

1983 Lorequim 34' Lobster Boat

You are bidding on a 34-foot custom built Lorequim lobster boat.

The boat you are bidding on has an inoperable Detroit Diesel 671 engine. It has not been run in two years and the fuel tanks have since been drained after leaks in the tanks were discovered. The cabin top, aft deck around the fuel fills and the wood keel are soft. The boat does have a newer propeller, steering and exhaust system. There is no trailer, no cradle, no electronics and no accessories that go along with the boat.

The boat has a transferable New York State registration.

The boat is located at SUNY Maritime College, 6 Pennyfield Avenue, Bronx, NY 10465.
