

HOW TO USE TYCO INTEGRATED SECURITY, LLC.'S SUBCONTRACTORS:

(Formerly ADT Security Services)

Tyco Integrated Security is often called upon for turn key Security Systems and Solutions. This may include additional work that is outside of Tyco Integrated Security's expertise but integral to the overall solution. Examples of this include but are not limited to the following:

- Providing a Split Air Conditioning system to keep equipment running at proper operating temperature.
- General Contractor to install, modify, and/or furnish material for structural changes, soffits, painting, painting, etc. as necessary such as moving non structural walls or doors to allow an area for equipment and the customer's surveillance operator to reside or to install a portal door or sally port.
- Hiring a locksmith to install door strikes for the card access system.
- Providing concrete pads for mounting camera poles.
- Provide proper lighting for cameras to operate.
- Hiring a fence and gate contractor to repair, replace, or install fencing, gates, and operators.
- Electrical contractor to install modify, and/or furnish material for electrical systems including, but not limited to raceway, cabling, line voltage supply, conduit, fiber, control wiring, trenching, etc as necessary.
- Engage manufacturer technicians to provide a higher level of maintenance to specific installed equipment.
- Hiring a tree contractor to trim or remove trees to allow for optimum required camera views.

Tyco Integrated Security is permitted under the Security Systems & Solutions procurement contract (Group 77201, Tyco Integrated Security Contract PT63073) to utilize subcontracting services as defined above. Tyco Integrated Security will work in conjunction with the authorized user to ensure the utilization of qualified subcontractors is of best value, and to ensure the highest quality and best services when providing a turn-key solution.

In doing so, Tyco Integrated Security will act as the single point of contact for the authorized user. Tyco Integrated Security will take full ownership of the installation including the warranty provisions as set forth in the contract. Tyco Integrated Security will oversee all aspects of the project as it relates to our scope of work including that of the subcontractor.

Tyco Integrated Security will offer these services at a fee not to exceed cost plus 25% of the subcontractors invoice. Subcontractors will provide services on a fixed price/lump sum basis, and will be required to meet current prevailing wage mandates for their respective trade.

Tyco Integrated Security will demonstrate the cost of these services by submitting the original subcontractors' quote to the authorized user for review prior to the commencement of work. In addition, Tyco Integrated Security will attach a copy of the subcontractors' invoice, with our fee clearly noted, when applying for payment.

This fee includes direct expenses to manage the subcontractor including, but not limited to:

- Developing a scope of work.
- Procuring subcontracting services including walkthrough's as necessary.
- Managing project documents - (time sheets, certified payroll, as-built documentation, etc.)
- Coordinating project activity between trades.
- Ensuring project plans & specifications are met.
- Overseeing all aspects of the installation to ensure projects are completed in a timely manner.

SERVICE

In the event that a NYS Customer does not have a full maintenance plan in effect and requires Time and Material Service the following rates shall apply.

- All LABOR shall be charged as per the Regional rates posted on the current contract.
- All REPLACEMENT of "ON CONTRACT PARTS" shall be charged as per the current NYS Contract posted rate.
- In the event that an Tyco technician determines that a piece of equipment cannot be field repaired it will be necessary to return such piece of equipment to the manufacturer for evaluation. If the manufacturer can repair the piece of equipment or any component of such equipment an estimate will be provided to Tyco by the Manufacturer. Tyco will then determine the cost of the repair, which is not to exceed 50% of the replacement cost. If the repair cost exceeds 50% of the replacement cost, Tyco will recommend replacement. If the piece of equipment or any component can be repaired by the manufacturer for less than 50% of the replacement value, Tyco shall authorize such repair via a Purchase Order to the Manufacturer. The final repair cost will be the net cost of the repair, which includes all shipping and handling charges, plus an additional fee of 25% of the manufacturers repair cost. Any field repair charges incurred will be billed at the hourly labor rates posted on our current contract. Upon request, Tyco will furnish the Purchase Order provided to the manufacturer as verification of the repair charge.

- In the event that TYCO INTEGRATED SECURITY chooses to use another vendor or sub contractor to perform a service call, the call shall be the same as our sub contractor provision which is cost plus a 25% markup.

Name of Company	Scope of Work	Regions
