

## IBM CORPORATION NOTE TO AUTHORIZED USERS:

Section 69-M of the General Business Law and Title 19 NYCRR Reg. 195.2 provide that any person engaging in the business of installing, servicing or maintaining security or fire alarm systems must be licensed to do so.

IBM Corporation does not hold an NYS Fire Alarm or Security Systems Installer's License and must have licensed subcontractors perform all on-site physical (HANDS-ON) labor (installation, systems integration, and maintenance) covered under this license.

IBM Corporation is prohibited from performing any on-site physical (HANDS-ON) labor actions with regards to installing, integrating, or maintaining Fire Alarm or Security Systems as defined in Sec. 69-M and Title 19 NYCRR 195.2. Any actions involving installing, integrating, or maintaining a Fire Alarm or Security System as defined in Sec. 69-M of the General Business Law and Title 19 NYCRR 195.2 by a prime contract holder will be grounds for contract suspension.

Prime contract holders can only provide verbal consulting/supervising for any work where this license is required.

It is the responsibility of the authorized user to ensure the compliance of the prime contract holder with this requirement when performing work on contract.

Please see below the following link to the NYSDOS website for additional information regarding the NYS Fire Alarm or Security Systems Installer License required per Sec. 69-M of the General Business Law Title 19 NYCRR Reg. 195.2:

<http://www.dos.state.ny.us/lcns/lawbooks/security.html>

Please also see attached the List of Approved Subcontractors (Page 213) that can perform physical installation, systems integration, and maintenance.

Each engagement will require an individual SOW which IBM will have the opportunity to accept or decline. Each engagement which IBM and NYS agree to pursue will require a Transaction Document specifying the responsibilities of Authorized Users and IBM, estimated schedule, completion criteria, bill of materials, and the hours and fees to perform the IBM responsibilities.
