¹At the time of licensing Abend-AID with Primary Language, clients must select a primary language of COBOL, PL/I or Assembler.

Clients that do not specify a primary language at the time of licensing will automatically receive the COBOL language. Subsequently, the client may license additional languages, COBOL, PL/I or Assembler, at the then current list price for these options.

Stated prices include 12 months of maintenance with new license sales and up to 12 months of maintenance with capacity increase sales. Prices and conditions are subject to change without notice. This document and the information contained herein are confidential and proprietary information of Compuware Corporation and may not be used by, or disclosed or distributed to any third party except as specifically authorized in writing by an officer of Compuware Corporation. ¹At the time of licensing Abend-AID with Primary Language or Abend-AID for CICS, clients must select a primary language of COBOL, PL/I or Assembler. Clients that do not specify a primary language at the time of licensing will automatically receive the COBOL language. Subsequently, clients may license additional languages, COBOL, PL/I or Assembler, at the then current list price for these options. Although priced separately, each additional language needs to be licensed only once as the additional languages can be used with either Abend-AID with Primary Language or Abend-AID for CICS.

Stated prices include 12 months of maintenance with new license sales and up to 12 months of maintenance with capacity increase sales. Prices and conditions are subject to change without notice. ¹At the time of licensing Strobe MVS for Sysplex clients must select a language of COBOL, PL/I, JAVA, or C. Clients that do not specify a language at the time of licensing will automatically receive the COBOL language. Subsequently, the client may license additional languages, COBOL, PL/I, JAVA, or C (Version 2), at the then current list price for these options. When choosing JAVA as your language, Strobe for UNIX System Services must be licensed at the same time.

Stated prices include 12 months of maintenance with new license sales and up to 12 months of maintenance with capacity increase sales. Prices and conditions are subject to change without notice. ¹Licensed MIPS per location will correspond with the capacity of Strobe MVS for Sysplex 2.5 or subsequent versions. However, license fees per location will only be based on the initial deployed MIPS level of Strobe MVS for Sysplex 2.5 or subsequent versions. iStrobe will not be subject to increased license fees associated with capacity increases of Strobe MVS for Sysplex 2.5 or subsequent versions.

Stated prices include 12 months of maintenance with new license sales and up to 12 months of maintenance with capacity increase sales. Prices and conditions are subject to change without notice. This document and the information contained herein are confidential and proprietary information of Compuware Corporation and may not be used by, or disclosed or distributed to any third party except as specifically authorized in writing by an officer of Compuware Corporation. Strobe Service Offerings¹

Effective August 2012
State of New York (U.S. Dollar)

Consulting Services	Total Visits	Total Days	Total Days	Scope	Deliverable	Price
	Onsite	Onsite	Work Effort			
Strobe Application Performance Solver	1	2	5	5 Profiles	Performance Findings Report	\$11,486.15
Strobe Application Performance Assessment	3	6	25	20 Profiles	Application Efficiency Report	\$47,858.94

Implementation & Consulting Services		
	Duration	Rate
Delivery Consultant and/or Project Manager ¹	Per Hour	\$239.29
Delivery Architect ²	Per Hour	\$296.73
Guardian Services ³	Per Hour	\$143.58

Strobe on Demand Services ⁴	Turnaround Time	Price Per Profile
Normal Consultation	Maximum of 5 Business Days	\$11,964.74
Expedited Consultation	Maximum of 2 Business Days	\$14,357.68

¹ Implementation Assurance is required for all new license sales, is detailed in a Statement of Work, and consists of Implementation Consulting, Installation Verification and Product Training. T&E expenses are excluded from the Services Rates specified above.

² This rate is used for solution architecture consulting services focused on implementation. If you have questions about which rate to propose, please contact your respective SDG Delivery Manager to assist you. T&E expenses are excluded from the Services Rates specified above.

³ This rate applies to services focused on providing customers with on-going staffing in support of a Compuware software implementation and covers activities that are typically handled by client staff such as ongoing maintenance, administration and configuration. While Guardian Services engagements are long-term in nature, this lower rate is applied for the different level of work involved as detailed in this description. Other engagements that involve activities tied to the standard rates must be positioned at the higher rate level, regardless of the length of the services. These services are performed by Compuware employees that have at a minimum a general understanding of Compuware software solutions and the corresponding technology environment. If you have questions about which rate to propose, your SDG Delivery Manager can assist you. T&E expenses are excluded from the Services Rates specified above.

⁴ North America only. Client cannot own Strobe MVS or Strobe EP. Client's aggregate available z/OS CPU capacity cannot exceed a total of 1,000 MIPS.

Prices and conditions are subject to change without notice. This document and the information contained herein are confidential and proprietary information of Compuware Corporation and may not be used by, or disclosed or distributed to any third party except as specifically authorized in writing by an officer of Compuware Corporation. Interactive Analysis & Debugging Services

Effective August 2012
State of New York (U.S. Dollar)

Consulting Service	Total Visits Onsite	Total Days Onsite	Total Days Work Effort	Scope	Deliverable	Price
Application Quality Assessment ¹	2	5	10	15 Programs	Assessment Report ²	\$19,143.58

Implementation Service	Rate for Initial 5 Day Requirement
Implementation Assurance ³	\$9,571.79

Managed Service	Duration	Rate
Delivery Consultant and/or Project Manager ⁴	Per Hour	\$239.29
Delivery Architect ⁵	Per Hour	\$296.73
Guardian Services ⁶	Per Hour	\$143.58

¹ Application Quality Assessment includes T&E expenses.

² Assessment Report includes Recommendations and Executive Presentation.

³ Implementation Assurance rate includes T&E expenses.

⁴ Delivery Consultant and/or Project Manager (Per Hour) - Implementation Assurance is required for all new license sales, is detailed in a Statement of Work, and consists of Implementation Consulting, Installation Verification, and Product Training. Travel and expenses are excluded.

⁵ Delivery Architect (Per Hour) - This rate is used for solution architecture consulting services focused on implementation. If you have questions about which rate to propose, please contact your respective SDG Delivery Manager to assist you. Travel and expenses are excluded.

⁶ Guardian Services (Per Hour) - This rate applies to services focused on providing customers with on-going staffing in support of a Compuware software implementation and covers activities that are typically handled by client staff such as ongoing maintenance, administration, and configuration. While Guardian Services engagements are long-term in nature, this lower rate is applied for the different level of work involved as detailed in this description. Other engagements that involve activities tied to the standard rates must be positioned at the higher rate level, regardless of the length of the services. These services are performed by Compuware employees that have at a minimum a general understanding of Compuware software solutions and the corresponding technology environment. If you have questions about which rate to propose, your SDG Delivery Manager can assist you. Travel and expenses are excluded.

Prices and conditions are subject to change without notice. This document and the information contained herein are confidential and proprietary information of Compuware Corporation and may not be used by, or disclosed or distributed to any third party except as specifically authorized in writing by an officer of Compuware Corporation. All Compuware products and services listed within are trademarks or registered trademarks of Compuware Corporation. All other company or product names are trademarks of their respective owners.

Agentless Monitoring Device - Express ³	Per Server	21,000.00
SSL Support	Per Agentless Monitoring Device	15,113.35
WAN Optimization Support	Per Agentless Monitoring Device	15,113.35
Web Analysis	Per Module (Includes Central Analysis Server)	37,783.38
Enterprise Analysis	Per Module (Includes Central Analysis Server)	37,783.38
Advanced Diagnostics	Per Server	37,783.38
Analysis Modules ⁴	Per Module per Central Analysis Server	15,113.35
MYSQL Analysis Module	Per Module per Central Analysis Server	21,000.00
SAP Analysis	Per 5,000 SAP Named Users	37,783.38
Cisco Network Analysis Module (NAM) Integration	Per 5 Cisco NAMs	15,113.35
Synthetic Monitoring - AutoChecks ⁵	Per 150 AutoCheck Pack	15,113.35
Synthetic Monitoring - Transactions ⁶	Per 15 Transaction Pack (GUI or Protocol)	15,113.35
3rd Party Data Integration ⁷	Per 100 OSI Pack	15,113.35

NOTE: Current customers can migrate to the consumption based pricing if they feel that this is more in line with how they want to purchase the product going forward. The conversion cannot result in any reduction of the license fees or maintenance fees for product already purchased. The customer must convert to the consumption based model for all Compuware APM monitoring at the same time. They cannot mix the component based model with the consumption based model.

¹ dynaTrace Enterprise Base (formerly On-premises) includes all management components for: Business Service Management, Synthetic Monitoring, VantageView, and either 1 Real User Monitoring - Web Analysis or 1 Real User Monitoring - Enterprise Analysis.

² Can only monitor traffic between VM guests within a single VMWare ESX instance. To monitor inbound/outbound traffic originating from external devices (e.g. Users, servers) to ESX instance requires a full AMD license (which can be virtualized or physically hosted). Requires SSD Approval and special usage clause.

³ Can only be used in conjunction with Enterprise Analysis and NetFlow Analysis Module. All other Real User Monitoring reporting options (e.g. Web Analysis and all other Analysis Modules) require full AMD license.

⁴ **Analysis Modules** include: DB2/DRDA, Informix, Oracle SQL*Net, MS SQL*Server/Sybase, Oracle Forms, Websphere MQ, Tuxedo Jolt, VPN Gateway, Thin Client (Citrix & Windows Terminal Server), XML Transactions, Microsoft Outlook/Exchange and NetFlow.

⁵ **AutoChecks** are simple tasks: Single URL download, web service request, SMTP e-mail transaction, FTP download Application Availability (TCP Port Connect), Host Availability (ICMP), LDAP query, DNS Lookup and Database query.

⁶ **Transactions** (GUI Only) are defined as each start/stop timing event pair in a unique transaction script.

⁷ The total number of OSI (operating system instances) that support business services defined in dynaTrace Enterprise.

Stated prices include 12 months of maintenance with new license sales. Prices and conditions are subject to change without notice. System, Database and Application Agent - UNIX	Per Agent	3,324.94
System, Database and Application Agent - Windows	Per Agent	554.16
System, Database and Application Agent - Linux	Per Agent	554.16
System Agent - UNIX	Per Agent	1,385.39
Open Agent - Tru64 or Novell	Per Agent	554.16
Agentless Monitor ⁹	Per Agent	277.08
Vantage Monitor for SNMP ¹⁰		Price
SNMP Metrics	Per Each Additional 1,000 Metrics	8,312.34

¹ Transaction Trace Analysis includes Transaction Trace Analysis Base, 1 Unattended Capture Manager, 1 Extended Merge Module, 1 WAN Deployment Expert, 1 Expert Analysis Module and all Decode modules. Formerly known as ApplicationVantage Professional.

² Wan Deployment Expert feature is available up through release 11.5 only

³ Requires a license of dynaTrace Enterprise Base

⁴ Separately chargeable decodes: IBM UDB (DRDA), Informix, MS SQL, Oracle and Sybase.

⁵ Separately chargeable decodes: HTTPS, IBM UDB (DRDA), IBM Websphere MQ, Informix, MS SQL, Oracle, Sybase and SAP.

⁶ Script Developer - Protocol can only be used against the Active Transaction Monitoring licensing model.

⁷ Transactions are defined as each start/stop timing event pair in a unique transaction script.

⁸ Server Monitoring options include one Agent per operating system instance.

⁹ Agentless Monitor includes SAP R/3, VMWare ESX Server, Weblogic, Websphere, WMI, Oracle Remote, WebsphereMQ and SNMP. One Agentless Monitor per operating system instance delivers all supported agentless metrics.

¹⁰ Requires at least one license of Vantage End User Monitoring, Network Monitoring, Server Monitoring or ApplicationVantage. A SNMP metric is defined as each SNMP object instance residing in a SNMP MIB.

APM - Products Service Offerings

State of New York (U.S. Dollar)
Effective August 2012

Implementation Consulting & Training Services ¹	Duration	Rate
Standard Delivery Services ²	Per hour	\$239.29
Guardian Services ³	Per hour	\$143.58

Managed Services	Duration	Rate
Guardian Services - Bronze Package ⁴ (SaaS Only)	1 Year	\$47,858.94
Guardian Services - Silver Package ⁴	1 Year	\$95,717.88
Guardian Services - Gold Package ⁴	1 Year	\$215,365.24
Guardian Services - Platinum Package ⁴	1 Year	\$287,153.65

¹ Five day instructor-led, product specific, onsite training packages are available, based on APM University content. Please see your SDG Delivery Manager for details.

² This rate applies to customization and integration services around the APM product and exclude T&E expenses. Contact your SDG Delivery Manager for assistance.

³ This rate applies to services focused on providing customers with on-going staffing in support of a Compuware software implementation and covers activities that are typically handled by client staff such as ongoing maintenance, administration, and configuration. While Guardian Services engagements are long-term in nature, this lower rate is applied for the different level of work involved as detailed in this description. Other engagements that involve activities tied to the standard rates must be positioned at the higher rate level, regardless of the length of the services. These services are performed by Compuware employees that have at a minimum a general understanding of Compuware software solutions and the corresponding technology environment. If you have questions about which rate to propose, your SDG Delivery Manager can assist you. T&E expenses are excluded from the Services Rates specified above.

⁴ Clients must be current on maintenance to utilize the Guardian Services Packages. Language reflecting this policy is incorporated into the Statement of Work required for each Guardian Services Package transaction. This rate excludes T&E expenses. The APM Guardian Services Packages are comprised of the following components:

- Bronze Package - 1 week of On-Demand services and 10 hours per week of part time, remote APM Guardian Services
- Silver Package - 2 weeks of On-Demand services and 20 hours per week of part time, remote APM Guardian Services
- Gold Package - 6 weeks of On-Demand services and 1 full time, on site APM Guardian Services engagement
- Platinum Package - 14 weeks of On-Demand services and 1 full time, on site APM Guardian Services engagement

Stated prices include 12 months of maintenance with new license sales. Prices and conditions are subject to change without notice. .NET Windows OS Instance (WOSI)	6,000.00	4,800.00	4,200.00	3,750.00	3,450.00	3,150.00	2,850.00	2,550.00	2,250.00
Browser Agent for IE and Firefox	5,700.00	4,560.00	3,990.00	3,562.50	3,277.50	2,992.50	2,707.50	2,422.50	2,137.50
Browser Agent for IE and Firefox (5-Pack)	15,000.00								
Native Agent (ADK)	6,000.00	4,800.00	4,200.00	3,750.00	3,450.00	3,150.00	2,850.00	2,550.00	2,250.00
IBM WebSphere Message Broker Agent	6,000.00	4,800.00	4,200.00	3,750.00	3,450.00	3,150.00	2,850.00	2,550.00	2,250.00
Java MSU - Mainframe (min: 10 MSU)	2,700.00								
Java/.NET Rich/Fat Client Agent 10-Pack	7,200.00								

Key terms for Production Edition Use:
- Licensed per JVM or WOSI.
- Native agents and Message Broker agents licensed per process.
- Agents may not be moved unless the server they are installed / utilized on is decommissioned or otherwise replaced.
- Only for use in production at a single site. No use in test or development.
NOTES: No CPU pricing permitted. Exceptions require Vice President Sales & Finance approval and must include a max Agent/WOSI number.

dynaTrace Volume Discount Curve	
Volume	Discount
1 - 2	0.0%
3 - 5	20.0%
6 - 10	30.0%
11 - 15	37.5%
16 - 20	42.5%
21 - 30	47.5%
31 - 50	52.5%
51 - 75	57.5%
76 - 100	62.5%

Key terms for Volume Discount Curve Use:
- Volume discounts are applied to the agent list price based on the total number of licensed agents / WOSIs.
- Discounts do not apply to services, UEM, browser agent packs, the dynaTrace Development Team Edition - Advanced Profiling Package.
- Future price guarantees may be offered to customers only with approval by Eric Fischer.
- The Geography Sales Vice Presidents have the authority to discount 10% more than the Volume Discount Curve and any discounts beyond this level require approval by John Van Stelen or Eric Fischer.

Maintenance		
Maintenance	18%	12 months of Maintenance is included in the list price. Thereafter, maintenance will be 18% of the net sales price.

Stated prices include 12 months of maintenance with new license sales. Prices and conditions are subject to change without notice. dynaTrace Development Team Edition

For software architects and development managers, Development Team Edition brings application performance management to engineering and to all of your development processes. Save time. Improve code. Speed applications. Consolidate tools and improve overall consistency and predictability of releases.

Development Team Edition is available in two different packages:

The **Advanced Profiling Package** enables developers to optimize the code as they work on it. They can do everything they would do with a profiler and more, including: multi-tier distributed profiling and tracing; memory and resource analysis; architecture validation; and sharing and collaboration.

The **Continuous Integration Package** delivers automated root-cause performance diagnostics with every build. It has all the functionality of the Advanced Profiling Package plus it provides full automation support as well, including: fully automated performance analysis; automated architecture validation and alerting; automated regression analysis; share key performance metrics with custom reports and dashboards; cross version performance trending and comparison.

dynaTrace Development Team Edition - Advanced Profiling Packages					
	5 Users	10 Users	25 Users	50 Users	100 Users
Front-End Profiling Bundle (1 Browser Agent for IE/Firefox per User)	2,160.00	3,780.00	7,080.00	12,825.00	20,250.00
.NET Server Profiling Bundle (1 .NET Agent per User)	2,160.00	3,780.00	7,080.00	12,825.00	20,250.00
Java Server Profiling Bundle (1 Java Agent per User)	2,160.00	3,780.00	7,080.00	12,825.00	20,250.00
Native Agent Profiling Bundle (1 Native Agent per User)	2,160.00	3,780.00	7,080.00	12,825.00	20,250.00
IBM WebSphere Message Broker Agent Profiling Bundle (1 Message Broker Agent per User)	2,160.00	3,780.00	7,080.00	12,825.00	20,250.00
End-to-End Profiling Bundle #1 (1 Browser Agent + 1 .NET Agent per User)	3,456.00	6,048.00	11,340.00	20,520.00	32,400.00
End-to-End Profiling Bundle #2 (1 Browser Agent + 1 Java Agent per User)	3,456.00	6,048.00	11,340.00	20,520.00	32,400.00
End-to-End Profiling Bundle #3 (1 Browser Agent + 1 Native Agent per User)	3,456.00	6,048.00	11,340.00	20,520.00	32,400.00
End-to-End Profiling Bundle #4 (1 Browser Agent + 1 IBM WebSphere Message Broker Agent per User)	3,456.00	6,048.00	11,340.00	20,520.00	32,400.00

Key terms for Development Team Edition - Advanced Profiling Package:

- Only for use in development of software applications.
- Not for use in production.
- Licensed for use per JVM/WOSI/Browser for specific users.
- Native agents and Message Broker agents licensed per process.
- Limited to 30 minutes of recorded transaction history and not available for use in automated build / testing scenarios.
- Agents are deployed on developers' desktops or in integration environments.

- STANDARD VOLUME DISCOUNTS DO NOT APPLY

- Customized agent configurations are available on demand (e.g. 5 users made up of 2 with the Front-End Profiling Bundle, 2 with the Java Server Bundle, 1 with the End-to-End Bundle #2). Contact sales management for details.
- For opportunities involving more than 100 developers, contact sales management.

dynaTrace Development Team Edition - Continuous Integration Package									
License	List Price								
Java Agent (JVM) - Windows/Unix	6,000.00	4,800.00	4,200.00	3,750.00	3,450.00	3,150.00	2,850.00	2,550.00	2,250.00
.NET Windows OS Instance (WOSI)	6,000.00	4,800.00	4,200.00	3,750.00	3,450.00	3,150.00	2,850.00	2,550.00	2,250.00
Browser Agent for IE and Firefox	5,700.00	4,560.00	3,990.00	3,562.50	3,277.50	2,992.50	2,707.50	2,422.50	2,137.50
Browser Agent for IE and Firefox (5-Pack)	15,000.00								
Native Agent (ADK) - Per Process	6,000.00	4,800.00	4,200.00	3,750.00	3,450.00	3,150.00	2,850.00	2,550.00	2,250.00
IBM WebSphere Message Broker Agent	6,000.00	4,800.00	4,200.00	3,750.00	3,450.00	3,150.00	2,850.00	2,550.00	2,250.00
Java MSU (min: 10) - Mainframe	2,700.00								
Java/.NET Rich/Fat Client Agent (10-Pack)	7,200.00								

Key terms for Development Team Edition - Continuous Integration Package Use:

- One agent per JVM/WOSI/Browser for testing multiple applications in automated build and/or continuous integration environments at a single site.
- Native agents and Message Broker agents licensed per process.
- Not for use in production.
- Restricted for use within a single business entity by either developers or test automation engineers.
- No transfers.
- Standard volume discounts do not apply to 5-Packs.
- No CPU pricing permitted. Exceptions require VP Sales & Finance approval and must include a maximum Agent/WOSI number.
- .NET (WOSI) pricing does not apply for Windows Datacenter Edition.

dynaTrace Volume Discount Curve	
Volume	Discount
1 - 2	0.0%
3 - 5	20.0%
6 - 10	30.0%
