Customer Services  
 (518) 474-6717  
[customer.services@ogs.state.ny.us](mailto:customer.services@ogs.state.ny.us)

**CONTRACTOR(S):** County Line Stone Co., Inc.

**CONTRACT NO(S):** PC65864

**SUBJECT:** Change in status from Award Pending (“AP”) to awarded for the following optional items

Any contractor given an “Award Pending” for an “optional” item may become eligible for award by reducing its price(s) to less than or equal to the “revised average price” increased by 10%. Additionally, any contractor who has been awarded optional items can offer to lower their pricing at any time. County Line Stone Co. has offered, and we have reviewed and accepted, revised pricing in Region 5 as follows:

**REGION 5**

(Cattaraugus, Chautauqua, Erie and Niagara Counties)

			<b>Hauling (Detailed description pages 10-11)</b>				
<b>Contractor</b>	<b>Supply County</b>	<b>DOT #</b>	<b>Hauling 0 – 1 Mile</b>	<b>Hauling 1+ Mile</b>	<b>Add'l 1+ Mile 620.04</b>	<b>Add'l 1+ Mile 620.05</b>	<b>Add'l 1+ Mile 620.06</b>
County Line Stone	Erie	5-7R, 5-7RS	\$2.000	\$0.300	\$1.000	\$1.000	\$1.000

Please attach this Purchasing Memorandum to your copy of the Contract Award Notification.

**CONTRACT NO(S):** PC65856 - PC65894, PC65902,  
PC65955

**SUBJECT:** Price Adjustment

**ALL STATE AGENCIES AND OTHERS AUTHORIZED TO USE STATE CONTRACTS:**

**Periodic Price Adjustment** - Every three months the base bid prices shown in the initial CONTRACT AWARD NOTIFICATION may be adjusted in accordance with changes in the US Bureau of Labor Statistics (BLS). There will be one BLS index used for product.

PPI Series ID: PCU 21231-21231 (Not seasonally adjusted)  
“Base” Date for Contract Price Adjustments: January 2011

A multiplier of 1.0532 price increase to the original **product** prices is hereby instituted and is to remain in effect until further notice in accordance with provisions of “Periodic Price Adjustment”; agencies should increase the prices stated in the Contract Award Notification by **5.32%** when drawing orders effective August 15, 2013.

\*Price adjustments will NOT be recalculated if PPI changes due to change in (P) status.

All other terms and conditions of the contract award remain in effect and unchanged.

**CONTRACT NUMBERS:** ALL Contractors under Award 22197 (both original award and supplemental award) PC65856 through PC65894, PC65902 and PC65955

**SUBJECT: CONTRACT EXTENSIONS**

We refer to Group 33700, Contract Award No. 22197, our contract award for Fine & Coarse Aggregates (All State Agencies and Political Subdivisions).

All forty-one (41) contractors have offered, and we have accepted, a renewal of contracts PC65856 through PC65894, plus PC65902 and PC65955, which expired on June 30, 2013, for an additional period of up to three (3) months, through September 30, 2013. These contracts will terminate should the replacement contracts be issued in the interim.

All pricing, terms, and conditions of the above contract award remain unchanged. Please audit all purchase orders and invoices accordingly. We suggest that you attach this memorandum to the front of your contract award.

Should you have any questions concerning this Purchasing Memorandum, please contact this office at (518) 408-2383.

Cash Discount, If Shown, Should be Given Special Attention.

**INVOICES MUST BE SENT DIRECTLY TO THE ORDERING AGENCY FOR PAYMENT.  
(See "Contract Payments" and "Electronic Payments" in this document.)**

AGENCIES SHOULD NOTIFY THE PROCUREMENT SERVICES GROUP PROMPTLY IF THE CONTRACTOR FAILS TO MEET DELIVERY OR OTHER TERMS OF THIS CONTRACT. PRODUCTS OR SERVICES WHICH DO NOT COMPLY WITH THE SPECIFICATIONS OR ARE OTHERWISE UNSATISFACTORY TO THE AGENCY SHOULD ALSO BE REPORTED TO THE PROCUREMENT SERVICES GROUP.

**SMALL, MINORITY AND WOMEN-OWNED BUSINESSES:**

The letters SB listed under the Contract Number indicate the contractor is a NYS small business. Additionally, the letters MBE and WBE indicate the contractor is a Minority-owned Business Enterprise and/or Woman-owned Business Enterprise.

**RECYCLED, REMANUFACTURED AND ENERGY EFFICIENT PRODUCTS:**

The Procurement Services Group supports and encourages the purchase of recycled, remanufactured, energy efficient and "energy star" products. If one of the following codes appears as a suffix in the Award Number or is noted under the individual Contract Number(s) in this Contract Award Notification, please look at the individual awarded items for more information on products meeting the suffix description.

RS,RP,RA	Recycled
RM	Remanufactured
SW	Solid Waste Impact
EE	Energy Efficient
E*	EPA Energy Star
ES	Environmentally Sensitive

**NOTE TO AUTHORIZED USERS:**

When placing purchase orders under the contract(s), the authorized user should be familiar with and follow the terms and conditions governing its use which usually appears at the end of this document. The authorized user is accountable and responsible for compliance with the requirements of public procurement processes. The authorized user must periodically sample the results of its procurements to determine its compliance. In sampling its procurements, an authorized user should test for reasonableness of results to ensure that such results can withstand public scrutiny.

The authorized user, when purchasing from OGS contracts, should hold the contractor accountable for contract compliance and meeting the contract terms, conditions, specifications, and other requirements. Also, in recognition of market fluctuations over time, authorized users are encouraged to seek improved pricing whenever possible.

Authorized users have the responsibility to document purchases, particularly when using OGS multiple award contracts for the same or similar product(s)/service(s), which should include:

- a statement of need and associated requirements,
- a summary of the contract alternatives considered for the purchase,
- the reason(s) supporting the resulting purchase (e.g., show the basis for the selection among multiple contracts at the time of purchase was the most practical and economical alternative and was in the best interests of the State).

**MATERIALS:**

The following are the material descriptions of items that may be included in this Award:

<b>Material #</b>	<b>Descriptive Title</b>	<b>Material Size Range &amp; Miscellaneous Notes</b>	<b>Material Use</b>
203.06	Select Fill	The top size can be up to 3 feet in maximum dimension.	Used to construct embankments
203.07	Select Granular Fill	The top size can be up to 4 inches in maximum dimension.	Used for backfill around pipes, etc. It is usually a sandy type material.
203.20	Select Granular Sub-grade	The maximum size is 12 inches.	Used to construct roadway sub-grades, which are placed under sub-bases.
304.11 304.12 304.13 304.14 304.14A	Type 1 Sub-base Course Type 2 Sub-base Course Type 3 Sub-base Course Type 4 Sub-base Course Type 4A Sub-base Course	Type 4 is the most commonly used sub-base course. Different items and densities correspond with different gradations.	Used to construct pavement sub-bases. Commonly referred to as gravel, although it may be crushed stone, slag, etc. Not for use as a finished surface for a gravel road.
17304.1011	Type 1011 Sub-base Course Material A (Crushed Concrete) Recycled	Similar to Type 4, but made with crushed, recycled concrete. Mostly used on Long Island.	Used to construct pavement sub-bases.
605.0901 605.1001 605.1101	Underdrain Filter, Type I Underdrain Filter, Type II Underdrain Filter, Type III	Basically a ¼ inch size stone or gravel.	Used as a filter material around underdrain pipe.
620.02 620.03 620.04 620.05 620.06 620.08	Fine Stone Fill Light Stone Fill Medium Stone Fill Heavy Stone Fill Rip Rap Stone Bedding Material	Ranges from 3 inches diameter for fine stone fill to 2 feet for heavy stone fill.	Used for bank and channel protection (erosion control). This material is dumped from trucks, not individually placed.
703-0201A 703-0201B 703-0201C 703-0201D 703-0201E 703-0201F	Crushed Stone - Size 1A Crushed Stone - Size 1 <sup>ST</sup> Crushed Stone - Size 1 Crushed Stone - Size 2 Crushed Stone - Size 3A Crushed Stone - Size 3	Top sizes range from 3/16 inches to 1.5 inches. Produced from ledge rock. Not available locally in the entire state.	Used for bituminous surface treatment, hot mix asphalt, concrete, etc. Equivalent performance to crushed gravel.
703-0202A 703-0202B 703-0202C 703-0202D 703-0202E 703-0202F	Crushed Gravel - Size 1A Crushed Gravel - Size 1 <sup>ST</sup> Crushed Gravel - Size 1 Crushed Gravel - Size 2 Crushed Gravel - Size 3A Crushed Gravel - Size 3	Top sizes range from 3/16 inches to 1.5 inches. Produced from gravel. Not available locally in the entire state.	Used for bituminous surface treatment, hot mix asphalt, concrete, etc. Equivalent performance to crushed stone.
703-0203G 703-0203H 703-0203I 703-0203J 703-0203K 703-0203L	Screened Gravel-Size 1A Screened Gravel-Size 1 <sup>ST</sup> Screened Gravel-Size 1 Screened Gravel-Size 2 Screened Gravel-Size 3A Screened Gravel-Size 3	Top sizes range from 3/16 inches to 1.5 inches. Produced from gravel. Not available locally in the entire state.	Generally used in Portland cement concrete, bituminous concrete and surface treatments.

MATERIALS: (Cont'd.)

<b>Material #</b>	<b>Descriptive Title</b>	<b>Material Size Range &amp; Miscellaneous Notes</b>	<b>Material Use</b>
703-03	Mortar Sand	Concrete sand is a permitted alternate.	Fine sand for use in making mortar for masonry work.
703-04	Grout Sand	#100 - #16	Fine sand for use in making grout.
703-06	Cushion Sand	#100 - ¼ inch	Used for concrete block slope paving.
703-07	Concrete Sand	#200 – 3/8 inch	Sand for use in making Portland cement concrete.
712-15A	Gabion Stone, (Basket Height =12 inches)	Ranges from 4 inch to 8 inch	Gabions are rectangular steel baskets that are used for stream and bank protection. Large stones are inserted into these baskets.
712-15B	Gabion Stone, (Basket Height >12 inches)	Ranges from 4 inch to 12 inch	
A1	Crusher Run - Size 1 inch	Top size 1 inch, no more than 50% passing ¼ inch sieve	Crusher run material is produced in a quarry by crushing ledge rock. It is used for sub-base, shoulder backup, driveways, etc.
A2	Crusher Run - Size #1, etc	Mixture of stone dust and #1 stone (3/8 inch)	
A3	Crusher Run - Size 1 inch	Maximum top size 1 inch	
A4	Crusher Run - Size 1.5 inches	Maximum top size 1.5 inches	
A5	Crusher Run - Size 2 inches	Maximum top size 2 inches	
Abrasive A	Abrasive Gradation A	#200 – 3/8 inch	Abrasives used to treat snow and ice on pavements.
Abrasive B	Abrasive Gradation B	#200 – 3/8 inch	

**PRICE:**

**Net Pricing** - Clause 24b of the General Specification is modified to include the following:

Price quoted shall include all customs duties and charges and be F.O.B. plant per net ton, net ton mile, and additional charges per net ton for hauling 620.04, 620.05 and 620.06.

**Periodic Price Adjustment** – Every three months beginning with August 15, 2011, the base bid prices shown in the initial CONTRACT AWARD NOTIFICATION may be adjusted in accordance with changes in the US Bureau of Labor Statistics (BLS). **THIS ADJUSTMENT MAY GO UP OR DOWN.** Please see chart below for applicable dates. (These dates may be expanded as needed if contract is extended, etc.) Price adjustments will NOT be recalculated if PPI changes due to change in Preliminary (P) status.

**DATES FOR IMPLEMENTATION:**

<b>Effective Date for Adjustment</b>	<b>BLS Month for Calculation</b>	<b>PPI Base Month</b>
August 15, 2011	June 2011	January 2011
November 15, 2011	September 2011	January 2011
February 15, 2012	December 2011	January 2011
May 15, 2012	March 2012	January 2011
August 15, 2012	June 2012	January 2011
November 15, 2012	September 2012	January 2011
February 15, 2013	December 2012	January 2011

PRICE: (Cont'd):

There will be one BLS index used for product. The BLS values will be “Not Seasonally Adjusted.” The index is:

**FOR PRODUCT**

Producer Price Index (PPI)  
Series ID: PCU 21231-21231  
Industry: Stone Mining & Quarrying  
Product: Stone Mining & Quarrying

The “base” value for calculations shall be for **JANUARY 2011**.

**CALCULATION METHOD:**

(BLS Month For calculation divided by Base Month) multiplied times (Base Bid Price in Award)

EXAMPLE - This example is for illustration purposes only. Actual BLS values, etc., may vary.

BASE BID PRICE	=	\$35.000	
JANUARY 2011	=	244.4	
JUNE 2012	=	245.6	
ADJUSTMENT EFFECTIVE AUGUST 15, 2012	=	(245.6/244.4) x \$35.000	
	=	1.0049 x \$35.000	
	=	\$35.1715	
	=	\$35.172 (rounded to third decimal place)	

**Transportation (Hauling)** - Transportation (hauling) costs, with the possible exception of 620.04, 620.05 and 620.06, will be based on two (2) prices. One price will be bid for transportation for 0 to 1 mile (0-1) and one price will be bid for any additional miles (1+).

The 0 to 1 mile price will be the bid price for any distance traveled up to and including one mile. This 0 to 1 mile bid price will be added to the material cost. This final figure will constitute the cost to deliver one ton of material up to one mile.

The 1+ mile price will be the bid price for any distance traveled after the first mile. This 1+ mile bid price will be multiplied by the total number of miles (less the first mile), added to the bid price for 0-1 mile, and then added to the material cost. This final figure will constitute the cost to deliver one ton of material the total number of miles. An additional 1+ mile price may be bid for hauling 620.04, 620.05 and 620.06. This price will be added to the 1+ mile price bid.

PRICE: (Cont'd):

**Transportation (Hauling)** (continued):

The chart below further illustrates the formulas for the transportation (hauling) calculations:

<b>FORMULAS FOR TOTAL DELIVERED COST CALCULATION OF TRANSPORTATION (HAULING) RATES</b>			
<b>Total cost will be determined by applying the following formulas:</b>			
<b>A) FOR DISTANCE OF ONE MILE OR LESS:</b>		<b>EXAMPLE:</b>	
Cost per ton/mile delivery charge for first mile or portion thereof (0-1) as bid		\$	.55
+			
Material Cost as bid		+	<u>\$ 35.00</u>
=			
<b>Total delivered cost per ton for one mile or less</b>		<b>\$</b>	<b><u>35.55</u></b>
<b>B) FOR DISTANCES OVER ONE (1) MILE:</b>			
<b><u>EXAMPLE</u> (based on 20 total miles):</b>			
Total Miles minus one:	20 – 1 =		19
X			
Cost per ton/mile each additional mile after the first mile as bid		X	<u>\$ 0.06</u>
=			
Delivery Charge for total miles less the first mile		\$	1.14
+			
Cost per ton/mile for first mile (0-1)		+	<u>\$ .55</u>
=			
Total Delivery charge per ton		\$	1.69
+			
Material Price as bid		+	<u>\$ 35.00</u>
=			
<b>Total Delivered Cost per ton for 20 miles</b>		<b>\$</b>	<b><u>36.69</u></b>
<b>C) ADDITIONAL TRANSPORTATION COSTS when hauling Item 620.04, 620.05 or 620.06</b>			
<b>= Additional 1+ Mile Price for 620.04, 620.05 or 620.06 X Distance in excess of 1 mile.</b>			
<b><u>EXAMPLE</u> (based on a 20 mile haul and a price of \$0.05 for Additional Charge per 1+ Mile for Hauling 620.04):</b>			
Total Additional Delivery Charge per ton	\$0.05 x 19	=	\$ 0.95
+			
Total Delivered Cost per ton for 20 miles from Section B		+	<u>\$ 36.69</u>
=			
<b>Total Delivered Cost per ton for 620.04 with a 20 mile haul</b>		<b>\$</b>	<b><u>37.64</u></b>

PRICE: (Cont'd)

**Price Reductions** - Contractors shall be permitted to reduce their pricing any time during the contract term. In addition, contractors may choose to offer lower prices in specific instances or for particular projects. Contractors may do so through the agency use of the Quick Quote/Price Calculation worksheet.

**Payment** - Payment shall be made at contract prices per net ton for the actual quantity of material received from the contractor and, if applicable, for the cost of delivery per net ton mile.

**Purchase Outside Region** - During the course of the award, agencies may wish to make purchases outside their county and/or region if better pricing can be obtained.

**QUICK QUOTE/PRICE CALCULATION:**

During the course of this award, agencies may wish to try to obtain lower prices and contractors may wish to lower their contract prices for various reasons, i.e., excess supply, slow business. Each quick quote situation is unique and the price is firm for that particular project only.

**The use of the quick quote format is optional.** Agencies may simply use the contract prices to fill out the price calculation worksheet to determine who has the lowest price.

If an agency wishes to try to obtain better pricing they must send a quick quote form to the contractors within proximity of the project. If bid security is an issue, the agency can require bids to be sealed and/or opened publicly.

Agencies are to accept the lowest bid meeting their specific need. There are no negotiations permitted following this "Quick Quote" and prices cannot be changed once offered. Failure to adhere to all quick quote procedures may cause any non-state agency to lose the privilege of using State contracts. If for some reason the lowest bid is not taken, the agency must prepare detailed documentation explaining the action taken (i.e., the low contractor could not provide the product in the time frame required). This explanation along with the worksheets must be made a part of the record. State Agencies are required to send copies of all worksheets along with the purchase order to the Office of the State Comptroller.

Contractors are not required to lower prices when they receive a quick quote. They may quote the contract price. However, at no time, may a price be quoted that is higher than the contract price. Materials cost and/or hauling expenses can be lowered by the contractor during the quick quote process.

**A Quick Quote/Price Calculation Worksheet is provided on the following page.**

**REQUEST FOR CHANGE:**

Any request by the agency or contractor regarding changes in any part of the contract must be made in writing to the Office of General Services, Procurement Services Group, prior to effectuation.

**CONTRACT PAYMENTS:**

Payments cannot be processed by State facilities until the contract products have been delivered in satisfactory condition or services have been satisfactorily performed. Payment will be based on any invoice used in the supplier's normal course of business. However, such invoice must contain sufficient data including but not limited to contract number, description of product or service, quantity, unit and price per unit as well as federal identification number.

State facilities are required to forward properly completed vouchers to the Office of the State Comptroller for audit and payment. All facilities are urged to process every completed voucher expeditiously giving particular attention to those involving cash discounts for prompt payment.

If the contract terms indicate political subdivisions and others authorized by law are allowed to participate, those entities are required to make payments directly to the contractor. Prior to processing such payment, the contractor may be required to complete the ordering non-State agency's own voucher form.

See "Contract Billings" in Appendix B, OGS General Specifications.

**NOTE TO CONTRACTOR:**

This Contract Award Notification is not an order. Do not take any action under this contract except on the basis of purchase order(s) from the agency or agencies.

**NEW YORK STATE VENDOR RESPONSIBILITY QUESTIONNAIRE FOR-PROFIT BUSINESS ENTITY:**

Contractor is encouraged to maintain up-to-date Questionnaire during the life of the contract and is also required to ensure this Questionnaire reflects any substantive issues that may have occurred from the time the Contract was initially awarded.

**DEBRIEFING:**

Contractors and bidders are accorded fair and equal treatment with respect to the opportunity for debriefing. OGS shall, upon request, provide a debriefing to any bidder or awarded contractor that responded to the IFB or RFP regarding the reason that the proposal or bid submitted by the unsuccessful bidder was not selected for a contract award. The post award debriefing should be requested by the bidder or awarded contractor within thirty days of posting of the contract award on the OGS website.

**CONTRACT BILLINGS AND PAYMENTS:**

a. Billings. Contractor and the dealers/distributors/resellers designated by the Contractor, if any, shall provide complete and accurate billing invoices to each Authorized User in order to receive payment. Billing invoices submitted to an Authorized User must contain all information required by the Contract and the State Comptroller or other appropriate fiscal officer. Submission of an invoice and payment thereof shall not preclude the Commissioner from requesting reimbursement or demanding a price adjustment in any case where the Product delivered is found to deviate from the terms and conditions of the Contract or where the billing was inaccurate.

Contractor shall provide, upon request of the Commissioner, any and all information necessary to verify the accuracy of the billings. Such information shall be provided in the format requested by the Commissioner and in a media commercially available from the Contractor. The Commissioner may direct the Contractor to provide the information to the State Comptroller or to any Authorized User of the Contract.

b. Payment of Contract purchases made by an Authorized User when the State Comptroller is responsible for issuing such payment. The Authorized User and Contractor agree that payments for invoices submitted by the Contractor shall only be rendered electronically unless payment by paper check is expressly authorized by the Commissioner, in the Commissioner's sole discretion, due to extenuating circumstances. Such electronic payments shall be made in accordance with ordinary State procedures and practices. The Contractor shall comply with the State Comptroller's procedures to authorize electronic payments. Authorization forms are available at the State Comptroller website at [www.osc.state.ny.us](http://www.osc.state.ny.us), by e-mail at [epunit@osc.state.ny.us](mailto:epunit@osc.state.ny.us), or by telephone at 518-486-1255. Contractor acknowledges that it will not receive payment on any invoices submitted under this Contract that are payable by the State Comptroller if it does not comply with the State Comptroller's electronic payment procedures, except where the Commissioner has expressly authorized payment by paper check as set forth above.

c. Payment of Contract purchases made by an Authorized User when the State Comptroller is not responsible for issuing such payment. The Authorized User and Contractor agree that payments for such Contract purchases shall be billed directly by Contractor on invoices/vouchers, together with complete and accurate supporting documentation as required by the Authorized User. Such payments shall be as mandated by the appropriate governing law from the receipt of a proper invoice. Such Authorized User and Contractor are strongly encouraged to establish electronic payments.

**PSG's DISPUTE RESOLUTION POLICY:**

It is the policy of the Office of General Services' Procurement Services Group (PSG) to provide vendors with an opportunity to administratively resolve disputes, complaints or inquiries related to PSG bid solicitations or contract awards. PSG encourages vendors to seek resolution of disputes through consultation with PSG staff. All such matters will be accorded impartial and timely consideration. Interested parties may also file formal written disputes. A copy of PSG's Dispute Resolution Procedures for Vendors may be obtained by contacting the person shown on the front of this document or through the OGS website ([www.ogs.ny.gov](http://www.ogs.ny.gov)).

**IRAN DIVESTMENT ACT**

As a result of the Iran Divestment Act of 2012 (Act), Chapter 1 of the 2012 Laws of New York, a new provision has been added to the State Finance Law (SFL), § 165-a, effective April 12, 2012. Under the Act, the Commissioner of the Office of General Services (OGS) will be developing a list (prohibited entities list) of "persons" who are engaged in "investment activities in Iran" (both are defined terms in the law). Pursuant to SFL § 165-a(3)(b), the initial list is expected to be issued no later than 120 days after the Act's effective date, at which time it will be posted on the OGS website.

By submitting a bid in response to this solicitation or by assuming the responsibility of a Contract awarded hereunder, Bidder/Contractor (or any assignee) certifies that once the prohibited entities list is posted on the OGS website, it will not utilize on such Contract any subcontractor that is identified on the prohibited entities list.

Additionally, Bidder/Contractor is advised that once the list is posted on the OGS website, any Contractor seeking to renew a Contract or assume the responsibility of a Contract awarded in response to the solicitation, certifies at the time the Contract is renewed or assigned that it or its assignee is not included on the prohibited entities list.

During the term of the Contract, should OGS receive information that a person is in violation of the above-referenced certification, OGS will offer the person an opportunity to respond. If the person fails to demonstrate that it has ceased its engagement in the investment which is in violation of the Act within 90 days after the determination of such violation, then OGS shall take such action as may be appropriate including, but not limited to, imposing sanctions, seeking compliance, recovering damages, or declaring the Contractor in default.

OGS reserves the right to reject any bid or request for assignment for an entity that appears on the prohibited entities list prior to the award of a contract, and to pursue a responsibility review with respect to any entity that is awarded a contract and appears on the prohibited entities list after contract award.

**CONTRACTOR REQUIREMENTS AND PROCEDURES FOR EQUAL EMPLOYMENT AND BUSINESS PARTICIPATION OPPORTUNITIES FOR MINORITY GROUP MEMBERS AND NEW YORK STATE CERTIFIED MINORITY/WOMEN-OWNED BUSINESSES**

In accordance with Article 15-A of the New York State Executive Law (Participation by Minority Group Members and Women with Respect to State Contracts) and in conformance with the Regulations promulgated by the Minority and Women's Business Development Division of the New York State Department of Economic Development set forth at 5 NYCRR Parts 140-144, the Offerer/Contractor agrees to be bound by the following to promote equality of economic opportunities for minority group members and women, and the facilitation of minority and women-owned business enterprise participation on all covered OGS contracts.

- a. **Equal Employment Opportunity Requirements**  
By submission of a bid or proposal in response to this solicitation, the Offerer agrees with all of the terms and conditions of Appendix A including Clause 12 - Equal Employment Opportunities for Minorities and Women. The contractor is required to ensure that the provisions of Appendix A clause 12 – Equal Employment Opportunities for minorities and women, are included in every subcontract in such a manner that the requirements of these provisions will be binding upon each subcontractor as to work in connection with the State contract.
- b. **Participation Opportunities for New York State Certified Minorities and Women-Owned Businesses**  
Authorized Users are encouraged to make every good faith effort to promote and assist the participation of New York State Certified Minority and Women-owned Business Enterprises (M/WBE) as subcontractors and suppliers on this contract for the provision of services and materials. To locate New York State Certified M/WBEs, the directory of Certified Businesses can be viewed at:  
[http://www.empire.state.ny.us/Small\\_and\\_Growing\\_Businesses/mwbe.asp](http://www.empire.state.ny.us/Small_and_Growing_Businesses/mwbe.asp)

**DELIVERY:**

**General** - Delivery shall be made as specified and in accordance with instructions furnished with each order, unless otherwise directed in writing. A weight slip is required with each delivery. Invoice must be sent promptly by the contractor to the Regional Office of the region to which the material is shipped, or to the Agency placing the order.

**General Specifications Modification** - Clause 45 of the General Specifications is modified as follows: Failure to furnish material within ten days after receiving and accepting order or as agreed upon with authorized representative or violation of shipping instructions, shall be cause for and entitle the State (1) to damages which in its judgment have resulted, or (2) to purchase in the open market at the expense of the contractor. At the discretion of the State, one or both of these courses of action may be followed.

**NON-STATE AGENCIES PARTICIPATION IN CENTRALIZED CONTRACTS:**

New York State political subdivisions and others authorized by New York State law may participate in contracts. These include, but are not limited to local governments, public authorities, public school and fire districts, public and nonprofit libraries, and certain other nonpublic/nonprofit organizations. See "Participation in Centralized Contracts" in Appendix B, OGS General Specifications. For purchase orders issued by the Port Authority of New York and New Jersey (or any other authorized entity that may have delivery locations adjacent to New York State), the terms of the "Price" clause shall be modified to include delivery to locations adjacent to New York State.

Upon request, all eligible non-State agencies must furnish contractors with the proper tax exemption certificates and documentation certifying eligibility to use State contracts. A list of categories of eligible entities is available on the OGS web site (<http://www.ogs.ny.gov/purchase/snt/othersuse.asp>). Questions regarding an organization's eligibility to purchase from New York State Contracts may also be directed to OGS Procurement Services Group's Customer Services at 518-474-6717.

**EXTENSION OF USE:**

Any contract resulting from this bid solicitation may be extended to additional States or governmental jurisdictions upon mutual written agreement between New York State (the lead contracting State) and the contractor. Political subdivisions and other authorized entities within each participating State or governmental jurisdiction may also participate in any resultant contract if such State normally allows participation by such entities. New York State reserves the right to negotiate additional discounts based on any increased volume generated by such extensions.

**"OGS OR LESS" GUIDELINES APPLY TO THIS CONTRACT:**

Purchases of the products included in the Contract Award Notification are subject to the "OGS or Less" provisions of Section 163.3.a.v., Article XI, of the New York State Finance Law. This means that State agencies can purchase products from sources other than the contractor provided that such products are substantially similar in form, function or utility to the products herein and are:

1. lower in price  
-and/or-
2. available under terms which are more economically efficient to the State agency (e.g. delivery terms, warranty terms, etc.).

Agencies are reminded that they must provide the State contractor an opportunity to match the non-contract savings at least two business days prior to purchase. In addition, purchases made under "OGS or Less" flexibility must meet all requirements of law including, but not limited to, advertising in the New York State Contract Reporter, prior approval of the Comptroller's Office and competitive bidding of requirements exceeding the discretionary bid limit. State agencies should refer to Procurement Council Guidelines section "OGS or Less Purchases" for complete procedural and reporting requirements. The Procurement Council Guidelines are available at <http://www.ogs.ny.gov/procurecounc/pdfdoc/guidelines.pdf>.

Non-contract vendors furnishing materials under "OGS or Less" shall meet the same qualifications as those required of contract vendors. In addition, non-contract vendors are subject to all other requirements and conditions appearing in this Invitation for Bids including Group Specification, Appendix A, Appendix B and any and all applicable Purchasing Memoranda.

Price shall include ALL required insurance coverage costs (see "CONTRACTOR INSURANCE" clauses).

**DIESEL EMISSION REDUCTION ACT OF 2006 (NEW REQUIREMENT OF LAW):**

On February 12, 2007 the Diesel Emissions Reduction Act took effect as law (the "Law"). Pursuant to new §19-0323 of the N.Y. Environmental Conservation Law ("NYECL") it is now a requirement that heavy duty diesel vehicles in excess of 8,500 pounds use the best available retrofit technology ("BART") and ultra low sulfur diesel fuel ("ULSD"). The requirement of the Law applies to all vehicles owned, operated by or on behalf of, or leased by State agencies and State or regional public authorities. They need to be operated exclusively on ULSD by February 12, 2007. It also requires that such vehicles owned, operated by or on behalf of, or leased by State agencies and State or regional public authorities with more than half of its governing body appointed by the Governor utilize BART.

As a contract vendor the Law may be applicable to vehicles used by contract vendors "on behalf of" State agencies and public authorities. Thirty-three percent (33%) of affected vehicles must have BART by December 31, 2008, sixty-six percent (66%) by December 31, 2009 and one-hundred percent (100%) by December 31, 2010. The Law provides a list of exempted vehicles. Regulations currently being drafted will provide further guidance as to the effects of the Law on contract vendors using heavy duty diesel vehicles on behalf of the State. The Law also permits waivers of ULSD and BART under limited circumstances at the discretion of the Commissioner of Environmental Conservation. The Law will also require reporting from State agencies and from contract vendors in affected contracts.

Therefore, the bidder hereby certifies and warrants that all heavy duty vehicles, as defined in NYECL §19-0323, to be used under this contract, will comply with the specifications and provisions of NYECL §19-0323, and any regulations promulgated pursuant thereto, which requires the use of BART and ULSD, unless specifically waived by NYSDEC. Qualification and application for a waiver under this Law will be the responsibility of the bidder.

**CONTRACT PERIOD AND RENEWALS:**

It is the intention of the State to enter into a contract for a term of two years as stated on the Invitation for Bids except that the commencement and termination dates appearing on the Invitation for Bids may be adjusted forward unilaterally by the State for any resulting contract for up to two calendar months, by indicating such change on the Contract Award Notification.

The contract dates may be adjusted forward beyond two months only with the approval of the successful bidder. If, however, the bidder is not willing to accept an adjustment of the contract dates beyond the two month period, the State reserves the right to proceed with an award to another bidder.

If mutually agreed between the Procurement Services Group and the contractor, the contract may be renewed under the same terms and conditions for additional period(s) not to exceed a total contract term of five (5) years.

**SHORT TERM EXTENSION:**

In the event the replacement contract has not been issued, any contract let and awarded hereunder by the State, may be extended unilaterally by the State for an additional period of up to one month upon notice to the contractor with the same terms and conditions as the original contract including, but not limited to, quantities (prorated for such one month extension), prices, and delivery requirements. With the concurrence of the contractor, the extension may be for a period of up to three months in lieu of one month. However, this extension terminates should the replacement contract be issued in the interim.

**CANCELLATION FOR CONVENIENCE**

The State of New York retains the right to cancel this contract, in whole or in part without reason provided that the Contractor is given at least sixty (60) days notice of its intent to cancel. This provision should not be understood as waiving the State's right to terminate the contract for cause or stop work immediately for unsatisfactory work, but is supplementary to that provision. Any such cancellation shall have no effect on existing Agency agreements, which are subject to the same 60 day discretionary cancellation or cancellation for cause by the respective user Agencies.

**CONTRACT MIGRATION:**

State Agencies or any other authorized user holding individual contracts with contractors under this centralized contract shall be able to migrate to this contract award with the same contractor, effective on the contract begin date (retroactively, if applicable). Migration by an agency or any other authorized user to the centralized contract shall not operate to diminish, alter or extinguish any right that the agency or other authorized user otherwise had under the terms and conditions of their original contract.

**REPORT OF CONTRACT PURCHASES:**

Contractor shall furnish quarterly reports containing total sales for both state agency and authorized non-state agency contract purchases no later than forty-five (45) days after the close of each calendar quarter.

A separate report shall be provided in the following format for each authorized distribution channel. The sales report form is forwarded to each contractor at time of award for completion in accordance with the contract terms and conditions:

Item/ Number	Purchasing Agency	Location	Total Sales \$
			\$
Grand Total Sales:			\$

The report is to be submitted electronically in Microsoft Excel 2007 or lower format to the Office of General Services, Procurement Services Group, Tower Bldg., Empire State Plaza, Albany, NY 12242, to the attention of the individual shown on the front page of the Contract Award Notification and shall reference the Group Number, the Award Number, Contract Number, sales period, and contractor's (or other authorized agent) name.

The outlined sales report is the minimum information required. Additional related sales information, such as monthly reports, and/or detailed user purchases may be required and must be supplied upon request.

**CONTRACTOR INSURANCE:**

Prior to the commencement of work, the Contractor shall file with Authorized User Agency written proof of insurance coverage and additional insured documentation as specified herein. "Written proof" consists of certificates of insurance and/or endorsements to policies issued by an officer of an insurance company licensed or authorized to do business in New York, government self-retention funds or other self-insurance companies evidencing that the Contractor has the requisite insurance coverages. All non-standard exclusions or limitations applicable to the contract must be disclosed on the Certificate of Insurance and must be approved by The New York State Office of General Services ("OGS"). Policies providing commercial general liability, excess or umbrella liability and pollution legal liability insurance shall be specifically endorsed to name the People of the State of New York, its officers, agents, and employees as additional insured thereunder. Such written proof shall be in the form and substance acceptable to The New York State Office of General Services ("OGS"). Acceptance and/or approval by The New York State Office of General Services ("OGS") of the written proof of insurance does not and shall not be construed to relieve Contractor of any obligations, responsibilities or liabilities under the Contract to obtain the required coverage.

Contractor shall secure and continue to keep in force during the term of the contract, and Contractor shall require all Subcontractors prior to commencement of an agreement between Contractor and the Subcontractor, to secure and keep in force during the term of this contract the following insurance coverage in parenthesis:

- a) Commercial General Liability Insurance with minimum liability limits of **not less than \$5,000,000.00 each occurrence** after notice of award. Such liability shall be written on the ISO occurrence form CG 00 01© (current edition) or a substitute form providing equivalent coverages and shall cover liability arising from premises or operations, independent contractors, broad form property damage, personal & advertising injury, cross liability coverage, contractual damages, and products or completed operations, if applicable (including the tort liability of another assumed in a contract), and explosion, collapse & underground coverage. If such insurance contains an aggregate limit, it shall apply separately on a per job basis. General Liability Additional Insured Endorsement shall be on Insurance Service Office's (ISO) form number **CG 2010 1185**.
- b) Comprehensive Business Automobile Liability Insurance with minimum liability limits of **not less than \$2,000,000.00** each accident both at the time of bid and after notice of award. Such insurance shall cover liability arising out of any automobile including Owned (if any), Hired and Non-Owned automobiles.
- c) Workers' Compensation, Employer's Liability, and Disability Benefits meeting all New York State statutory requirements. The policy shall provide coverage for all states of operation that apply to the performance of the contract. In addition, if employees will be working on, near or over navigable waters, coverage provided under the US Longshore and Harbor Workers Compensation Act must be included. Also, if the contract is for temporary staffing services or involves renting equipment with operators, the Alternate Employer Endorsement WC 00 03 01A must be included on the policy naming the People of the State of New York as the alternate employer.

All insurance coverage must meet the following additional requirements:

- 1) All insurance required shall be obtained at the sole cost and expense of the Contractor, and shall be primary and non-contributing to any insurance, self-retention or self-insurance maintained by the Authorized User.
- 2) Any deductible or self-insured retention amount or other similar obligation under the policies shall be the sole responsibility of the Contractor. The amount of any deductible or self-insured retention is subject to approval by the The New York State Office of General Services ("OGS").
- 3) The requisite insurance may be provided through a policy or policies of insurance which may be primary and/or excess including umbrella policies, but must be placed with an Insurer rated "A-" Class "VII" or better by the A.M. Best Company, Inc. If, during the term of the policy, an Insurer's rating falls below "A-" Class "VII", the insurance must be replaced no later than the renewal date of the policy with an Insurer rated at least "A-" Class "VII" by the A.M. Best Company, Inc. Any excess policy must follow the requirements set forth in the New York State Insurance Law for such coverage.

CONTRACTOR INSURANCE: (Cont'd)

- 4) Contractors shall provide The New York State Office of General Services (“OGS”) with updated Certificates of Insurance and as applicable amendatory endorsements at least thirty (30) days prior to the expiration or renewal date of a policy.
- 5) The insurance provided shall include an endorsement indicating that the policy and any endorsements may not be cancelled without thirty (30) days prior written notice to The New York State Office of General Services (“OGS”). In the event that the cancellation is due to non-payment of premium, ten (10) days prior written notice shall be provided.
- 6) The insurance provided shall include a blanket or specific “Waiver of Subrogation” endorsement waiving any right to recovery the insurance company may have against the State.
- 7) In the block provided in the Certificate of Insurance for insertion of “Description of Operations/Locations/Vehicles/Exclusions Added by Endorsement/Special Provisions” the additional insured information and job-specific information such as the nature of the contract and either the solicitation number or the contract award number should be referenced.
- 8) Additional insured endorsements should specify the following:
  - The full legal name of the additional insured; i.e., the State of New York, its agencies, officers and employees;
  - The specific location or operations for which the coverage applies;
  - Coverage will run until the completion of the last project on this contract;
  - That notice of modification or cancellation will be provided to the additional insured at a specified name and address;
  - That the insurance company waives any right of recovery it may have against the State;
  - That the coverage required shall be primary for the State and shall not be affected by any self-insurance or other insurance or coverage obtained by the State on its own behalf;
  - That cross-liability/severability of interest coverage is provided; and
  - That the legal defense provided to the State under the policy must be free of any conflicts of interest even if retention of separate legal counsel for the State is necessary.
- 9) The insolvency or bankruptcy of the insured Contractor or Subcontractor shall not release the Insurer from payment under the policy even when such insolvency or bankruptcy prevents the insured Contractor or Subcontractor from meeting the retention limits under the policy.

Failure to provide insurance coverage as required herein and to keep the same in force during the term of the contract is a material breach of contract entitling the State to terminate the contract in accordance with the termination provisions in the contract.

**ADDITIONAL OCP INSURANCE** - Contractor understands and has agreed by submitting a bid that any Authorized User, in particular the New York State Department of Transportation (NYSDOT) may also require Owners and Contractors Protective Insurance Coverage (OCP) in addition to the above-referenced insurance. **The OCP insurance required shall be \$1,000,000 per occurrence and \$2,000,000 in the aggregate.**

The request for OCP shall be indicated by the Authorized User on the Quick Quote form. All Quick Quotes submitted must state the cost for such coverage which will be included as part of the Total Cost per Project and evaluated accordingly by the Authorized User.

In addition, as stated above, Workers’ Compensation, Employer’s Liability, and Disability Benefits coverages meeting all New York State statutory requirements are required.

**WORKERS' COMPENSATION INSURANCE AND DISABILITY BENEFITS REQUIREMENTS:**

Workers' Compensation Law (WCL) §57 & §220 requires the heads of all municipal and state entities to ensure that businesses applying for permits, licenses or contracts document it has appropriate workers' compensation and disability benefits insurance coverage. These requirements apply to both original contracts and renewals, whether the governmental agency is having the work done or is simply issuing the permit, license or contract. Failure to provide proof of such coverage or a legal exemption will result in a rejection of your bid or renewal.

**1. Proof of Compliance with Workers' Compensation Coverage Requirements:**

An ACORD form is NOT acceptable proof of workers' compensation coverage. In order to provide proof of compliance with the requirements of the Workers' Compensation Law pertaining to workers' compensation coverage, a contractor shall:

- A) Be legally exempt from obtaining Workers' Compensation insurance coverage; or
- B) Obtain such coverage from an insurance carrier; or
- C) Be a Workers' Compensation Board-approved self-insured employer or participate in an authorized self-insurance plan.

A Contractor seeking to enter into a contract with the State of New York shall provide one of the following forms to the Office of General Services at the time of bid submission or shortly after the opening of bids:

- A) Form CE-200, Certificate of Attestation for New York Entities With No Employees and Certain Out of State Entities, That New York State Workers' Compensation and/or Disability Benefits Insurance Coverage is Not Required, which is available on the Workers' Compensation Board's website ([www.wcb.state.ny.us](http://www.wcb.state.ny.us)); (Reference applicable IFB/RFP and Group #s on the form.)
- B) Certificate of Workers' Compensation Insurance:
  - 1) Form C-105.2 (9/07) if coverage is provided by the contractor's insurance carrier, contractor must request its carrier to send this form to the New York State Office of General Services, or
  - 2) Form U-26.3 if coverage is provided by the State Insurance Fund, contractor must request that the State Insurance Fund send this form to the New York State Office of General Services.
- C) Form SI-12, Certificate of Workers' Compensation Self-Insurance available from the New York State Workers' Compensation Board's Self-Insurance Office.
- D) Form GSI-105.2, Certificate of Participation in Workers' Compensation Group Self-Insurance available from the contractor's Group Self-Insurance Administrator.

**2. Proof of Compliance with Disability Benefits Coverage Requirements:**

In order to provide proof of compliance with the requirements of the Workers' Compensation Law pertaining to disability benefits, a contractor shall:

- A) Be legally exempt from obtaining disability benefits coverage; or
- B) Obtain such coverage from an insurance carrier; or
- C) Be a Board-approved self-insured employer.

A Contractor seeking to enter into a contract with the State of New York shall provide one of the following forms to the Office of General Services at the time of bid submission or shortly after the opening of bids:

- A) Form CE-200, Certificate of Attestation for New York Entities With No Employees and Certain Out of State Entities, That New York State Workers' Compensation and/or Disability Benefits Insurance Coverage is Not Required, which is available on the Workers' Compensation Board's website ([www.wcb.state.ny.us](http://www.wcb.state.ny.us)); (Reference applicable IFB/RFP and Group #s on the form.)
- B) Form DB-120.1, Certificate of Disability Benefits Insurance. Contractor must request its business insurance carrier to send this form to the New York State Office of General Services; or
- C) Form DB-155, Certificate of Disability Benefits Self-Insurance. The Contractor must call the Board's Self-Insurance Office at 518-402-0247 to obtain this form.

**ALL OF THE ABOVE REFERENCED FORMS, EXCEPT CE-200, SI-12 & DB-155 MUST NAME:** The Office of General Services, Procurement Services Group, Team 6, 38th floor, Corning Tower, Albany NY 12242 as the Entity Requesting Proof of Coverage (Entity being listed as the Certificate Holder)

**PREVAILING WAGE RATES - PUBLIC WORKS AND BUILDING SERVICES CONTRACTS:**

Work being bid is subject to the prevailing wage rate provisions of New York State Labor Law. See "Prevailing Wage Rates - Public Works and Building Services Contracts" in Appendix B, OGS General Specifications. Any federal or State determination of a violation of any public works law or regulation, or labor law or regulation, or any OSHA violation deemed "serious or willful" may be grounds for a determination of vendor non-responsibility and rejection of bid.

The applicable Prevailing Wage Rate Schedule for this project is **PRC # 2011001126**

For access to the Department of Labor (DOL) Prevailing Wage Schedule, use the following link:

<http://wpp.labor.state.ny.us/wpp/showFindProject.do?method=showIt>

For Prevailing Wage Updates, use the following DOL link:

<http://wpp.labor.state.ny.us/wpp/publicViewPWChanges.do?method=showIt>

Links to schedule updates appear in the table at the bottom of the web page.

**EMERGENCY PURCHASING:**

In the event that a disaster emergency is declared by Executive Order under Section 28 of Article 2-B of the Executive Law, or that the Commissioner determines pursuant to his/her authority under Section 163(10)(b) of the State Finance Law that an emergency exists requiring the prompt and immediate delivery of products or services, the Commissioner reserves the right to obtain such products or services from any source, including but not limited to this contract, as the Commissioner in his/her sole discretion determines will meet the needs of such emergency. Contractor shall not be entitled to any claim or lost profits for products or services procured from other sources pursuant to this paragraph.

**USE OF RECYCLED OR REMANUFACTURED MATERIALS:**

New York State, as a member of the Council of Great Lakes Governors, supports and encourages vendors to use recycled, remanufactured or recovered materials in the manufacture of products and packaging to the maximum extent practicable without jeopardizing the performance or intended end use of the product or packaging unless such use is precluded due to health or safety requirements or product specifications contained herein. Refurbished or remanufactured components or products are required to be restored to original performance and regulatory standards and functions and are required to meet all other requirements of this bid solicitation. Warranties on refurbished or remanufactured components or products must be identical to the manufacturer's new equipment warranty or industry's normal warranty when remanufacturer does not offer new equipment. See "Remanufactured, Recycled, Recyclable or Recovered Materials" in Appendix B, OGS General Specifications.

DETAILED SPECIFICATIONS

**REFERENCES:**

References are made herein to the New York State Department of Transportation Standard Specifications, Construction and Materials, dated May 1, 2008 and all current addenda. A copy may be obtained through the Department's Publication Unit at 518/457-4401 for information or on their website: <https://www.nysdot.gov/portal/page/portal/main/business-center/engineering/specifications/updated-standard-specifications>.

For information regarding how to become an approved source or to make arrangements for inspection of materials when required, contact the Materials Bureau at 518/457-4582.

**ITEMS:**

Item 203.06, Select Fill

Item 203.07, Select Granular Fill

Item 203.20, Select Granular Subgrade

Material furnished for the above items shall meet the material requirements in Sub-Sections 203-2.01 and 203-2.02, B, C, and E.

Item 304.11, Subbase Course, Type 1

Item 304.12, Subbase Course, Type 2

Item 304.13, Subbase Course, Type 3

Item 304.14, Subbase Course, Type 4

Item 304.14A, Subbase Course, Type 4A

Material furnished for the above items shall meet the material requirements in Sub-Sections 304-2.01 and 304-2.02 except that the requirement for stockpiling shall be waived. The gradation shall be as specified under 304-2.20 A Gradation, except that the gradation for Item 304.14A shall be equal to the gradation for Item 304.14 with the additional requirement that 100% shall pass the 1 inch sieve.

Item 17304.1011, Type 1011 Course Material A (Crushed Concrete) Recycled

Material furnished under the above item shall meet the material requirements in the included specification except that the requirement for stockpiling and testing shall be waived.

Item 605.0901, Underdrain Filter, Type I

Item 605.1001, Underdrain Filter, Type II

Item 605.1101, Underdrain Filter, Type III

Material furnished under the above items shall meet the material requirements and gradation in Sub-Section 605-2.02 except that the requirement for stockpiling shall be waived.

Item 620.02, Fine Stone Fill

Item 620.03, Light Stone Fill

Item 620.04, Medium Stone Fill

Item 620.05, Heavy Stone Fill

Material furnished under the above items shall meet the material requirements in Sub-Sections 620-2.01 and 620-2.02 except that the requirement for stockpiling shall be waived.

Item 620.06, Rip Rap Stone

Material furnished under the above item shall meet the material requirements in Sub-Section 620-2.03 except that requirements for stockpiling shall be waived.

Item 620.08, Bedding Material

Material furnished under the above item shall meet the material requirements in Sub-Section 620-2.05.

DETAILED SPECIFICATIONS (Cont'd):

ITEMS (Cont'd)

Item 703-0201X, Crushed Stone

Item 703-0202X, Crushed Gravel

Item 703-0203X, Screened Gravel

Materials furnished under above items shall meet the material requirements in Sub-Section 703-02. Gradation shall be as specified in Sub-Section 703-02. Size as indicated.

Item 703-03, Mortar Sand

Materials furnished under above item shall meet the requirements in Sub-Section 703-03.

Item 703-04, Grout Sand

Materials furnished under above item shall meet the material requirements in Sub-Section 703-04.

Item 703-06, Cushion Sand

Materials furnished under above item shall meet the material requirements in Sub-Section 703-06.

Item 703-07, Concrete Sand

Materials furnished under above item shall meet the requirements in Sub-Section 703-07.

Item 712-15A, Gabion Stone, basket height equal to 12 inches

Item 712-15B, Gabion Stone, basket height greater than 12 inches

Materials furnished under above items shall meet the materials requirements for gabion stone in Sub-Section 712-15. Size as indicated.

Item A1 - A5, Crusher Run

<u>Item</u>	<u>Maximum top size</u>	<u>Additional requirements</u>
A1	1 inch	No more than 50% passing ¼ inch sieve
A2	#1	Mixture of stone dust and #1
A3	1 inch	None
A4	1.5 inches	None
A5	2 inches	None

Materials furnished under above items shall consist of a well-graded sound, durable, crusher run type material. Maximum top size as indicated.

- DETAILED SPECIFICATIONS for Abrasives A & B start on page 135 -

DETAILED SPECIFICATIONS (Cont'd):

**Item 17304.1011, Subbase Course, Type 1011**

**GENERAL:**

All material acceptable for this item shall be stockpiled and shall be sound, hard, durable, and well graded from coarse to fine. Unless otherwise stated in this specification, material tests and quality control methods pertaining to the work of this section will be performed in conformance with the procedures contained in the appropriate Departmental publications in effect on the advertising date of the project. These publications are available upon request to the Regional Director or the Director, Soil Mechanics Bureau.

**OPTIONS:**

**MATERIAL A:**

Material furnished for Material A shall be well graded from coarse to fine and free from organic or other deleterious materials. At least 95 percent of the material, by weight, shall consist of:

1. Recycled Portland Cement Concrete Aggregate (RPCCA).
2. Recycled Portland Cement Concrete Aggregate mixed with stone, sand, gravel or blast furnace slag.

The requirements stated under GENERAL shall apply with the following modifications:

- A. The stockpile shall be no larger than the contract quantity plus thirty (30) percent of that quantity. The stockpile shall be no smaller than 1000 cubic yards or the contract quantity, whichever is less.
- B. A minimum of four samples will be obtained, as directed by the Soils Engineering Laboratory Supervisory from the Soil Mechanics Bureau or representatives, in the presence of:
  1. The Engineer in charge, or representative, and;
  2. The Soils Engineering Laboratory Supervisor, or representative, and;
  3. The Regional Soils Engineer, or representative.
- C. The Soils Engineering Laboratory Supervisor may reject the stockpile, without sampling, based on an on-site inspection of the stockpile.
- D. Transfer of the stockpile material for use on other projects will not be allowed.
- E. The State reserves the right to modify existing Departmental testing methods to evaluate the RPCCA.

This material shall conform to the following gradation:

<u>Passing Sieve</u>	<u>Percent by Weight</u>
2 inch	100
½ inch	30-65
#40	5-40
#200	0-10

The Plasticity Index of the material passing the #40 mesh sieve shall not exceed 5.0.

The Magnesium Sulfate soundness loss after 4 cycles shall be 20 percent or less.

**MATERIAL B:**

All of the material shall be sound, hard, durable and consist solely of stone which is the product of crushing ledge rock.

This material shall conform to the following gradation:

<u>Passing Sieve</u>	<u>Percent by Weight</u>
½ inch	100
¼ inch	70-100
#10	40-75
#40	15-40
#200	5-15

The Plasticity Index of the material passing the 40 sieve shall not exceed 5.0.

DETAILED SPECIFICATIONS (Cont'd):

**ABRASIVES – GRADATION A–SPECIFICATION**

**SCOPE**

This specification covers the material requirements and basis of acceptance for abrasives used to treat snow and ice on pavements.

**MATERIAL REQUIREMENTS**

Material for use as Winter Abrasives shall be either:

- a) Natural Sand
- b) Manufactured Sand, including sand made from crushed stone, crushed gravel, ore tailings, crushed slag, lightweight aggregate, or other suitable material.

All abrasives shall consist of hard, strong, durable particles which are free from a coating or any injurious material and injurious amounts of clay, loam or other deleterious substances.

Abrasives meeting specification will be accepted unless the Director of the Office of Transportation Maintenance determines, from test results or service records that

- 1) Material contains sufficient unsound or undesirable material to be harmful.
- 2) Particles degrade due to weathering either in storage or in service, so as to be ineffective.

The method of accounting for delivery (in US Tons) involves collecting weight tickets from scales that have been certified by the appropriate Municipal jurisdiction and are signed by deliveries of less than 200 tons are ordered, all material must be delivered as a single (multiple trailer) bulk delivery. Deliveries shall consist of, not more than 1,000 tons per day. Deliveries will be accepted between the hour of 7:30 a.m. and 3:00 p.m. only, unless exceptions are specifically granted by the Resident Engineer or his/her designee.

If the Resident Engineer or his/her designee, as a result of visual inspection, suspects that abrasives being delivered may not be within the specification limits, he/she shall immediately notify the supplier of the nature of the suspected problem(s) both verbally and in writing. Upon receipt of notification the supplier shall cease making deliveries until the Department has had 3 working days (not counting the day of notification) to sample and test the suspect material. The supplier may request permission to continue deliveries after notification, and the Resident Engineer may approve the request at his/her discretion. However, any material delivered after notification must be stockpiled separate from earlier deliveries. Any action deemed necessary by the test results will be applicable to the Lot delivered the day of notification and to any subsequent Lots delivered during the 3-day testing and sampling period.

**CERTIFICATION & GRADATION ANALYSIS**

Bidders are required to submit a current gradation analysis (sample taken within 6 months of bidding) for each proposed source of supply on their bids. This requirement is waived if the proposed source meets the requirements of 703-01, Fine Aggregate, and appears on the current Approved List of Fine and Coarse Aggregates and which is published on the Department web site, [www.nysdot.gov](http://www.nysdot.gov). Attachment 1 of the proposal is to be used for recording the gradation test results or indicating the NYS DOT Approved Source Number. The gradation test, if required, may be performed by the producer, bidder or an independent testing laboratory. On Attachment 1, the bidder is further required to certify that the gradation analysis represents the material to be supplied and that sufficient acceptable material is available to meet the requirements of the item(s) bid. Bids shall be rejected if the certified gradation is not in conformance with the “Special Gradation” for the locations bid. If the certification sheet is not properly executed (completely filled out and signed), the bid shall be declared incomplete.

DETAILED SPECIFICATIONS (Cont'd):

**GRADATION (Particle Size/Shape)**

The gradation requirements for the various items in this contract award are listed below in the Gradation Reference Chart. **NOTE:** The Rejection Gradation Column will only be used at the time of delivery to determine the acceptability of the load.

Gradation acceptance at the final point of sampling (which depending upon the production operation could be the Producer’s Stockpile, the Production Operation or Pit, or the Delivery Location) shall be measured against the Rejection Gradation. Material which falls between the Specification Gradation and the Rejection Gradation will be paid at a reduced rate. The reduced price shall be based upon the average values of at least two samples representing a pit location, lot, stockpile, or process. Material which is found to fall outside the Rejection Gradation on one or more sieve sizes shall be rejected, and no payment will be due the contractor for such rejected material.

If, after delivery, the sand gradation is found to be out of tolerance, a deduction from the price shall be made based on the following:

$$\text{Reduced price/ton} = \text{delivered contract price} \times (1.00 - X)$$

X = decimal equivalent of the total % out of gradation less the tolerance. The % out of tolerance for each sieve shall be to the nearest 1%. The total of the individual sieve tolerance deviations shall be used as X.

**GRADATION ACCEPTANCE**

Gradation acceptance of abrasive material shall be based on the condition that the material meets the specification requirements. Acceptance shall be determined at the final point of sampling. Depending on the production operation and uniformity of delivered material, the final point of acceptance sampling could be the producer’s stockpile, production operation, pit or a lot of delivered material. Depending on the production operation, the Department may require that exclusive stockpiles be built, tested and approved prior to delivery. If the material deviates from the specification gradation requirements shown in the Gradation Reference Chart, an adjusted price may be paid for the material. The adjusted price shall be based on the average values of at least two samples representing a pit location, lot, stockpile or process.

**GRADATION REFERENCE CHART**

<b>Gradation Reference</b>	<b>Sieve Size</b>	<b>Specification Gradation</b>	<b>Rejection Gradation</b>
A	½”	100	100
A	3/8”	100	95 – 100
A	#4	80 – 100	70 – 100
A	#50	0 – 18	0 – 22
A	#200	0 – 3	0 – 5

**SAMPLING**

Sampling will be performed by Department personnel or their representatives and will depend on the operation of the contractor. Where stockpiles exist, the material will be sampled in the stockpiles prior to delivery. Where material is being processed shortly in advance or at the time of delivery, the process will be sampled. Where the material is unprocessed, specific working areas of the source will be sampled prior to delivery. All delivered materials are subject to random and/or specific sampling if a problem is suspected. Sampling methods, locations and point of final acceptance will be determined by the Department of Transportation.

**TESTING METHOD**

Gradation testing shall be performed on samples by sieving in conformance with NYSDOT Materials Bureau Test Methods 703-1P and 703-2P. Moisture content shall be determined by AASHTO Test Method T-255.

DETAILED SPECIFICATIONS (Cont'd):

**REJECTED MATERIALS**

When materials are rejected, they must be removed by the Contractor within ten (10) days of notification or rejection. Rejected items not removed by the Contractor within the said ten (10) days shall be regarded as abandoned by the Contractor. The Department then shall have the right to dispose of said abandoned material as its own property by virtue of the contractor's failure to facilitate timely removal. The Contractor shall promptly reimburse the Department for any and all costs incurred in effecting such disposal.

**WEIGHT/VOLUME CONVERSION**

Locations (delivery sites) where volumetric delivery is acceptable shall be specifically identified in the Bid Proposal. These are typically areas where certified scales and weigh masters are not available within a reasonable distance of the delivery site. In those cases, the weight/volume conversion ratio shall be determined by the Resident Engineer with assistance from the Regional Materials Group as necessary. There are two acceptable methods for establishing weight/volume conversion:

**Method 1**

Each delivery truck shall have its "level struck" (all material in the dump body being level with the top of the sides of the dump body); volume determined by the Resident Engineer. This will be the payment volume for each load delivered. A representative of the Resident Engineer shall record each load delivered and certify that the truck contained at least the payment (level struck) volume.

Equipment required for Method

- 1 – ¼ cu.ft. container (typically used for measuring the air content of plastic concrete).
- 1 – 20 oz. rubber mallet
- 1 – straight edge suitable for striking the abrasive level with the to of the container.
- 1 – smooth working surface.
- 1 – scale having a minimum 40 lb. capacity and accuracy of  $\pm 0.3$  lbs.
- 1 – flat shovel

**Method 1 Sampling of Abrasives**

A representative sample of about ½ cu. ft. of abrasives shall be obtained from a prepared stockpile according to procedures found in Appendix "A" of Materials Method 9.1 "Plant Inspection of Portland Cement Concrete" prior to delivery.

**Testing the Sample for Unit Weight**

1. The sample shall be air or oven dried until it is visibly dry.
2. Thoroughly mix the "room temperature" sample into a pile on the smooth surface with a flat shovel and "quarter" the pile.
3. Remove about 1/16 cu. ft. (about two quarts) of material from one of the quarters. Place it in the ¼ cu. ft. container and roughly level it off.
4. Strike the container firmly three items about midway on the side at one point. Repeat the striking procedure at three more points about 90 degrees apart on the container.
5. Repeat steps 3 & 4 three more times with material from each of the remaining three "quarters" of the same pile. Be sure that ¼ cu. ft. container is "overfull" after material from the fourth quarter of the sample pile is placed in it.
6. Screen the material level with the top of the container.
7. Weight the "level full" container on the scales and record the weight in pounds.
8. Subtract the weight in pounds of the empty ¼ cu.ft. container from the weight recorded from step #7 above. This is the weight, in pounds, of ¼ cu. ft. of the abrasive material. To obtain the weight, in tons, of 1 cu. yd. of the abrasive material, multiply the weight of the ¼ cu. ft. by 0.054.

DETAILED SPECIFICATIONS (Cont'd):

**WEIGHT/VOLUME CONVERSION** (Cont'd.)

**Method 2**

Each delivery truck shall have its “level struck” weight of abrasives determined by a weigh master on a certified weight scale. This is obtained by subtracting the empty weight of the truck from the certified loaded “level struck” weight. As in Method 1, each load delivered shall be recorded by a representative of the Resident Engineer and be certified that the truck contained at least the same volume of the “level struck” weight previously recorded.

**DELIVERY LOT**

A delivery lot shall be the total of one eight hour day’s delivery during normal Residency working hours.

**SUSPECTED PROBLEMS DURING DELIVERY**

If the Resident Engineer, or an authorized representative of same, as a result of visual inspection, suspects the abrasives being delivered are not within specification limits, they shall immediately notify the supplier of the nature of the suspected problems(s) verbally and in writing. At that point, all deliveries from that supplier will cease until the Department has had reasonable opportunity to sample and test the suspect material (3 working days, not including the date of written notification). If the supplier requests to continue delivering material after notification in writing, the Resident Engineer may approve that request in writing. However, the material delivered after notification must be kept separate from that which was delivered prior to notification. The action deemed necessary by the test results shall be applicable to the lot delivered the day of notification and any subsequent lots delivered during the three day testing and sampling period. This process shall be utilized at any time when deliver of out of specification material is suspected.

**ADJUSTED PRICE AND REJECTION RELATIVE TO GRADATION**

The contract price shall be adjusted for any delivered material outside the limits given under “Specification Gradation” and within the limit of the “Rejection Gradation”. Any material that has one or more sizes that fall outside the Rejection Gradation limits shall be rejected and no payment will be made for that material.

**Example of Price Adjustment of Out-of-Gradation Material**

<u>Sieve</u>	<u>Percent Passing</u>		
	<u>Example Specification Gradation</u>	<u>Example Rejection Gradation</u>	<u>Example Penalty Factor</u>
1/2”	100	100	
3/8”	100	95 to 100	1
#4	80 to 100	70 to 100	1
#50	0 to 18	0 to 22	2
#200	0 to 3	0 to 5	5

Reduced price per ton = contract price times (1.0-X)

The percent out of tolerance shall be to the nearest 1%. The sum of the individual sieve tolerance deviations (%) times the appropriate penalty factors divided by 100 shall be used as “X”.

EXAMPLE: Sand delivered was priced at \$5.00 per ton and is satisfactory in passing the 3/8” and #4 sieve but has 22% passing the #50 sieve and 4% passing the #200 sieve. The reduced price is computed as follows:

$$X = (30\% - 22\%) \times 2 + (4\% - 3\%) \times 5 = 21\% = 0.21$$

$$\text{Reduced price per ton} = \$5.00 \times (1.00 - 0.21) = \$3.95$$

DETAILED SPECIFICATIONS (Cont'd):

**ADJUSTED PRICE AND REJECTION RELATIVE TO MOISTURE CONTENT**

Excessive moisture content has a significant negative impact on mixing, stockpiling, and storage operations. Abrasives when delivered shall have a maximum moisture content not exceeding 7.0% as determined by AASHTO Test Method T-255 (Moisture Content of Fine and Coarse Aggregate). Abrasives delivered which are found to have moisture content in excess of 7%, but less than 10% may be rejected, or they will be accepted at a reduced unit price (see below). Abrasives found to have moisture content greater than 10% will be rejected.

Material with a moisture content from:

7.01% to 8.00% may be accepted and paid for at the unit price less 10%

8.01% to 9.00% may be accepted and paid for at the unit price less 20%

9.01 to 9.99% may be accepted and paid fore at the unit price less 30%

**ATTACHMENT 1**

Gradation Analysis by: \_\_\_\_\_ Date Analyzed: \_\_\_\_\_

Affiliation (Company or Testing Lab): \_\_\_\_\_

I certify that the above gradation analysis is an accurate representation of the abrasives to be supplied under this contract and that sufficient material is available to fulfill the contract requirements. I understand that if as contractor I fail to supply the amount of abrasives ordered, or the abrasives which I supply are outside the rejection gradation, the Department of Transportation may charge my firm the difference between my contract price and the actual cost to the Department of obtaining replacement abrasives.

DETAILED SPECIFICATIONS (Cont'd):

**ABRASIVES – GRADATION B – SPECIFICATION**

**SCOPE**

This specification covers the material requirements and basis of acceptance for abrasives used to treat snow and ice on pavements.

**MATERIAL REQUIREMENTS**

Material for use as Winter Abrasives shall be either:

- c) Natural Sand
- d) Manufactured Sand, including sand made from crushed stone, crushed gravel, ore tailings, crushed slag, lightweight aggregate, or other suitable material.

All abrasives shall consist of hard, strong, durable particles which are free from a coating or any injurious material and injurious amounts of clay, loam or other deleterious substances.

Abrasives meeting specification will be accepted unless the Director of the Office of Transportation Maintenance determines, from test results or service records that

- 3) Material contains sufficient unsound or undesirable material to be harmful.
- 4) Particles degrade due to weathering either in storage or in service, so as to be ineffective.

The method of accounting for delivery (in US Tons) involves collecting weight tickets from scales that have been certified by the appropriate Municipal jurisdiction and are signed by deliveries of less than 200 tons are ordered, all material must be delivered as a single (multiple trailer) bulk delivery. Deliveries shall consist of, not more than 1,000 tons per day. Deliveries will be accepted between the hour of 7:30 a.m. and 3:00 p.m. only, unless exceptions are specifically granted by the Resident Engineer or his/her designee.

If the Resident Engineer or his/her designee, as a result of visual inspection, suspects that abrasives being delivered may not be within the specification limits, he/she shall immediately notify the supplier of the nature of the suspected problem(s) both verbally and in writing. Upon receipt of notification the supplier shall cease making deliveries until the Department has had 3 working days (not counting the day of notification) to sample and test the suspect material. The supplier may request permission to continue deliveries after notification, and the Resident Engineer may approve the request at his/her discretion. However, any material delivered after notification must be stockpiled separate from earlier deliveries. Any action deemed necessary by the test results will be applicable to the Lot delivered the day of notification and to any subsequent Lots delivered during the 3-day testing and sampling period.

**CERTIFICATION & GRADATION ANALYSIS**

Bidders are required to submit a current gradation analysis (sample taken within 6 months of bidding) for each proposed source of supply on their bids. This requirement is waived if the proposed source meets the requirements of 703-01, Fine Aggregate, and appears on the current Approved List of Fine and Coarse Aggregates and which is published on the Department web site, [www.nysdot.gov](http://www.nysdot.gov). Attachment 1 of the proposal is to be used for recording the gradation test results or indicating the NYS DOT Approved Source Number. The gradation test, if required, may be performed by the producer, bidder or an independent testing laboratory. On Attachment 1, the bidder is further required to certify that the gradation analysis represents the material to be supplied and that sufficient acceptable material is available to meet the requirements of the item(s) bid. Bids shall be rejected if the certified gradation is not in conformance with the "Special Gradation" for the locations bid. If the certification sheet is not properly executed (completely filled out and signed), the bid shall be declared incomplete.

DETAILED SPECIFICATIONS (Cont'd):

**GRADATION (Particle Size/Shape)**

The gradation requirements for the various items in this proposal are listed in the Gradation Reference Chart in this specification. **NOTE:** The Specification Gradation Column is to be used for bidding purposes. The Rejection Gradation Column will only be used at the time of delivery to determine the acceptability of the load.

Gradation acceptance at the final point of sampling (which depending upon the production operation could be the Producer’s Stockpile, the Production Operation or Pit, or the Delivery Location) shall be measured against the Rejection Gradation. Material which falls between the Specification Gradation and the Rejection Gradation will be paid at a reduced rate. The reduced price shall be based upon the average values of at least two samples representing a pit location, lot, stockpile, or process. Material which is found to fall outside the Rejection Gradation on one or more sieve sizes shall be rejected, and no payment will be due the contractor for such rejected material.

If, after delivery, the sand gradation is found to be out of tolerance, a deduction from the price shall be made based on the following formula:

$$\text{Reduced price/ton} = \text{delivered contract price} \times (1.00 - X)$$

X = decimal equivalent of the total % out of gradation less the tolerance. The % out of tolerance for each sieve shall be to the nearest 1%. The total of the individual sieve tolerance deviations shall be used as X.

**GRADATION ACCEPTANCE**

Gradation acceptance of abrasive material shall be based on the condition that the material meets the specification requirements. Acceptance shall be determined at the final point of sampling. Depending on the production operation and uniformity of delivered material, the final point of acceptance sampling could be the producer’s stockpile, production operation, pit or a lot of delivered material. Depending on the production operation, the Department may require that exclusive stockpiles be built, tested and approved prior to delivery. If the material deviates from the specification gradation requirements shown in the Gradation Reference Chart, an adjusted price may be paid for the material. The adjusted price shall be based on the average values of at least two samples representing a pit location, lot, stockpile or process.

**GRADATION REFERENCE CHART**

<b>Gradation Reference</b>	<b>Sieve Size</b>	<b>Specification Gradation</b>	<b>Rejection Gradation</b>
B	½”	100	100
B	3/8”	100	95 – 100
B	#4	80 – 100	70 – 100
B	#50	0 – 25	0 – 30
B	#200	0 – 5	0 – 8

**SAMPLING**

Sampling will be performed by Department personnel or their representatives and will depend on the operation of the successful low bidder. Where stockpiles exist, the material will be sampled in the stockpiles prior to delivery. Where material is being processed shortly in advance or at the time of delivery, the process will be sampled. Where the material is unprocessed, specific working areas of the source will be sampled prior to delivery. All delivered materials are subject to random and/or specific sampling if a problem is suspected. Sampling methods, locations and point of final acceptance will be determined by the Department of Transportation.

DETAILED SPECIFICATIONS (Cont'd):

**TESTING METHOD**

Gradation testing shall be performed on samples by sieving in conformance with NYSDOT Materials Bureau Test Methods 703-1P and 703-2P. Moisture content shall be determined by AASHTO Test Method T-255.

**REJECTED MATERIALS**

When materials are rejected, they must be removed by the Contractor within ten (10) days of notification or rejection. Rejected items not removed by the Contractor within the said ten (10) days shall be regarded as abandoned by the Contractor. The Department then shall have the right to dispose of said abandoned material as its own property by virtue of the contractor's failure to facilitate timely removal. The Contractor shall promptly reimburse the Department for any and all costs incurred in effecting such disposal.

**WEIGHT/VOLUME CONVERSION**

Locations (delivery sites) where volumetric delivery is acceptable shall be specifically identified in the Bid Proposal. These are typically areas where certified scales and weigh masters are not available within a reasonable distance of the delivery site. In those cases, the weight/volume conversion ratio shall be determined by the Resident Engineer with assistance from the Regional Materials Group as necessary. There are two acceptable methods for establishing weight/volume conversion:

**Method 1**

Each delivery truck shall have its "level struck" (all material in the dump body being level with the top of the sides of the dump body); volume determined by the Resident Engineer. This will be the payment volume for each load delivered. A representative of the Resident Engineer shall record each load delivered and certify that the truck contained at least the payment (level struck) volume.

Equipment required for Method

- 1 – ¼ cu. ft. container (typically used for measuring the air content of plastic concrete).
- 1 – 20 oz. rubber mallet
- 1 – straight edge suitable for striking the abrasive level with the top of the container.
- 1 – smooth working surface.
- 1 – scale having a minimum 40 lb. capacity and accuracy of  $\pm 0.3$  lbs.
- 1 – flat shovel

**Method 1 Sampling of Abrasives**

A representative sample of about ½ cu. ft. of abrasives shall be obtained from a prepared stockpile according to procedures found in Appendix "A" of Materials Method 9.1 "Plant Inspection of Portland Cement Concrete" prior to delivery.

**Testing the Sample for Unit Weight**

9. The sample shall be air or oven dried until it is visibly dry.
10. Thoroughly mix the "room temperature" sample into a pile on the smooth surface with a flat shovel and "quarter" the pile.
11. Remove about 1/16 cu. ft. (about two quarts) of material from one of the quarters. Place it in the ¼ cu.ft. container and roughly level it off.
12. Strike the container firmly with the mallet three times about midway on the side at one point. Repeat the striking procedure at three more points about 90 degrees apart on the container.
13. Repeat steps 3 & 4 three more times with material from each of the remaining three "quarters" of the same pile. Be sure that the ¼ cu. ft. container is "overfull" after material from the fourth quarter of the sample pile is placed in it.
14. Screen the material level with the top of the container.
15. Weight the "level full" container on the scales and record the weight in pounds.
16. Subtract the weight in pounds of the empty ¼ cu. ft. container from the weight recorded from step #7 above. This is the weight, in pounds, of ¼ cu. ft. of the abrasive material. To obtain the weight, in tons, of 1 cu. yd. of the abrasive material, multiply the weight of the ¼ cu. ft. by 0.054.

DETAILED SPECIFICATIONS (Cont'd):

**WEIGHT/VOLUME CONVERSION** (Cont'd.)

**Method 2**

Each delivery truck shall have its “level struck” weight of abrasives determined by a weigh master on a certified weight scale. This is obtained by subtracting the empty weight of the truck from the certified loaded “level struck” weight. As in Method 1, each load delivered shall be recorded by a representative of the Resident Engineer and be certified that the truck contained at least the same volume of the “level struck” weight previously recorded.

**DELIVERY LOT**

A delivery lot shall be the total of one eight hour day’s delivery during normal Residency working hours.

**SUSPECTED PROBLEMS DURING DELIVERY**

If the Resident Engineer, or an authorized representative of same, as a result of visual inspection, suspects the abrasives being delivered are not within specification limits, they shall immediately notify the supplier of the nature of the suspected problems(s) verbally and in writing. At that point, all deliveries from that supplier will cease until the Department has had reasonable opportunity to sample and test the suspect material (3 working days, not including the date of written notification). If the supplier requests to continue delivering material after notification in writing, the Resident Engineer may approve that request in writing. However, the material delivered after notification must be kept separate from that which was delivered prior to notification. The action deemed necessary by the test results shall be applicable to the lot delivered the day of notification and any subsequent lots delivered during the three day testing and sampling period. This process shall be utilized at any time when delivery of out of specification material is suspected.

**ADJUSTED BID PRICE AND REJECTION RELATIVE TO GRADATION**

The bid price shall be adjusted for any delivered material outside the limits given under “Specification Gradation” and within the limit of the “Rejection Gradation”. Any material that has one or more sizes that fall outside the Rejection Gradation limits shall be rejected and no payment will be made for that material.

**Example of Bid Price Adjustment of Out-of-Gradation Material**

**Percent Passing**

<u>Sieve</u>	<u>Example Specification Gradation</u>	<u>Example Rejection Gradation</u>	<u>Example Penalty Factor</u>
1/2”	100	100	-
3/8”	100	95 to 100	1
#4	80 to 100	70 to 100	1
#50	0 to 25	0 to 30	2
#200	0 to 5	0 to 8	5

Reduced price per ton = contract price times (1.0-X)

The percent out of tolerance shall be to the nearest 1%. The sum of the individual sieve tolerance deviations (%) times the appropriate penalty factors divided by 100 shall be used as “X”.

Example: Sand delivered was bid at \$5.00 per ton and is satisfactory in passing the 3/8” and #4 sieves but has 30% passing the #50 sieve and 6% passing the #200 sieve. The reduced price is computed as follows:

$$X = (30\% - 25\%) \times 2 + (6\% - 5\%) \times 5 = 15\% = 0.15$$

$$\text{Reduced price per ton} = \$5.00 \times (1.00 - .15) = \$4.25$$

DETAILED SPECIFICATIONS (Cont'd):

**ADJUSTED BID PRICE AND REJECTION RELATIVE TO MOISTURE CONTENT**

Excessive moisture content has a significant negative impact on mixing, stockpiling, and storage operations. Abrasives when delivered shall have a maximum moisture content not exceeding 7.0% as determined by AASHTO Test Method T-255 (Moisture Content of Fine and Coarse Aggregate). Abrasives delivered which are found to have moisture content in excess of 7%, but less than 10% may be rejected, or they will be accepted at a reduced unit price (see below). Abrasives found to have moisture content greater than 10% will be rejected.

Material with a moisture content from:

7.01% to 8.00% may be accepted and paid for at the unit price less 10%

8.01% to 9.00% may be accepted and paid for at the unit price less 20%

9.01 to 9.99% may be accepted and paid fore at the unit price less 30%
