New York State
Vendor Responsibility Questionnaire

D&C consulting firms may now enter, certify (and recertify) their vendor responsibility questionnaires on-line through the NYS VendRep System operated by the NYS Office of the State Comptroller (OSC).

- Consulting firms (and some subconsultants) providing architectural, engineering, surveying, construction management, testing and related professional services are required to use the For-Profit (Non-Construction) questionnaire. The VendRep System will present this questionnaire to the business entity who, when completing Basic Vendor Data information, indicates it is for-profit and does not bid on construction contracts.

For information about enrollment in the VendRep System, or to obtain a paper copies of the questionnaires, please go to the following web site:
