CONTRACTOR: ALL

The New York State Office of General Services and the Department of Environmental Conservation (DEC) are organizing an aggregate purchase of plug-in hybrid electric vehicles (PHEVs) to help lower purchase costs and support reductions in emissions. It is anticipated that the purchase will be for Chevrolet Volts, which have an all-electric range of 53 miles before the gasoline engine kicks in, giving it the flexibility of operating like a traditional gasoline vehicle. The Chevrolet Volt can be charged by any 120 or 240 volt charging station, which will not be included in the aggregate purchase and must be obtained separately.

The vehicle price will be determined by a mini-bid conducted through the existing New York State Vehicle Marketplace, and all authorized users may participate. Orders are due by May 31st, 2016 and delivery of the vehicles is expected in fall of 2016. If your organization is interested in participating in this opportunity, please contact either Pamela Hadad-Hurst (pamela.hadadhurst@dec.ny.gov or 518-402-2798) or Brendan Woodruff (brendan.woodruff@dec.ny.gov or 518-402-9159) to find out more.
