. This warranty covers defects in workmanship that would lead to veneer lifting or peeling, glue joint failure, and wood joints pulling apart. TMC's warranty covers the lifting of plastic laminate, linoleum or other surface material from substrate, but we can only underwrite the original manufacturer's guarantee against scratching, chipping and material defect. TMC uses finishing techniques that highlight the inherent beauty of wood. However, wood is a natural product with naturally-occurring imperfections: depending on the species and cut certain hardwoods and veneers may absorb our stains differently; all finishes can be expected to mellow with age; and some expansion/contraction is normal. Therefore, the foregoing are not considered defects in materials or manufacturing process and are not covered under this warranty. TMC does not warrant products manufactured to the specifications of others nor their fitness for particular purpose or use. No warranty is made for non-standard materials selected by and used at the request of the customer such as COM, COL, or any other customer-supplied or specified product.

Our warranty becomes null and void on any goods repaired or altered by any person who is not authorized by TMC or where the purchaser has failed to follow published instructions for assembly, use or care. This warranty covers our products under normal use and in service under conditions for which the products are designed. TMC considers normal use to be single-shift service (eight hours per day, five days per week); extended use (multiple shifts, 24-hour facilities, etc.) will reduce this warranty to two years. Additionally, this warranty becomes null and void on any products which, in the judgment of TMC, have been subject to abuse, misuse, improper storage, negligence, acts of God, or environmental conditions such as heat or humidity or damage to the products that is not attributable to the failure of the products themselves. We make no other warranties either expressed or implied regarding any matter whatsoever, including, without limitation, the condition of the merchandise, its merchantability, or its fitness for any particular use or purpose, and in no event shall TMC be liable for incidental or consequential damages. Any defects should be reported immediately. All claims will be processed by TMC's Customer Service Department, and all returns must be authorized by us in writing. Merchandise authorized for return, repair or replacement must be removed from service, shipped and installed at the expense of the customer. A copy of the original purchase order must accompany all claims. This warranty is not transferable.

Additional Information**PRODUCT DIMENSIONS, SPECIFICATIONS AND VARIATIONS**

The sizes and weights listed for our products are approximated. We reserve the right to make changes in design and construction or discontinue products without notice. Due to conditions beyond our control all wood products, fabrics and vinyls are subject to variations in color, texture and grain.

Our price list specifications supersede all other specifications whether verbal or written, and may not be altered without the written consent of an officer of TMC. All clerical errors on any agreement, publication, correspondence, price list, or product literature pieces are subject to correction at any time.

CARE AND MAINTENANCE

Since furniture is installed and used under a variety of conditions, we urge you to make inspections no less than every six months to look for damage or signs of structural fatigue incurred in daily handling, use and abuse. Your examination should include welds, machine screw assemblies and the shell to base fasteners. If you discover problems that could compromise the structural safety of a chair, table or other product, you should immediately remove it from service and TMC should be notified. Coats and other articles should not be hung on the backs of chairs. This practice may cause chairs to be unstable.

Wood Edges and Veneer Surfaces

Clean surfaces with a damp soft cloth. Dry surface by moving a soft cloth in the direction of the wood grain. Avoid placing tables under intense direct sunlight.

Powder Coat Surfaces

Clean surfaces with a mild soap solution. Dry with a soft cloth.

Chrome Surfaces

Clean with window cleaner or a damp cloth. Dry with a soft cloth.

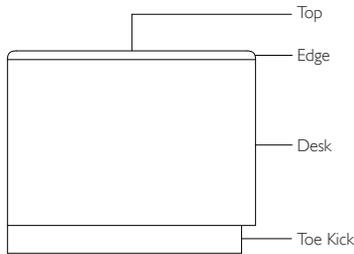

How to Build a Product Code

PRODUCT CODE BUILDER

TMC's ordering system uses a product code that requires specifications to be detailed in a precise order. To make it easier for you to specify our products, we suggest you use the Ordering Instructions and Product Code Builder at the bottom of each price list page to create your corresponding product code. Should you have any questions, feel free to contact our customer service department or your sales rep, and they will be happy to assist you.

ANATOMY AND TERMINOLOGY OF FURNITURE

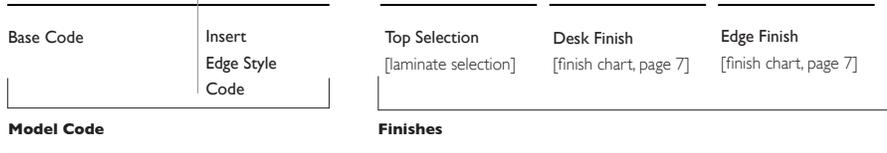

TMC's ordering system uses a product code that requires knowledge of furniture anatomy terminology you may not be familiar with. Use the following diagram as you complete your Product Code Builder, which is at the bottom of each price list page. Should you have any questions regarding unfamiliar terminology, feel free to contact our customer service department or your sales rep, and they will be happy to assist you.

Ordering Information

Environment and Sustainability

TMC Furniture is committed to reducing, reusing and recycling to help ease the strain on our environment.

- We design and manufacture all of our products with long life cycles to reduce the need to discard and replace furniture.
- Our products are primarily manufactured using wood – a wonderful organic material that is renewable, recyclable and biodegradable.
- The northern hardwoods that we select for our furniture come from renewable and sustainable forests; we do not use wood from endangered tree species.
- TMC furnishings are made in the USA, which limits our transportation needs (as compared to trans-oceanic imports), thus reducing the carbon footprint of our products.
- Many of our products are constructed using Forbo Linoleum a “high-scoring” LEED material. TMC’s extensive experience with environmentally-friendly materials allows us to easily incorporate them into semi-custom and fully-custom products.
- Our metal and plastic products contain recycled content.
- Our adhesives, stains and finishes are designed to minimize harmful emissions – wherever possible, we use water-based products.
- Both our locations – TMC’s Grand Rapids Factory and Ann Arbor Office – are committed to recycling paper, cardboard, plastics and scrap materials left over from our furniture production, thus dramatically reducing landfill requirements.
- We are just-in-time manufacturers, eliminating storing unnecessary inventory.
- We offer blanket-wrap shipping, thereby eliminating packaging waste.

Whenever possible, TMC uses processing procedures and products that have minimal environmental impact.

BIFMA

ORDERS

Please submit all orders in writing and specify each item by its product code and the corresponding model description, finish, upholstery and options offered in the price list. If your current order must match a previous order, a sample product from the original order needs to accompany your new order to assure uniformity of finish and construction.

ACKNOWLEDGEMENT

Our written acknowledgement will notify you that your order has been accepted. If there is any discrepancy, you need to notify us within 72 hours using the approval request form that is provided by TMC.

You will receive an estimated ship date once your order has been fully acknowledged and approved. If for some reason your furniture must not ship earlier than the estimated ship date, please specify a “Do not ship before date” in your purchase order. While we make every effort to ship your furniture on time, we are not responsible for delays in scheduling or failure to make a scheduled shipping date due to factors beyond our control such as strikes, lockouts or other labor complications, wars, riots, Acts of God, fires, accidents, restraints affecting shipment or credit, reduced supply, excessive cost of fuel or raw material, delays from suppliers, compliance with government regulations or other unforeseen contingencies.

WOOD FINISHES

TMC’s wood finishes, like all wood finishes, can be light sensitive, therefore care should be taken to avoid placing your chairs in areas exposed to intense natural light. We apply UV blocker on our furniture, however, expect some wood finish colors to shift over time. There are variations common to all wood species, so the color and grain characteristics of our finish samples may not exactly match the finish of the furniture you receive from us. The aniline dyes, wood stains and toners penetrate wood, however, chair seats, furniture surfaces and edges may show wearing with use especially on the dark finish colors.

WATER BASE TOP COAT FINISH

TMC’s water base top coat is also available on all of our products. No upcharges will apply. To order simply put a W- before the finish number. For example W-01 is water based Clear.

CUSTOM WOOD FINISH MATCH

We will be pleased to prepare custom wood finish matches for you, however, all custom matches are subject to a minimum mixing charge. The set-up is \$445.00 LIST and \$16.00 LIST per unit. We require several important conditions for all custom finish orders. First, your custom finish must be approved by our factory. Please allow up to three weeks for our factory to prepare the custom wood finish match sample. Second, due to limitations of the raw materials and the natural background color of wood, not all colors can be successfully reproduced. As a result, we cannot always determine beforehand whether or not a color is suitable for custom finish matching. This is especially true in the case of custom colors submitted on non-wood products. If we are unable to produce a commercial match to your custom color, you will be notified as early as possible and you will not be charged.

Terms, Conditions and Shipping Information

PRICES

All prices in our catalog are list prices F.O.B. our factory in Grand Rapids, Michigan. Our chair pricing includes packing and corrugated cartoning for common carrier shipments. Our list prices do not include freight, storage, taxes or additional packaging required for UPS or blanket wrapped shipments. Our prices are subject to change without notice.

We reserve the right to change quotation prices prior to acceptance by you. Our quotation prices are valid for 30 days; a TMC quote older than 30 days must be re-submitted for dating and approval. Any pricing for orders in which you specify a shipment 90 days or more after the formal date of acknowledgment will be based on the product's prevailing price at time of shipment.

RESALE RIGHTS

We reserve the right to reject any order placed by any customer for any reason, irrespective of whether orders have been previously accepted from that customer; and without incurring any liability to that customer. No customer shall have a continuing right to buy products from us except as part of a formal dealer agreement or other written agreement covering future supply and authorized by us and the reseller. Distribution of our price list or catalog does not itself constitute an offer to sell.

CREDIT AND PAYMENT TERMS

New customers are encouraged to establish an open account; to do this, please request a credit application from our accounting department. One bank and three trade references will be required. Credit will be established upon review and approval of your application. Please allow up to four weeks delay for credit approval. To avoid this delay, orders from new accounts must be accompanied by a 50% deposit. If credit is approved by the time your first order is ready to ship, the balance must be paid within the terms stated on your acknowledgement. Accounts that are inactive for a twelve-month period will automatically be closed and are subject to the above conditions for new accounts. We reserve the right to change or cancel credit and may request advance payment at any time.

Once you have established an open account with us, terms are "Net 15 Days" after the date of our invoice. We add a service charge of 2% each month to all past due accounts. Additionally, we cease processing all orders for past due accounts until the amount due, including any service charge, is paid in full. We require a down payment of 50% for all custom orders, and we will not schedule custom orders for production until the down payment is received.

CHANGES AND CANCELLATIONS

You must receive factory approval to change or cancel your order. We will make every reasonable effort to stop production scheduling and shipment after we have received your written notification of any changes, cancellations or deferrals. However, we ask that you comply with the following:

Changes

Order changes are subject to a fee which will be used to cover administrative, design and/or engineering time. Any change request(s) must be documented in writing. We will in turn, confirm in writing, our acknowledgement of your change and inform you of the fee amount (if applicable). Order changes received after production has started involving only an increase in quantity will not be assessed a charge. Custom orders or orders with custom finishes cannot be changed after work has been started. Orders for upholstered chairs may not be changed after upholstery cover has been cut. You will receive the goods as ordered and be liable for amount due.

Cancellations

We charge \$100 for cancellations received prior to production. Cancellations received after production has been started will be assessed the total accumulated cost of the project plus a \$100 net cancellation charge to cover administrative costs.

FREIGHT PROGRAM

TMC Furniture has a freight program that applies to deliveries inside the continental United States. The rates are based on the percentage of the LIST price of TMC Furniture products. Percentages will vary according to the destination state. Please see the LTL Freight Program PDF, a companion worksheet, for freight zones and percentage rates. Available on our website under Resources>Programs. For deliveries outside the continental United States, please contact customer service for your freight rate.

SHIPPING

We will ship in accordance with your written instructions. If you omit specific shipping instructions, then we will ship in the manner that we consider to be the best way. All shipments are sent F.O.B. Grand Rapids, Michigan. Our liability ends when the carrier issues a receipt to us, which is an acknowledgement by the transportation company that the shipment has been received in good condition. Title of the goods and risk of loss then transfers to you. Freight must be paid by you unless otherwise acknowledged in writing by TMC. We make every effort to ship orders complete and on schedule. We reserve the right to make partial shipments as merchandise is ready. Our failure to deliver all the merchandise at one time does not relieve you from the obligation to accept and pay for the merchandise you receive.

DAMAGE CLAIMS

All our products are thoroughly inspected prior to shipment from our factory and packed to comply with carrier requirements. You should carefully inspect all items upon arrival and note any obvious damage on the receipt of delivery and if possible, photograph the damage. You need to file a written claim immediately with the carrier if you discover any obvious or subsequently concealed damage. Caution: When a clear receipt is obtained by a carrier, then the carrier is no longer responsible for damages or shortages. Damaged freight cannot be refused by the consignee (buyer). Processing claims for damage and shortages are the responsibility of the buyer. At no time can claims be deducted from our invoices.

DEFERRED SHIPMENTS

If you request a delay in shipment of your order and your order is complete or in the production cycle, then we assess charges from the completion date in accordance with our policy for "Storage by the Manufacturer."

STORAGE BY THE MANUFACTURER

If you cannot accept delivery when your furniture is ready, according to the terms of our acknowledgement, then we reserve the right to transfer the merchandise to storage at your expense, and the order will be invoiced at the time of storage. Payment of this invoice will be due on the original terms stipulated in our acknowledgement. Storage charges and freight charges for delivery will be invoiced separately upon release of the merchandise from storage and will be due upon receipt of the invoice.

We charge \$3.50 net per hundred weight, or a minimum of \$35.00, whichever is greater, plus \$35.00 net handling for any items that are required to be stored for more than a week. If long-term storage (i.e., anything over 30 days) becomes necessary, then we require you to arrange appropriate warehousing and insurance coverage and the merchandise will be stored at your risk.

STORAGE AND USE BY OWNER

Due to the nature of wood products, we cannot guarantee any product stored, used or placed in an environment where temperature and humidity are not controlled. Temperatures must be maintained within a range of 50°-80° F (10°-27° C); the relative humidity must be maintained between 25% and 40%. Not surprisingly, these conditions are also commonly recommended human health standards.

RETURN POLICY

All of products are made to order and are not eligible for return. If by small chance your product was given the ok for return there is a 30% restocking charge plus freight.

Terms, Conditions and Shipping Information

WARRANTY

All TMC products are made to our high production and design standards and are warranted to be free from defects in material and workmanship for a period of five years from the date of shipment from our factory. Our obligation during this warranty period is limited to repair or replacement at our option. This warranty covers defects in workmanship that would lead to veneer lifting or peeling, glue joint failure, and wood joints pulling apart. TMC's warranty covers the lifting of plastic laminate, linoleum or other surface material from substrate, but we can only underwrite the original manufacturer's guarantee against scratching, chipping and material defect. TMC uses finishing techniques that highlight the inherent beauty of wood. However, wood is a natural product with naturally-occurring imperfections: depending on the species and cut certain hardwoods and veneers may absorb our stains differently; all finishes can be expected to mellow with age; and some expansion/contraction is normal. Therefore, the foregoing are not considered defects in materials or manufacturing process and are not covered under this warranty. TMC does not warrant products manufactured to the specifications of others nor their fitness for particular purpose or use. No warranty is made for non-standard materials selected by and used at the request of the customer such as COM, COL, or any other customer-supplied or specified product.

Our warranty becomes null and void on any goods repaired or altered by any person who is not authorized by TMC or where the purchaser has failed to follow published instructions for assembly, use or care. This warranty covers our products under normal use and in service under conditions for which the products are designed. TMC considers normal use to be single-shift service (eight hours per day, five days per week); extended use (multiple shifts, 24-hour facilities, etc.) will reduce this warranty to two years. Additionally, this warranty becomes null and void on any products which, in the judgment of TMC, have been subject to abuse, misuse, improper storage, negligence, acts of God, or environmental conditions such as heat or humidity or damage to the products that is not attributable to the failure of the products themselves. We make no other warranties either expressed or implied regarding any matter whatsoever, including, without limitation, the condition of the merchandise, its merchantability, or its fitness for any particular use or purpose, and in no event shall TMC be liable for incidental or consequential damages. Any defects should be reported immediately. All claims will be processed by TMC's Customer Service Department, and all returns must be authorized by us in writing. Merchandise authorized for return, repair or replacement must be removed from service, shipped and installed at the expense of the customer. A copy of the original purchase order must accompany all claims. This warranty is not transferable.

Additional Information

PRODUCT DIMENSIONS, SPECIFICATIONS AND VARIATIONS

The sizes and weights listed for our products are approximated. We reserve the right to make changes in design and construction or discontinue products without notice. Due to conditions beyond our control all wood products, fabrics and vinyls are subject to variations in color, texture and grain.

Our price list specifications supersede all other specifications whether verbal or written, and may not be altered without the written consent of an officer of TMC. All clerical errors on any agreement, publication, correspondence, price list, or product literature pieces are subject to correction at any time.

CARE AND MAINTENANCE

Since furniture is installed and used under a variety of conditions, we urge you to make inspections no less than every six months to look for damage or signs of structural fatigue incurred in daily handling, use and abuse. Your examination should include welds, machine screw assemblies and the shell to base fasteners. If you discover problems that could compromise the structural safety of a chair, table or other product, you should immediately remove it from service and TMC should be notified. Coats and other articles should not be hung on the backs of chairs. This practice may cause chairs to be unstable.

Wood Edges and Veneer Surfaces

Clean surfaces with a damp soft cloth. Dry surface by moving a soft cloth in the direction of the wood grain. Avoid placing tables under intense direct sunlight.

Powder Coat Surfaces

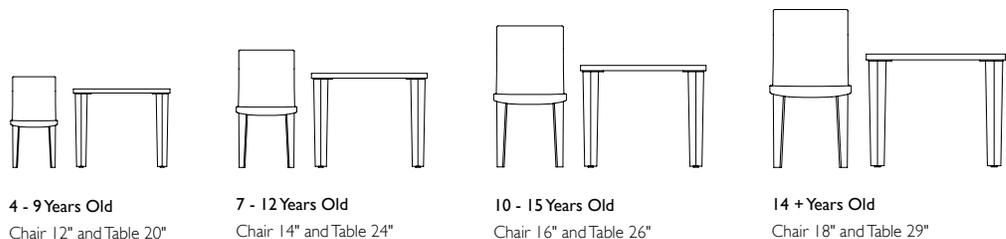

Clean surfaces with a mild soap solution. Dry with a soft cloth.

Chrome Surfaces

Clean with window cleaner or a damp cloth. Dry with a soft cloth.

SIZE AND AGE CHART

Recommended table and chair seat height and table height combinations for each stage of a child's development. Chair and table options recommended for 14 + Years Old are part of the adult collection.

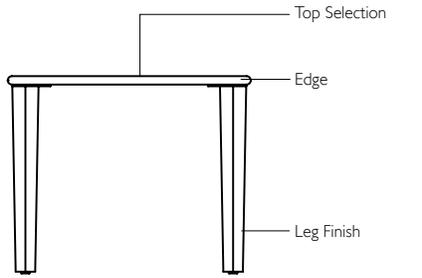

How to Build a Product Code

PRODUCT CODE BUILDER

TMC's ordering system uses a product code that requires specifications to be detailed in a precise order. To make it easier for you to specify our products, we suggest you use the Ordering Instructions and Product Code Builder at the bottom of each price list page to create your corresponding product code. Should you have any questions, feel free to contact our customer service department or your sales rep, and they will be happy to assist you.

ANATOMY AND TERMINOLOGY OF FURNITURE

TMC's ordering system uses a product code that requires knowledge of furniture anatomy terminology you may not be familiar with. Use the following diagram as you complete your Product Code Builder, which is at the bottom of each price list page. Should you have any questions regarding unfamiliar terminology, feel free to contact our customer service department or your sales rep, and they will be happy to assist you.

Algonquin tables

Construction

Worksurfaces: 1.125" premium particle board with laminate or wood veneer surface with phenolic backer on the underside.

Algonquin Legs: Constructed of Select North American solid maple legs, squared. A metal top plate is fastened to the wood leg using (4) pan head wood screws counter sunk into the plate. The plate is attached to the underside of the table surface using machine screws into metal inserts. A hidden, adjustable glide is inserted into the leg bottom.

Algonquin

tables

Construction

Worksurfaces: 1.125" premium particle board with laminate or wood veneer surface with phenolic backer on the underside.

Algonquin Legs: Constructed of Select North American solid maple legs, squared. A metal top plate is fastened to the wood leg using (4) pan head wood screws counter sunk into the plate. The plate is attached to the underside of the table surface using machine screws into metal inserts. A hidden, adjustable glide is inserted into the leg bottom.

Eisenhower tables

Construction

Worksurfaces: 1.125" premium particle board with laminate or wood veneer surface with phenolic backer on the underside.

Eisenhower Legs: Constructed select North American solid maple, turned and tapered. A metal top plate is fastened to the wood leg using (4) pan head wood screws counter sunk into the plate.

The plate is attached to the underside of the table surface using machine screws into metal inserts. A hidden, adjustable glide is inserted into the leg bottom.

Flick tables

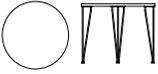

Construction

Worksurfaces: 1.125" premium particle board with laminate or wood veneer surface with phenolic backer on the underside.

Flick Legs: Constructed of three 7/8" diameter steel rods welded to a 5" x 5" steel top plate with an adjustable level feature. Legs are electrostatically coated with epoxy powder. A wide variety of powder coat finishes are available.

kids Flick tables

Construction

Worksurfaces: 1.125" premium particle board with laminate or wood veneer surface with phenolic backer on the underside.

Flick Legs: Constructed of three 7/8" diameter steel rods welded to a 5" x 5" steel top plate with an adjustable level feature. Legs are electrostatically coated with epoxy powder. A wide variety of powder coat finishes are available.

Kestrel tables

Construction

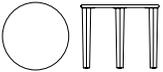

Worksurfaces: 1.125" premium particle board with laminate or wood veneer surface with phenolic backer on the underside.

Kestrel Legs: Constructed of Select North American solid maple legs squared and tapered. A metal top plate is fastened to the wood leg using (4) pan head wood screws counter sunk into the plate.

The plate is attached to the underside of the table surface using machine screws into metal inserts. A hidden, adjustable glide is inserted into the leg bottom.

Kestrel tables

Construction

Worksurfaces: 1.125" premium particle board with laminate or wood veneer surface with phenolic backer on the underside.

Kestrel Legs: Constructed of Select North American solid maple legs squared and tapered. A metal top plate is fastened to the wood leg using (4) pan head wood screws counter sunk into the plate. The plate is attached to the underside of the table surface using machine screws into metal inserts. A hidden, adjustable glide is inserted into the leg bottom.

Lorca tables

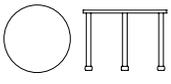

Construction

Worksurfaces: 1.125" premium particle board with laminate or wood veneer surface with phenolic backer on the underside.

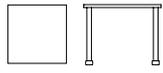

Lorca Legs: Constructed of 2" diameter steel tube welded to a 4" x 4" steel top plate with an adjustable glide inserted into the leg bottom. Legs are electrostatically coated with epoxy powder. A wide variety of powder coat finishes are available. Glide is constructed of hard maple turned to match the Lorca/Wyoming chair glide with an adjustable level feature. Available in red, yellow, blue, grey and black.

kids Lorca tables

Construction

Worksurfaces: 1.125" premium particle board with laminate or wood veneer surface with phenolic backer on the underside.

Lorca Legs: Constructed of 2" diameter steel tube welded to a 4" x 4" steel top plate. Legs are electrostatically coated with epoxy powder. A wide variety of powder coat finishes are available. Glide is constructed of hard maple turned to match the Lorca/Wyoming chair glide with an adjustable level feature. Available in red, yellow, blue, grey and black.

Yuma tables

Construction

Worksurfaces: 1.125" premium particle board with laminate or wood veneer surface with phenolic backer on the underside.

Yuma Legs: Constructed of 2" square steel tube welded to a 4" x 4" steel top plate with an adjustable glide inserted into the leg bottom. Legs are electrostatically coated with epoxy powder. A wide variety of powder coat finishes are available.

Ordering Information

Environment and Sustainability

TMC Furniture is committed to reducing, reusing and recycling to help ease the strain on our environment.

- We design and manufacture all of our products with long life cycles to reduce the need to discard and replace furniture.
- Our products are primarily manufactured using wood – a wonderful organic material that is renewable, recyclable and biodegradable.
- The northern hardwoods that we select for our furniture come from renewable and sustainable forests; we do not use wood from endangered tree species.
- TMC furnishings are made in the USA, which limits our transportation needs (as compared to trans-oceanic imports), thus reducing the carbon footprint of our products.
- Many of our products are constructed using Forbo Linoleum a “high-scoring” LEED material. TMC’s extensive experience with environmentally-friendly materials allows us to easily incorporate them into semi-custom and fully-custom products.
- Our metal and plastic products contain recycled content.
- Our adhesives, stains and finishes are designed to minimize harmful emissions – wherever possible, we use water-based products.
- Both our locations – TMC’s Grand Rapids Factory and Ann Arbor Office – are committed to recycling paper, cardboard, plastics and scrap materials left over from our furniture production, thus dramatically reducing landfill requirements.
- We are just-in-time manufacturers, eliminating storing unnecessary inventory.
- We offer blanket-wrap shipping, thereby eliminating packaging waste.

Whenever possible, TMC uses processing procedures and products that have minimal environmental impact.

BIFMA

ORDERS

Please submit all orders in writing and specify each item by its product code and the corresponding model description, finish, upholstery and options offered in the price list. If your current order must match a previous order, a sample product from the original order needs to accompany your new order to assure uniformity of finish and construction.

ACKNOWLEDGEMENT

Our written acknowledgement will notify you that your order has been accepted. If there is any discrepancy, you need to notify us within 72 hours using the approval request form that is provided by TMC.

You will receive an estimated ship date once your order has been fully acknowledged and approved. If for some reason your furniture must not ship earlier than the estimated ship date, please specify a “Do not ship before date” in your purchase order. While we make every effort to ship your furniture on time, we are not responsible for delays in scheduling or failure to make a scheduled shipping date due to factors beyond our control such as strikes, lockouts or other labor complications, wars, riots, Acts of God, fires, accidents, restraints affecting shipment or credit, reduced supply, excessive cost of fuel or raw material, delays from suppliers, compliance with government regulations or other unforeseen contingencies.

WOOD FINISHES

TMC’s wood finishes, like all wood finishes, can be light sensitive, therefore care should be taken to avoid placing your chairs in areas exposed to intense natural light. We apply UV blocker on our furniture, however, expect some wood finish colors to shift over time. There are variations common to all wood species, so the color and grain characteristics of our finish samples may not exactly match the finish of the furniture you receive from us. The aniline dyes, wood stains and toners penetrate wood, however, chair seats, furniture surfaces and edges may show wearing with use especially on the dark finish colors.

WATER BASE TOP COAT FINISH

TMC’s water base top coat is also available on all of our products. No upcharges will apply. To order simply put a W- before the finish number. For example W-01 is water based Clear.

CUSTOM WOOD FINISH MATCH

We will be pleased to prepare custom wood finish matches for you, however, all custom matches are subject to a minimum mixing charge. The set-up is \$445.00 LIST and \$16.00 LIST per unit. We require several important conditions for all custom finish orders. First, your custom finish must be approved by our factory. Please allow up to three weeks for our factory to prepare the custom wood finish match sample. Second, due to limitations of the raw materials and the natural background color of wood, not all colors can be successfully reproduced. As a result, we cannot always determine beforehand whether or not a color is suitable for custom finish matching. This is especially true in the case of custom colors submitted on non-wood products. If we are unable to produce a commercial match to your custom color, you will be notified as early as possible and you will not be charged.

Terms, Conditions and Shipping Information

PRICES

All prices in our catalog are list prices F.O.B. our factory in Grand Rapids, Michigan. Our chair pricing includes packing and corrugated cartoning for common carrier shipments. Our list prices do not include freight, storage, taxes or additional packaging required for UPS or blanket wrapped shipments. Our prices are subject to change without notice.

We reserve the right to change quotation prices prior to acceptance by you. Our quotation prices are valid for 30 days; a TMC quote older than 30 days must be re-submitted for dating and approval. Any pricing for orders in which you specify a shipment 90 days or more after the formal date of acknowledgment will be based on the product's prevailing price at time of shipment.

RESALE RIGHTS

We reserve the right to reject any order placed by any customer for any reason, irrespective of whether orders have been previously accepted from that customer; and without incurring any liability to that customer. No customer shall have a continuing right to buy products from us except as part of a formal dealer agreement or other written agreement covering future supply and authorized by us and the reseller. Distribution of our price list or catalog does not itself constitute an offer to sell.

CREDIT AND PAYMENT TERMS

New customers are encouraged to establish an open account; to do this, please request a credit application from our accounting department. One bank and three trade references will be required. Credit will be established upon review and approval of your application. Please allow up to four weeks delay for credit approval. To avoid this delay, orders from new accounts must be accompanied by a 50% deposit. If credit is approved by the time your first order is ready to ship, the balance must be paid within the terms stated on your acknowledgement. Accounts that are inactive for a twelve-month period will automatically be closed and are subject to the above conditions for new accounts. We reserve the right to change or cancel credit and may request advance payment at any time.

Once you have established an open account with us, terms are "Net 15 Days" after the date of our invoice. We add a service charge of 2% each month to all past due accounts. Additionally, we cease processing all orders for past due accounts until the amount due, including any service charge, is paid in full. We require a down payment of 50% for all custom orders, and we will not schedule custom orders for production until the down payment is received.

CHANGES AND CANCELLATIONS

You must receive factory approval to change or cancel your order. We will make every reasonable effort to stop production scheduling and shipment after we have received your written notification of any changes, cancellations or deferrals. However, we ask that you comply with the following:

Changes

Order changes are subject to a fee which will be used to cover administrative, design and/or engineering time. Any change request(s) must be documented in writing. We will in turn, confirm in writing, our acknowledgement of your change and inform you of the fee amount (if applicable). Order changes received after production has started involving only an increase in quantity will not be assessed a charge. Custom orders or orders with custom finishes cannot be changed after work has been started. Orders for upholstered chairs may not be changed after upholstery cover has been cut. You will receive the goods as ordered and be liable for amount due.

Cancellations

We charge \$100 for cancellations received prior to production. Cancellations received after production has been started will be assessed the total accumulated cost of the project plus a \$100 net cancellation charge to cover administrative costs.

FREIGHT PROGRAM

TMC Furniture has a freight program that applies to deliveries inside the continental United States. The rates are based on the percentage of the LIST price of TMC Furniture products. Percentages will vary according to the destination state. Please see the LTL Freight Program PDF, a companion worksheet, for freight zones and percentage rates. Available on our website under Resources>Programs. For deliveries outside the continental United States, please contact customer service for your freight rate.

SHIPPING

We will ship in accordance with your written instructions. If you omit specific shipping instructions, then we will ship in the manner that we consider to be the best way. All shipments are sent F.O.B. Grand Rapids, Michigan. Our liability ends when the carrier issues a receipt to us, which is an acknowledgement by the transportation company that the shipment has been received in good condition. Title of the goods and risk of loss then transfers to you. Freight must be paid by you unless otherwise acknowledged in writing by TMC. We make every effort to ship orders complete and on schedule. We reserve the right to make partial shipments as merchandise is ready. Our failure to deliver all the merchandise at one time does not relieve you from the obligation to accept and pay for the merchandise you receive.

DAMAGE CLAIMS

All our products are thoroughly inspected prior to shipment from our factory and packed to comply with carrier requirements. You should carefully inspect all items upon arrival and note any obvious damage on the receipt of delivery and if possible, photograph the damage. You need to file a written claim immediately with the carrier if you discover any obvious or subsequently concealed damage. Caution: When a clear receipt is obtained by a carrier, then the carrier is no longer responsible for damages or shortages. Damaged freight cannot be refused by the consignee (buyer). Processing claims for damage and shortages are the responsibility of the buyer. At no time can claims be deducted from our invoices.

DEFERRED SHIPMENTS

If you request a delay in shipment of your order and your order is complete or in the production cycle, then we assess charges from the completion date in accordance with our policy for "Storage by the Manufacturer."

STORAGE BY THE MANUFACTURER

If you cannot accept delivery when your furniture is ready, according to the terms of our acknowledgement, then we reserve the right to transfer the merchandise to storage at your expense, and the order will be invoiced at the time of storage. Payment of this invoice will be due on the original terms stipulated in our acknowledgement. Storage charges and freight charges for delivery will be invoiced separately upon release of the merchandise from storage and will be due upon receipt of the invoice.

We charge \$3.50 net per hundred weight, or a minimum of \$35.00, whichever is greater, plus \$35.00 net handling for any items that are required to be stored for more than a week. If long-term storage (i.e., anything over 30 days) becomes necessary, then we require you to arrange appropriate warehousing and insurance coverage and the merchandise will be stored at your risk.

STORAGE AND USE BY OWNER

Due to the nature of wood products, we cannot guarantee any product stored, used or placed in an environment where temperature and humidity are not controlled. Temperatures must be maintained within a range of 50°-80° F (10°-27° C); the relative humidity must be maintained between 25% and 40%. Not surprisingly, these conditions are also commonly recommended human health standards.

RETURN POLICY

All of products are made to order and are not eligible for return. If by small chance your product was given the ok for return there is a 30% restocking charge plus freight.

Terms, Conditions and Shipping Information**WARRANTY**

All TMC products are made to our high production and design standards and are warranted to be free from defects in material and workmanship for a period of five years from the date of shipment from our factory. Our obligation during this warranty period is limited to repair or replacement at our option. This warranty covers defects in workmanship that would lead to veneer lifting or peeling, glue joint failure, and wood joints pulling apart. TMC's warranty covers the lifting of plastic laminate, linoleum or other surface material from substrate, but we can only underwrite the original manufacturer's guarantee against scratching, chipping and material defect. TMC uses finishing techniques that highlight the inherent beauty of wood. However, wood is a natural product with naturally-occurring imperfections: depending on the species and cut certain hardwoods and veneers may absorb our stains differently; all finishes can be expected to mellow with age; and some expansion/contraction is normal. Therefore, the foregoing are not considered defects in materials or manufacturing process and are not covered under this warranty. TMC does not warrant products manufactured to the specifications of others nor their fitness for particular purpose or use. No warranty is made for non-standard materials selected by and used at the request of the customer such as COM, COL, or any other customer-supplied or specified product.

Our warranty becomes null and void on any goods repaired or altered by any person who is not authorized by TMC or where the purchaser has failed to follow published instructions for assembly, use or care. This warranty covers our products under normal use and in service under conditions for which the products are designed. TMC considers normal use to be single-shift service (eight hours per day, five days per week); extended use (multiple shifts, 24-hour facilities, etc.) will reduce this warranty to two years. Additionally, this warranty becomes null and void on any products which, in the judgment of TMC, have been subject to abuse, misuse, improper storage, negligence, acts of God, or environmental conditions such as heat or humidity or damage to the products that is not attributable to the failure of the products themselves. We make no other warranties either expressed or implied regarding any matter whatsoever, including, without limitation, the condition of the merchandise, its merchantability, or its fitness for any particular use or purpose, and in no event shall TMC be liable for incidental or consequential damages. Any defects should be reported immediately. All claims will be processed by TMC's Customer Service Department, and all returns must be authorized by us in writing. Merchandise authorized for return, repair or replacement must be removed from service, shipped and installed at the expense of the customer. A copy of the original purchase order must accompany all claims. This warranty is not transferable.

Additional Information

PRODUCT DIMENSIONS, SPECIFICATIONS AND VARIATIONS

The sizes and weights listed for our products are approximated. We reserve the right to make changes in design and construction or discontinue products without notice. Due to conditions beyond our control all wood products, fabrics and vinyls are subject to variations in color, texture and grain.

Our price list specifications supersede all other specifications whether verbal or written, and may not be altered without the written consent of an officer of TMC. All clerical errors on any agreement, publication, correspondence, price list, or product literature pieces are subject to correction at any time.

CARE AND MAINTENANCE

Since furniture is installed and used under a variety of conditions, we urge you to make inspections no less than every six months to look for damage or signs of structural fatigue incurred in daily handling, use and abuse. Your examination should include welds, machine screw assemblies and the shell to base fasteners. If you discover problems that could compromise the structural safety of a chair, table or other product, you should immediately remove it from service and TMC should be notified. Coats and other articles should not be hung on the backs of chairs. This practice may cause chairs to be unstable.

Wood Edges and Veneer Surfaces

Clean surfaces with a damp soft cloth. Dry surface by moving a soft cloth in the direction of the wood grain. Avoid placing tables under intense direct sunlight.

Powder Coat Surfaces

Clean surfaces with a mild soap solution. Dry with a soft cloth.

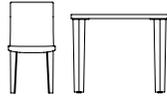

Chrome Surfaces

Clean with window cleaner or a damp cloth. Dry with a soft cloth.

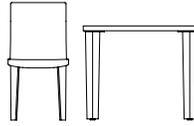

Table Collection 2

SIZE AND AGE CHART

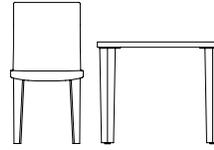

Recommended table and chair seat height and table height combinations for each stage of a child's development. Chair and table options recommended for 14 + Years Old are part of the adult collection.

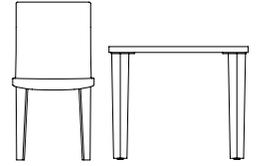

4 - 9 Years Old
Chair 12" and Table 20"

7 - 12 Years Old
Chair 14" and Table 24"

10 - 15 Years Old
Chair 16" and Table 26"

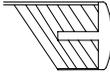

14 + Years Old
Chair 18" and Table 29"

CUT-OUT PROCESS OPTIONS AND CODES

2 cut-out process options: Cut-Thru (CT) and InScribed (NC) and InSet (NT). To learn more about designs and processes available, reference the Cut-Out Portfolio, a companion workbook.

**CutThru™
[CT]**

A panel with a CutOut design that leaves a void you can see through.

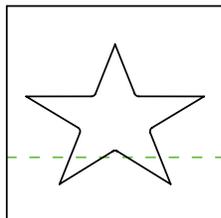

**InScribed™
[NC]**

A panel with a laser design that is flush to the panel's surface.

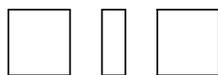

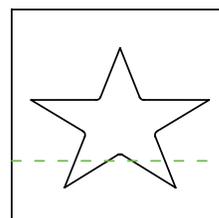

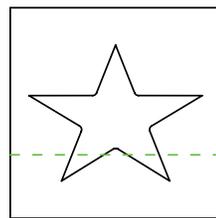

**InSet™
[NT]**

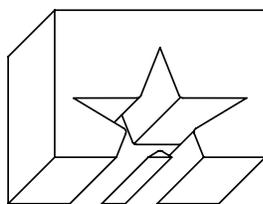

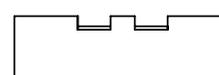

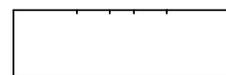

A panel with a recessed Cut-Out design (usually 1/4" deep) and filled with a material such as laminate or wood.

CUSTOM FINISHES AND DESIGNS

Please contact customer service with questions regarding custom finishes.

Custom Wood Finish Upcharges **CC**
 The upcharge costs associated with custom wood finish options are as follows: \$445.00 LIST for set up and \$16.00 LIST per unit.

WATER BASE TOP COAT WOOD FINISH **W-___**
 Prefix W- with finish number. For example, if specifying Light Oak (23) with a water base, the correct code is as follows: W-23.

STANDARD LAMINATE **SL**
 TMC Furniture has standard laminate offerings from Arborite, Wilsonart, Pionite, Formica, and Nevamar. If specifying a standard laminate, use SL. (If a non-standard laminate is selected from a company on TMC's standard list, it is considered custom.)

Custom Laminate Upcharges **CL*
 TMC Furniture has premium laminate offerings from Arborite, Wilsonart, Pionite, Formica, Nevamar and any other manufacturer. Upcharges apply. Please consult customer service.

STANDARD MARMOLEUM
 Standard marmoleum from FORBO is available. Please consult customer service for pricing.

MODIFICATIONS TO STANDARD PRODUCT
 For modifying standard product such as chair/table leg heights, please contact customer service for upcharges.

Wood Finishes

TONER WOOD FINISHES - MAPLE

OPAQUE WOOD FINISHES - MAPLE

Laminate Table Top Options

ARBORITE®, FORMICA®, WILSONART®, PIONITE® and NEVAMAR®

*If specifying a standard laminate from the aforementioned standard list, use the code *SL*.

*If specifying a non-standard laminate from a company on the aforementioned standard list, it is considered custom. Use the code *CL*.

STANDARD WOOD FINISH AND LAMINATE UPCHARGES

There are no upcharges for standard wood finishes and standard laminates.

CUSTOM FINISH AND DESIGN UPCHARGES

Custom wood finish and laminate options are available. For upcharge information, please see Page 7 and contact customer service with any additional questions.

Table Collection 2

Product Code Builder

TMC's ordering system uses a product code that requires specifications to be detailed in a precise order. To make it easier for you to specify tables from the many options available, we suggest you follow the steps below in creating your table and corresponding product code. Should you have any questions, feel free to contact our customer service department or your sales rep, and they will be happy to assist you.

How to Order

Order all items by their product code.
To create the product code specify:

1. Model
2. Surface selection
3. Top finish [if applicable]
4. Edge treatment
5. Edge color or finish
6. Cut-Out [no cut-out specify XX, custom CC]
7. Cut-Out process selection
8. Cut-Out detail finish color [if applicable]
9. Table finish [see wood finish card]

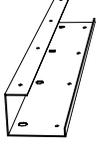

Example: TTR3060L30 - - - - -

Model	Top Surface	Top finish color [if applicable]	Edge treatment	Edge color or finish	CutOut™ [no cut-out specify XX, custom CC]	CutOut™ process selection.* For InSet™ technique specify standard laminate [SL]** or custom [CL]. For InScribed™ technique specify standard wood finish [FC] or custom finish [CC].	CutOut™ detail finish color [if applicable]	Table finish
	SL- Laminate CL- Custom Laminate MV- Maple Veneer CC - Custom							
	Standard laminates from: Wilsonart, Pionite, Formica and Nevamar							
	Custom/Premium laminate from Wilsonart, Formica, Nevamar and Pionite or laminate from any other manufacturers is considered custom							

** Standard grade laminate from Formica, Wilsonart, Pionite and Nevamar

Construction

Worksurfaces: Premium particle board. Laminate or maple wood veneer is standard however other surfaces are available.

Side panels: Premium maple veneer plywood.

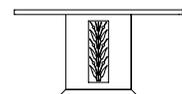

Table feet/base: Constructed of solid maple with adjustable glides.

Cut-Out treatment: InScribed or InSet process only. See page 7 for details.

Cut-Out placement: Standard placement is on two sides. Four side cut-out placement will require a \$95 List upcharge.

Wire Management: Various options exist to facilitate computer access including power and data receptacles. For detailed information please refer to our Power Data Guide.

Worksurface height: Standard is 29". Other heights and table sizes are available upon request. Please consult customer service department for pricing.

Environment and Sustainability

TMC Furniture is committed to reducing, reusing and recycling to help ease the strain on our environment.

- We design and manufacture all of our products with long life cycles to reduce the need to discard and replace furniture.
- Our products are primarily manufactured using wood – a wonderful organic material that is renewable, recyclable and biodegradable.
- The northern hardwoods that we select for our furniture come from renewable and sustainable forests; we do not use wood from endangered tree species.
- TMC furnishings are made in the USA, which limits our transportation needs (as compared to trans-oceanic imports), thus reducing the carbon footprint of our products.
- Many of our products are constructed using Forbo Linoleum a "high-scoring" LEED material. TMC's extensive experience with environmentally-friendly materials allows us to easily incorporate them into semi-custom and fully-custom products.
- Our metal and plastic products contain recycled content.
- Our adhesives, stains and finishes are designed to minimize harmful emissions – wherever possible, we use water-based products.
- Both our locations – TMC's Grand Rapids Factory and Ann Arbor Office – are committed to recycling paper, cardboard, plastics and scrap materials left over from our furniture production, thus dramatically reducing landfill requirements.
- We are just-in-time manufacturers, eliminating storing unnecessary inventory.
- We offer blanket-wrap shipping, thereby eliminating packaging waste.

Whenever possible, TMC uses processing procedures and products that have minimal environmental impact.

ORDERS

Please submit all orders in writing and specify each item by its product code and the corresponding model description, finish, upholstery and options offered in the price list. If your current order must match a previous order, a sample product from the original order needs to accompany your new order to assure uniformity of finish and construction.

ACKNOWLEDGEMENT

Our written acknowledgement will notify you that your order has been accepted. If there is any discrepancy, you need to notify us within 72 hours using the approval request form that is provided by TMC.

You will receive an estimated ship date once your order has been fully acknowledged and approved. If for some reason your furniture must not ship earlier than the estimated ship date, please specify a "Do not ship before date" in your purchase order. While we make every effort to ship your furniture on time, we are not responsible for delays in scheduling or failure to make a scheduled shipping date due to factors beyond our control such as strikes, lockouts or other labor complications, wars, riots, Acts of God, fires, accidents, restraints affecting shipment or credit, reduced supply, excessive cost of fuel or raw material, delays from suppliers, compliance with government regulations or other unforeseen contingencies.

WOOD FINISHES

TMC's wood finishes, like all wood finishes, can be light sensitive, therefore care should be taken to avoid placing your chairs in areas exposed to intense natural light. We apply UV blocker on our furniture, however, expect some wood finish colors to shift over time. There are variations common to all wood species, so the color and grain characteristics of our finish samples may not exactly match the finish of the furniture you receive from us. The aniline dyes, wood stains and toners penetrate wood, however, chair seats, furniture surfaces and edges may show wearing with use especially on the dark finish colors.

WATER BASE TOP COAT FINISH

TMC's water base top coat is also available on all of our products. No upcharges will apply. To order simply put a W- before the finish number. For example W-01 is water based Clear.

CUSTOM WOOD FINISH MATCH

We will be pleased to prepare custom wood finish matches for you, however, all custom matches are subject to a minimum mixing charge. The set-up is \$445.00 LIST and \$16.00 LIST per unit. We require several important conditions for all custom finish orders. First, your custom finish must be approved by our factory. Please allow up to three weeks for our factory to prepare the custom wood finish match sample. Second, due to limitations of the raw materials and the natural background color of wood, not all colors can be successfully reproduced. As a result, we cannot always determine beforehand whether or not a color is suitable for custom finish matching. This is especially true in the case of custom colors submitted on non-wood products. If we are unable to produce a commercial match to your custom color, you will be notified as early as possible and you will not be charged.

Terms, Conditions and Shipping Information

PRICES

All prices in our catalog are list prices F.O.B. our factory in Grand Rapids, Michigan. Our chair pricing includes packing and corrugated cartoning for common carrier shipments. Our list prices do not include freight, storage, taxes or additional packaging required for UPS or blanket wrapped shipments. Our prices are subject to change without notice.

We reserve the right to change quotation prices prior to acceptance by you. Our quotation prices are valid for 30 days; a TMC quote older than 30 days must be re-submitted for dating and approval. Any pricing for orders in which you specify a shipment 90 days or more after the formal date of acknowledgment will be based on the product's prevailing price at time of shipment.

RESALE RIGHTS

We reserve the right to reject any order placed by any customer for any reason, irrespective of whether orders have been previously accepted from that customer; and without incurring any liability to that customer. No customer shall have a continuing right to buy products from us except as part of a formal dealer agreement or other written agreement covering future supply and authorized by us and the reseller. Distribution of our price list or catalog does not itself constitute an offer to sell.

CREDIT AND PAYMENT TERMS

New customers are encouraged to establish an open account; to do this, please request a credit application from our accounting department. One bank and three trade references will be required. Credit will be established upon review and approval of your application. Please allow up to four weeks delay for credit approval. To avoid this delay, orders from new accounts must be accompanied by a 50% deposit. If credit is approved by the time your first order is ready to ship, the balance must be paid within the terms stated on your acknowledgement. Accounts that are inactive for a twelve-month period will automatically be closed and are subject to the above conditions for new accounts. We reserve the right to change or cancel credit and may request advance payment at any time.

Once you have established an open account with us, terms are "Net 15 Days" after the date of our invoice. We add a service charge of 2% each month to all past due accounts. Additionally, we cease processing all orders for past due accounts until the amount due, including any service charge, is paid in full. We require a down payment of 50% for all custom orders, and we will not schedule custom orders for production until the down payment is received.

CHANGES AND CANCELLATIONS

You must receive factory approval to change or cancel your order. We will make every reasonable effort to stop production scheduling and shipment after we have received your written notification of any changes, cancellations or deferments. However, we ask that you comply with the following:

Changes

Order changes are subject to a fee which will be used to cover administrative, design and/or engineering time. Any change request(s) must be documented in writing. We will in turn, confirm in writing, our acknowledgement of your change and inform you of the fee amount (if applicable). Order changes received after production has started involving only an increase in quantity will not be assessed a charge. Custom orders or orders with custom finishes cannot be changed after work has been started. Orders for upholstered chairs may not be changed after upholstery cover has been cut. You will receive the goods as ordered and be liable for amount due.

Cancellations

We charge \$100 for cancellations received prior to production. Cancellations received after production has been started will be assessed the total accumulated cost of the project plus a \$100 net cancellation charge to cover administrative costs.

FREIGHT PROGRAM

TMC Furniture has a freight program that applies to deliveries inside the continental United States. The rates are based on the percentage of the LIST price of TMC Furniture products. Percentages will vary according to the destination state. Please see the LTL Freight Program PDF, a companion worksheet, for freight zones and percentage rates. Available on our website under Resources>Programs. For deliveries outside the continental United States, please contact customer service for your freight rate.

SHIPPING

We will ship in accordance with your written instructions. If you omit specific shipping instructions, then we will ship in the manner that we consider to be the best way. All shipments are sent F.O.B. Grand Rapids, Michigan. Our liability ends when the carrier issues a receipt to us, which is an acknowledgement by the transportation company that the shipment has been received in good condition. Title of the goods and risk of loss then transfers to you. Freight must be paid by you unless otherwise acknowledged in writing by TMC. We make every effort to ship orders complete and on schedule. We reserve the right to make partial shipments as merchandise is ready. Our failure to deliver all the merchandise at one time does not relieve you from the obligation to accept and pay for the merchandise you receive.

DAMAGE CLAIMS

All our products are thoroughly inspected prior to shipment from our factory and packed to comply with carrier requirements. You should carefully inspect all items upon arrival and note any obvious damage on the receipt of delivery and if possible, photograph the damage. You need to file a written claim immediately with the carrier if you discover any obvious or subsequently concealed damage. Caution: When a clear receipt is obtained by a carrier; then the carrier is no longer responsible for damages or shortages. Damaged freight cannot be refused by the consignee (buyer). Processing claims for damage and shortages are the responsibility of the buyer. At no time can claims be deducted from our invoices.

DEFERRED SHIPMENTS

If you request a delay in shipment of your order and your order is complete or in the production cycle, then we assess charges from the completion date in accordance with our policy for "Storage by the Manufacturer:"

STORAGE BY THE MANUFACTURER

If you cannot accept delivery when your furniture is ready, according to the terms of our acknowledgement, then we reserve the right to transfer the merchandise to storage at your expense, and the order will be invoiced at the time of storage. Payment of this invoice will be due on the original terms stipulated in our acknowledgement. Storage charges and freight charges for delivery will be invoiced separately upon release of the merchandise from storage and will be due upon receipt of the invoice.

We charge \$3.50 net per hundred weight, or a minimum of \$35.00, whichever is greater; plus \$35.00 net handling for any items that are required to be stored for more than a week. If long-term storage (i.e., anything over 30 days) becomes necessary, then we require you to arrange appropriate warehousing and insurance coverage and the merchandise will be stored at your risk.

STORAGE AND USE BY OWNER

Due to the nature of wood products, we cannot guarantee any product stored, used or placed in an environment where temperature and humidity are not controlled. Temperatures must be maintained within a range of 50°-80° F (10°-27° C); the relative humidity must be maintained between 25% and 40%. Not surprisingly, these conditions are also commonly recommended human health standards.

RETURN POLICY

All of products are made to order and are not eligible for return. If by small chance your product was given the ok for return there is a 30% restocking charge plus freight.

Terms, Conditions and Shipping Information

WARRANTY

All TMC products are made to our high production and design standards and are warranted to be free from defects in material and workmanship for a period of five years from the date of shipment from our factory. Our obligation during this warranty period is limited to repair or replacement at our option. This warranty covers defects in workmanship that would lead to veneer lifting or peeling, glue joint failure, and wood joints pulling apart. TMC's warranty covers the lifting of plastic laminate, linoleum or other surface material from substrate, but we can only underwrite the original manufacturer's guarantee against scratching, chipping and material defect. TMC uses finishing techniques that highlight the inherent beauty of wood. However, wood is a natural product with naturally-occurring imperfections: depending on the species and cut certain hardwoods and veneers may absorb our stains differently; all finishes can be expected to mellow with age; and some expansion/contraction is normal. Therefore, the foregoing are not considered defects in materials or manufacturing process and are not covered under this warranty. TMC does not warrant products manufactured to the specifications of others nor their fitness for particular purpose or use. No warranty is made for non-standard materials selected by and used at the request of the customer such as COM, COL, or any other customer-supplied or specified product.

Our warranty becomes null and void on any goods repaired or altered by any person who is not authorized by TMC or where the purchaser has failed to follow published instructions for assembly, use or care. This warranty covers our products under normal use and in service under conditions for which the products are designed. TMC considers normal use to be single-shift service (eight hours per day, five days per week); extended use (multiple shifts, 24-hour facilities, etc.) will reduce this warranty to two years. Additionally, this warranty becomes null and void on any products which, in the judgment of TMC, have been subject to abuse, misuse, improper storage, negligence, acts of God, or environmental conditions such as heat or humidity or damage to the products that is not attributable to the failure of the products themselves. We make no other warranties either expressed or implied regarding any matter whatsoever; including, without limitation, the condition of the merchandise, its merchantability, or its fitness for any particular use or purpose, and in no event shall TMC be liable for incidental or consequential damages. Any defects should be reported immediately. All claims will be processed by TMC's Customer Service Department, and all returns must be authorized by us in writing. Merchandise authorized for return, repair or replacement must be removed from service, shipped and installed at the expense of the customer. A copy of the original purchase order must accompany all claims. This warranty is not transferable.

Additional Information

PRODUCT DIMENSIONS, SPECIFICATIONS AND VARIATIONS

The sizes and weights listed for our products are approximated. We reserve the right to make changes in design and construction or discontinue products without notice. Due to conditions beyond our control all wood products, fabrics and vinyls are subject to variations in color, texture and grain.

Our price list specifications supersede all other specifications whether verbal or written, and may not be altered without the written consent of an officer of TMC. All clerical errors on any agreement, publication, correspondence, price list, or product literature pieces are subject to correction at any time.

CARE AND MAINTENANCE

Since furniture is installed and used under a variety of conditions, we urge you to make inspections no less than every six months to look for damage or signs of structural fatigue incurred in daily handling, use and abuse. Your examination should include welds, machine screw assemblies and the shell to base fasteners. If you discover problems that could compromise the structural safety of a chair, table or other product, you should immediately remove it from service and TMC should be notified. Coats and other articles should not be hung on the backs of chairs. This practice may cause chairs to be unstable.

Wood Edges and Veneer Surfaces

Clean surfaces with a damp soft cloth. Dry surface by moving a soft cloth in the direction of the wood grain. Avoid placing tables under intense direct sunlight.

Powder Coat Surfaces

Clean surfaces with a mild soap solution. Dry with a soft cloth.

Chrome Surfaces

Clean with window cleaner or a damp cloth. Dry with a soft cloth.

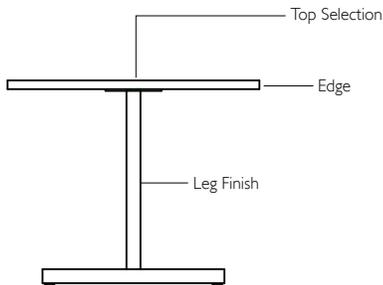

How to Build a Product Code

PRODUCT CODE BUILDER

TMC's ordering system uses a product code that requires specifications to be detailed in a precise order. To make it easier for you to specify our products, we suggest you use the Ordering Instructions and Product Code Builder at the bottom of each price list page to create your corresponding product code. Should you have any questions, feel free to contact our customer service department or your sales rep, and they will be happy to assist you.

ANATOMY AND TERMINOLOGY OF FURNITURE

TMC's ordering system uses a product code that requires knowledge of furniture anatomy terminology you may not be familiar with. Use the following diagram as you complete your Product Code Builder, which is at the bottom of each price list page. Should you have any questions regarding unfamiliar terminology, feel free to contact our customer service department or your sales rep, and they will be happy to assist you.
