# State of New York Contract PC60006 LIFEPAK defibrillator Catalog

May 22, 2006

Catalog numbers in this Medtronic ERS US Price List are subject to change and therefore do not reflect the final catalog numbers that will be associated with the LIFEPAK® 1000 defibrillator shipped to you. The final catalog numbers assigned to the LIFEPAK 1000 defibrillator will reflect a device that may include additional or enhanced features. Changes in final catalog numbers will not increase the price of the LIFEPAK 1000 defibrillators quoted below. The ship date for the LIFEPAK 1000 defibrillator has not yet been determined. An amended quote with final catalog numbers will be sent to you at least 30 days before shipment to allow you time to revise purchase orders if necessary. The amended quote will not change the prices quoted below.

The default settings for the LIFEPAK 1000 defibrillator shipped to you will address the 2005 AHA Guidelines. If you would like the device initially set up with a setting different than recommended by these guidelines (e.g., 2000 AHA Guidelines or to your particular protocol), please specify your initial set-up requirements to the Medtronic ERS Product Service Specialist prior to preparation of the amended quote.

**DATA TRANSFER™ SOFTWARE PRODUCTS**  
 DATA TRANSFER products allow for the downloading of device data and transfer of files to a PC or other location.

21340-000095

**LIFENET® DT Express Information Management Program**

284.05

**Features:** LIFENET DT Express is a PC - based software product that allows LIFEPAK® AEDs to connect directly to a PC and then forward data on to another location. An intuitive, easy to use download wizard is included to speed the user through the download process. Users can download cases, add patient data, and save patient data to disk, and can print event logs, ECG data, and test log reports. Data can then be transferred out via modem to another PC running CODE-STAT™ SUITE data management applications.

**System Requirements:** Compatible with Microsoft® Windows 98 SE, Windows ME, Windows 2000 Professional (with Service Pack 1), Windows XP, and Windows NT Workstation (with Service Pack 6a).

**Languages Supported:** Available in English.

**Devices Supported:** LIFENET DT Express software is for use with the LIFEPAK CR Plus defibrillator, LIFEPAK 500 defibrillator, and the LIFEPAK 12 defibrillator/monitor.

**Notes:** A download accessory is required. Please see the “communications accessories” section for additional information.

**LIFENET EMS ePCR System Suite Data Management**

**\* PRICES: “BASED ON CUSTOMER PRODUCT REQUIREMENTS”**

Medtronic ERS and Medusa Medical Technologies, Inc. have formed a strategic partnership to market and develop electronic patient data reporting systems for the EMS market that allows easier and more accurate patient data capture, transfer and in-depth analysis. The product suite from Medusa is an electronic patient care reporting and comprehensive data management system. It can be linked directly to Medtronic ERS LIFEPAK® monitor/defibrillators for automatic capture and transfer of the complete cardiac rhythm and vital signs record.

**LIFENET® EMS Electronic Patient Care Reporting System**

The LIFENET EMS Electronic Patient Care Reporting System (ePCR) is powered by Medusa Medical Technologies Inc., and provides the tools and capabilities to streamline operations, reduce costs, and validate the quality of care through data. It enables your organization to consistently capture and record comprehensive patient record information electronically and makes patient care records immediately available for quality control and quality assurance purposes.

LIFENET EMS communicates with a variety of computer aided dispatch (CAD), billing and state reporting systems. It also supports a direct link from the LIFEPAK 12 and select OEM defibrillators to support the automatic capture and transfer of rhythm and vital sign data directly into the patient care record for post event review. The Information and Reporting Module provides powerful data mining capabilities and enables agencies to analyze a wide variety of key performance drivers and metrics. The LIFENET Surveillance Module works in tandem with the Information and Reporting Module by monitoring agency-defined indicators and notifying key personnel if an agency-defined threshold or variation is detected by the system.

In the field, Medics use LIFENET EMS Field User on *ruggedized tablets*. LIFENET EMS Field User improves medic job satisfaction with reduced paperwork and faster, more accurate documentation. The system also provides quick access to protocols, tracks medic certifications, and measures procedure success rates.

LIFENET EMS is a full-featured ePCR system that can help improve patient care, and provide operational efficiencies. Brochures, data sheets, and product demonstrations are available to describe the system's and capabilities in greater detail.

## M Series CCT

---

### CCT Special Considerations:

---

- All CCT with EtCO<sub>2</sub> include one EtCO<sub>2</sub> sensor. You must quote mainstream sensor as additional line item at No Charge. Mainstream Capnostat sensor is 8000-0264-01. Sidestream LoFlo Module not available for CCT.
- All EMS M Series are available with a DC Power Supply instead of an AC Power Supply at no additional charge. This can be ordered by replacing digit 7 with a "2".
- Direct transmission to GE Medical Systems Catalyst™ MUSE® is available for M Series with 12-lead option. The M Series with MUSE option is compatible with GE Medical Systems Catalyst™ MUSE® Versions 4B and higher. (Replace digit 5 with a "2" and add \$995 per device.)
- Xtreme Pack I or II is available for all M Series units. Order as a separate line item if required for transport applications.
- If RS232 option is required, the RS232 Data Transfer Cable must be quoted. Part number 8000-0605-01, \$50 per cable.
- The CCT Model may be upgraded to include a XL Smart Complete Battery for an additional charge of \$50. This upgrade includes the replacement of the XL Smart Ready Battery with the Smart Complete Battery. This can be ordered by replacing digit 7 with a "6" for M Series CCT with AC power or by replacing digit 7 with a "7" for M Series CCT with DC power.

### Xtreme Pack II Limited Warranty Statement:

---

ZOLL Medical Corporation warrants solely to the original purchaser of an M Series Defibrillator encased in a Xtreme Pack II that if the M Series injection molded enclosure is cracked or damaged under normal operating conditions when housed in an Xtreme Pack II carry case, that ZOLL will repair or replace the injection molded enclosure at its option so as to return the enclosure to original factory condition. This warranty is provided for the life on the M Series when the M Series is used under normal operating conditions. Additionally, this warranty includes the use of a loaner defibrillator during repair, the cost of shipping the damaged unit to ZOLL, and the cost of the return of the repaired or replacement unit to the original purchaser.

This limited warranty is the sole warranty made with respect to the Xtreme Pack II and is expressly in lieu of any other warranty either stated or implied, including any implied warranty of merchantability. ZOLL expressly disclaims all liability for any special or consequential damages. Breakage or damage to the screen, recorder, electronic or other portion of the M Series defibrillator other than the injection-molded enclosure are specifically excluded from this limited warranty.

### M Series Notes (applies to pages 1-4 only, not CCT model)

---

- All M Series with EtCO2 include one EtCO2 sensor. You must choose mainstream or sidestream sensor by quoting sensor as additional line item at No Charge. Mainstream Capnostat sensor is 8000-0264-01. Sidestream LoFlo Module sensor is 8000-0365.
- Bluetooth wireless option may be purchased by changing digit 10 to a 1, this is \$499 per device. This is not available for CCT models.
- All EMS M Series are available with a DC Power Supply instead of an AC Power Supply at no additional charge. This can be ordered by replacing digit 7 with a "2".
- If RS232 option is required, the RS232 Data Transfer Cable must be quoted. Part number 8000-0605-01, \$50 per cable.
- New M Series are available with an XL Battery Upgrade at no additional cost. This upgrade includes the XL Battery enclosure and handle. One XL battery is substituted for the 2 standard batteries. This upgrade is ordered by replacing digit "7" with a "3" for M Series with AC power, by replacing digit "7" with a "4" for M Series with DC power or a "5" for M Series with no external power source.
- All M Series quoted in this price book are configured with a biphasic waveform.
- New monophasic M Series may be ordered as a "Special Order" requiring prior approval from Management and VP Sales with 120-180 day delivery terms. Replace digit 9 with "0". The price is the same as biphasic.
- Refurbished Monophasic units can be ordered by replacing digit 1 with a "6" and digit 9 with a "0". Quote these 20% off list price.
- Voice recording can be added to any AED. This can be ordered by replacing digit 13 with a "7". Add \$500.00.
- Xtreme Pack II is optional and may be substituted for Xtreme Pack I at the time of the order for \$170. List as separate line item for each M Series ordered.
- Xtreme Pack II for 12-lead or 12-lead and NIBP may be substituted for Xtreme Pack I at the time of the order for \$250. List as a separate line item for each M Series ordered.

## **M Series & CCT Special Considerations:**

---

- All CCT with EtCO2 include one EtCO2 sensor. You must choose mainstream or sidestream sensor by quoting sensor as additional line item at No Charge. Mainstream Capnostat sensor is 8000-0264-01. Sidestream LoFlo Module sensor is 8000-0365.
- All EMS M Series are available with a DC Power Supply instead of an AC Power Supply at no additional charge. This can be ordered by replacing digit 7 with a "2".
- Direct transmission to GE Medical Systems Catalyst™ MUSE® is available for M Series with 12-lead option. The M Series with MUSE option is compatible with GE Medical Systems Catalyst™ MUSE® Versions 4B and higher. (Replace digit 5 with a "2" and add \$995 per device.)
- Xtreme Pack I or II is available for all M Series units. Order as a separate line item if required for transport applications.
- If RS232 option is required, the RS232 Data Transfer Cable must be quoted. Part number 8000-0605-01, \$50 per cable.
- Xtreme Pack II is optional and may be substituted for Xtreme Pack I at the time of the order for \$170. List as separate line item for each M Series ordered.
- Xtreme Pack II for 12-lead is optional and may be substituted for Xtreme Pack I at the time of the order for \$250. List as a separate line item for each M Series ordered.
- The CCT Model may be upgraded to include a XL Smart Complete Battery for an additional charge of \$50. This upgrade includes the replacement of the XL Smart Ready Battery with the Smart Complete Battery. This can be ordered by replacing digit 7 with a "6" for M Series CCT with AC power or by replacing digit 7 with a "7" for M Series CCT with DC power.

## **Xtreme Pack II Limited Warranty Statement:**

---

ZOLL Medical Corporation warrants solely to the original purchaser of an M Series Defibrillator encased in a Xtreme Pack II that if the M Series injection molded enclosure is cracked or damaged under normal operating conditions when housed in an Xtreme Pack II carry case, that ZOLL will repair or replace the injection molded enclosure at its option so as to return the enclosure to original factory condition. This warranty is provided for the life on the M Series when the M Series is used under normal operating conditions. Additionally, this warranty includes the use of a loaner defibrillator during repair, the cost of shipping the damaged unit to ZOLL, and the cost of the return of the repaired or replacement unit to the original purchaser.

This limited warranty is the sole warranty made with respect to the Xtreme Pack II and is expressly in lieu of any other warranty either stated or implied, including any implied warranty of merchantability. ZOLL expressly disclaims all liability for any special or consequential damages. Breakage or damage to the screen, recorder, electronic or other portion of the M Series defibrillator other than the injection-molded enclosure are specifically excluded from this limited warranty.

## E Series Outer Housing Warranty

---

ZOLL Medical Corporation warrants solely to the original purchaser of an E Series Defibrillator that if the E Series injection molded housing is cracked or damaged under normal operating conditions when housed in the Roll Cage system or Rugged SoftPack Carry Case, that ZOLL will repair or replace the injection molded enclosure at its option so as to return the enclosure to original factory condition. This warranty is provided for the life on the E Series when the E Series is used under normal operating conditions. Additionally, this warranty includes the use of a loaner defibrillator during repair, the cost of shipping the damaged unit to ZOLL, and the cost of the return of the repaired or replacement unit to the original purchaser.

This limited warranty is the sole warranty made with respect to the E Series Roll-cage system or Rugged SoftPack Carry Case and is expressly in lieu of any other warranty either stated or implied, including any implied warranty of merchantability. ZOLL expressly disclaims all liability for any special or consequential damages. Breakage or damage to the screen, recorder, electronic or other portion of the E Series defibrillator other than the injection-molded enclosure are specifically excluded from this limited warranty.

## EtCO2 Mainstream Sensor and LoFlo EtCO2 Module Warranty

---

ZOLL Medical Corporation warrants solely to the original purchaser of an M Series®, M Series CCT, or E Series™ defibrillator that if an EtCO2 Mainstream Sensor or LoFlo EtCO2 Module used with a ZOLL Defibrillator fails under normal operating conditions, ZOLL will either replace or repair the defective Mainstream EtCO2 sensor or LoFlo EtCO2 Module at ZOLL's option. This limited lifetime warranty begins from the original date of purchase of the EtCO2 Mainstream Sensor or LoFlo EtCO2 Module.

The foregoing warranty constitutes the exclusive remedy of the customer and the exclusive liability of ZOLL Medical Corporation for any breach of warranty related to the EtCO2 Mainstream Sensor or LoFlo EtCO2 Module supplied hereunder. ZOLL Medical Corporation expressly disclaims all other warranties whether written, oral, implied or statutory, included but not limited to any warranties of merchantability or fitness for a particular purpose.
