

## GAYLORD® Custom Classic™ Wood Book Truck

- Supports up to 800 lbs. evenly distributed
- Finish resists abrasions and UV discoloration

Customize your book truck to blend with your unique library. Oak hardwood construction and 5" swivel casters ensure quality performance. The bottom shelf is 1½" thick for additional strength. Finish resists damage, and optional rubber bumpers (sold on **opposite page**) protect your walls and furniture. Available in 10 finishes and four end panel designs shown; colored finishes match our Little Potter shelving line sold on **page 575**. FOB: NY 🚚

## GAYLORD® CloudLight™ Activity Table

- *Lightweight plastic makes rearranging any room quick and easy*
- *Height adjustable*

Our blow-molded plastic tabletops stand up to anything a kid can throw at them: paint, crayon, juice, food, glue and markers clean up easily and will not scratch or dent the durable surface. Lightly textured tabletop is one single piece with no joints, edges or edge-banding to pinch little fingers or snag clothing. The welded steel frame spans the entire table for stability, and legs adjust from 21 to 30" in 1" increments for the perfect height. Assembly required.

### GAYLORD Americana® Zigzag Multi-User Workstation

- Choose either 42"H privacy or 32"H community panels

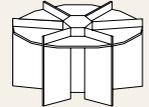

Create zigzag, U-shaped or full-circle designs using economical starter/adder construction. Select from two panel heights. The 32"H panel allows for collaborative study groups and provides an open work environment; work surface can be positioned at 27H or 29"H sitting heights. The 42"H panels allow the work surface to be positioned at 39"H for standing or at 27H or 29"H for privacy when seated. Constructed of oak solids, premium oak veneers and a high-pressure laminate work surface trimmed with solid oak edge-banding. UV finish is highly resistant to scrapes, stains and discoloration. Includes 3" grommets in each intermediate side panel for wire management. Available in six finishes shown below and over 200 laminate work surface colors. Assembly required. FOB: NC

### GAYLORD Americana® Angled Workstation

- Create your own design with starter and adder modules

Designed at an angle to allow for easy viewing and additional work surface for books or laptops. Constructed of oak solids, premium oak veneers and a high-pressure laminate work surface trimmed with solid oak bull nose edge-banding. Materials are highly resistant to scrapes, stains and UV discoloration. Features 1" thick end panels with solid oak edging and adjusting levelers at the bottom of each panel to accommodate uneven floor surfaces. Includes CPU holder and 3" grommets for wire management. Available in six wood finishes and over 200 laminates. Assembly required. FOB: NC

### GAYLORD® Brain Storming Table™

- Rotating central markerboard
- Mobile and stationary models

Jot down thoughts on the melamine markerboard inlays with wet- or dry-erase markers and then easily wipe them away for more brainstorming. The unique clover shape of the table provides space for reference materials and easy markerboard access. Rounded corners and natural oak vinyl edge-banding protect the table from chips and scratches. The 1" thick laminate work surface is resistant to stains, scrapes and UV discoloration. Solid 2" square oak legs offer lasting quality and stability, with leveling glides on stationary tables and two locking casters on mobile tables. Assembly required. FOB: NY

Both sitting (27") and standing (39") heights have a 3" grommet provided for each individual workstation and a J-wire channel mounted on the underside. The 10"H backstop prevents fall-offs. High-pressure laminate work surfaces are 1¼" thick and feature solid oak trim and legs. Double unit has one divider; triple unit has two dividers. Available in six finishes shown and more than 200 laminate work surface colors. FOB: NC

# GAYLORD® Library Furniture

## A TRADITION YOU CAN TRUST

Over the years we've carefully listened to the needs of librarians and worked with architects to develop fully functional circulation desks that are also stylish and affordable. Each resulting furniture line offers modular components in a range of styles, materials and finishes to provide a custom look without the hefty price tag. Choose the features you need to make your workday more comfortable and efficient while adding the perfect look to your library.

TO LEARN MORE, VISIT [Gaylord.com/GaylordLibraryFurniture](http://Gaylord.com/GaylordLibraryFurniture).

*Sophisticated maple and sleek granite-like solid work surfaces make Harmony a top choice for any library. Double pin-stripping details and diamond pattern inlay options add another layer of design to every piece.*

**FREE LAYOUT & DESIGN SERVICE**

### Take the Guesswork Out of Renovating

*From layout and design to final installation, our Library Design Team knows what it takes to make your library project a huge success.*

# Always a Perfect Fit

## Configure Our Modular Circulation Desks to Your Exact Needs

**bookcraft**<sup>®</sup>  
FURNITURE BY GAYLORD

Clean, uninterrupted work surfaces and full bullnose edge-banding create strong, sleek lines for a contemporary spin on the classic library desk.

**GAYLORD**  
**Americana**

Modular design boasts full end panels on every desk component while maintaining a continuous work surface for the perfect blend of classic design and practicality.

**Sierra**<sup>™</sup>  
FURNITURE BY GAYLORD

Traditional design for the 21st century, with double-beveled edges and faceted corners in classic oak or contemporary maple. Three panel design options let you customize each piece to fit your library's unique style.

**Classic**<sup>™</sup>  
FURNITURE BY GAYLORD

Defy tradition with a bold, round circulation desk placed in the middle of your library or as a half-round against a wall, offering patrons 360° service.

**GAYLORD**  
**GENESIS**<sup>™</sup>

The perfect blend of function and smart design upgrades. Corner display cases usually reserved for premium furniture lines elevate the look of this value line.

**St. Croix**<sup>™</sup>  
FURNITURE BY GAYLORD

Everything you need to give your patrons the most efficient service possible. Natural oak panels get a burst of color from laminate work surface options.

## GAYLORD® Harmony™ Circulation Furniture

*Create a premium, designer look with a canted front and striking double pinstripe accent with a smoked plexiglass inlay.*

The soft hues and subtle woodgrain of 100% maple solids and premium veneers in three finishes are complemented by your choice of three rich, easy-care solid acrylic surfaces that are seamless and offer the look of granite. Every component includes wire management and is available in a choice of sitting height, sitting height with patron ledge, or standing height. Add a full complement of matching library furniture for a coordinated look. See **page 501**. FOB: NY 🚚

## Design your perfect desk...

Two easy steps to choose the style and colors for your circulation desk.

### Step 1: Choose Oak or Maple Construction

A variety of finishes to fit your needs. Simply add "-MPL" to the item number when ordering maple construction, then specify your maple finish. See page 506 for finishes.

### Step 2: Select a Panel Style

Available in three styles.

**Contemporary Panel** offers a sleek and sophisticated appearance

**Matching Inlay Panel** provides classic appeal in more than 200 color choices

**Raised Panel** for a more traditional appearance

Solid Acrylic  
Surface Options

## GAYLORD Americana® Circulation Furniture

*Solid acrylic surfaces offer the look of granite, are seamless and come in dozens of colors. Fully captured side panels with the look of a continuous surface offer sleek modularity.*

A traditional oak design offered in six finishes combines with your choice of acrylic or laminate work surfaces. Match the 1¼" thick high-pressure laminate work surfaces to your chosen woodgrain or select from more than 200 laminate colors. Quality construction includes 1" thick veneer core end panels, ¾" oak face panels and ¾" solid oak bullnose edge-banding. Available with or without inlay and in a choice of sitting height, sitting height with patron ledge, or standing height. Add a full complement of matching library furniture for a coordinated look. See **page 501**. FOB: NC 🚚

## GAYLORD® Mobile Greeter Station™

- Mobility keeps you where the action is
- Small unimposing design is approachable

Constructed from solid oak and premium oak veneers with durable PVC T-mold edge-banding, high-pressure laminate work surfaces and 4" heavy-duty locking casters that roll with ease. Thoughtful features include a patron purse ledge and staff-side storage. Optional corner unit extends your work space and provides valuable display space for signage, brochures or public information. Select from six wood finishes. Work surfaces and front panel are available in three color choices: matching woodgrain laminate, one of six preselected color combinations shown or one of more than 200 laminate colors. FOB: IN

RA-HLAC215  
Hinged Lid Access Power Source

Hinged lid access centers are flush-mounted to tabletop. Access centers are single circuit modules. 6 ft. 14/3 power cord with 15 amp plug. Dual circuit systems utilize the IWA power feed/interconnect system. Daisy chain ganging of multiple centers, single or dual circuit, is done by IWS quick disconnect cables. Constructed of 16-gauge steel with black sand-tex powder-coated finish.

**GAYLORD® Allusion® Reading Table**

- Premium quality table is built to last
- Apronless with unique plank-style legs

Constructed of solid oak with high-pressure laminate work surface. 5W x 1½" thick solid oak legs are set obliquely and bolted to steel plates for optimum stability and easy accessibility for disabled patrons. 1½" thick solid oak bullnose edge-banding creates a comfortable and smooth edge. The 84"W and 96"W tables feature additional center leg supports. Finished with vinyl sealer and catalyzed lacquer, which dries to a medium-low sheen. Available in finishes shown with work surface available in a matching woodgrain or your choice of over 200 laminate colors. Assembly required. FOB: NC

Solid Construction & Attractive Appearance

FURNITURE BY GAYLORD  
GAYLORD®

**Bookcraft® Library Table**

- 1¼" thick laminate surface
- 2¼" square solid oak legs
- 3" apron on rectangular tables

Constructed of oak hardwoods and veneers with full bullnose ¾ x 1⅝" solid oak edge-banding and radius corners. High-pressure, 1¼" thick laminate top is resistant to scrapes, stains and UV discoloration. ADA compliant round tables are apronless with profiled trim rails. Rectangular tables have 3" profiled aprons for structural strength and are constructed with a keel to prevent sagging. Legs are profiled to a ¾" radius on the outside edge and ½" radius on the inside corners. 90"W tables have two additional legs for support. Nickel-plated steel glides protect floors. Standard (adult) tables are 29"H. Intermediate 27"H and 25"H juvenile tables are also available at no additional cost (call 1-800-634-6307 for details). Laminate work surface is available in six matching woodgrain finishes shown or your choice of over 200 colors. FOB: NC

## GAYLORD® Classic™ Reading Table

- 1¼" thick high-pressure laminate top
- 2¼" solid oak legs on a 4" oak apron
- Choose from three heights: 29" adult, 27" young adult and 25" children's

Made solid to withstand the extensive use in public reading areas and classroom activity spaces. The 2¼" solid oak legs and 3" oak aprons provide enduring strength and stability. Steel braces reinforce all corners. Hanger bolts anchor legs to braces. Heavy-duty adjustable glides provide stability over uneven floors. The Saf-T-Edge table corners are rounded with vinyl edge molding that absorbs impact from chair backs without damaging the finish. Tables feature a 1¼" top with wear-resistant high-pressure laminate. Available in finishes shown with work surface available in matching woodgrain or your choice of over 200 laminate colors. Made in USA. Assembly required. FOB: IN\* or GA\*\* 🚚

# Mobile Shelving & Bookstore Display

Reconfigure your library as needed with mobile shelving and attract patrons with bookstore style displays

Create functional spaces you can change at a moment's notice with mobile shelving, and provide the relaxed atmosphere of a bookstore with bookstore style displays. Mobile bookcases can be used to help you display items of interest in prominent positions to increase visibility and circulation. It is also ideal for temporarily rearranging an area for events, meetings and programs. With mobile shelving, you're always ready to provide a setup that best suits the needs of your staff and patrons. A wide choice of styles and accessories makes our versatile mobile shelving easy to incorporate into any remodeled area, giving it long-term value, and metal-to-metal connections plus heavy-duty casters ensure that it will roll reliably for years.

## GAYLORD Americana® Mobile Shelving

- Flat and Divider shelf styles
- Available with wood or wood and steel shelves

Sturdy multi-ply veneer core with select oak veneers and solid oak edge-banding. Choose wood flat or divider shelves, or steel flat or divider shelves. 1" thick end panels. Includes 3" ball bearing heavy-duty casters. Adjustable shelves available in ¾" thick solid oak and 18-gauge steel with putty powder-coated finish. Shelving available in six wood finishes shown. Tops and backs are also available in six wood finishes, or choose from over 200 laminate top colors and seven coordinating painted back colors shown. Assembly required. Americana shelving is also available in maple wood construction. Call **1-866-784-7282** for details. FOB: NC

Flat style unit w/optional  
slatwall end panel

### Superior Construction

We offer metal-to-metal connections and heavy-duty casters that keep our shelving units rolling reliably for years. Others offer metal-to-wood connections and plastic casters that don't hold up over time.

RA-HRN58-MBL  
85 Natural Maple

## GAYLORD Americana® Mobile Bookstore Shelving

- Frame absorbs stress during movement for solid structural integrity
- Rolls with ease when fully loaded

Bookstore unit has 8" deep flat shelves and is available in 48"H and 58"H with either wood veneer or painted back panel. The bookstore display unit offers four display shelves per side with 2" lips to secure all materials. Slatwall unit is four-sided and is ideal for multimedia display. All units are available in six wood finishes shown; back panel is available in six wood finishes and seven coordinating painted color laminates (shown on page 565). Slatwall is available in over 200 laminate colors. Assembly required. Americana shelving is also available in maple wood construction. Call **1-866-784-7282** for details. FOB: NC

**Flared Bookstore Displayer**

- Constructed from oak veneers with a natural finish and a UV clear coat for durability
- Choose single- or double-faced
- Optional slatwall end panels for double-faced units
- Optional acrylic inserts maximize shelf space

Flared-style end panel design features an open top to allow taller books to extend above the unit. Bottom of displayer and lower angled shelves flare out to promote easy viewing of titles near the bottom. Unit has a fixed top shelf and comes with adjustable "L" (34½"W x 6½"D) and "T" (34½"W x 6"D) shelves. "L" shelves are used on the lower flared portion of displayer so they sit perpendicular to the back, preventing material from falling forward. "T" shelves are used on the upper vertical portion of displayer. "T" shelves are usually installed at an angle and rest ½" away from the back to prevent books from hitting the back panel and becoming damaged. Additional shelves sold separately. Double-faced units have an optional slatwall end panel for additional display. Sign holder (see **right**) and acrylic inserts (see **below**) are sold separately. FOB: MA

#### GAYLORD LITTLE POTTER FINISHES

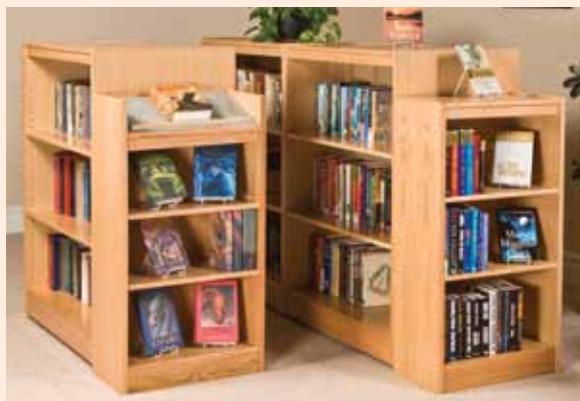

### GAYLORD Americana® End-of-Range Wood Bookcase

- Available in three styles
- Compact to fit anywhere

These space-saving units are ideal for placing at the end of shelving ranges and in small areas within your library or classrooms. Constructed from sturdy multi-ply veneer core with hand-selected oak veneers and solid oak edge-banding. Shelves are made from 3/4" thick solid oak. Choose from three distinct styles—**Flat**, available in four heights; **Sloped-Top**, used to display new releases or seasonal literature; **Bookstore**, tapered for easy viewing. Bookcases available in six wood finishes. Backs available in six wood finishes and seven painted colors shown on page 570. Choose from over 200 laminate top colors (see page 570) for **Flat** and **Sloped-Top** models. Assembly required. FOB: NC \*

# GAYLORD® Classic™ Wood Shelving

Classic oak wood styling

Solid construction includes 1" thick 13-ply hardwood end panels finished with "AA" grade oak veneer; end panels are banded with 3/16" solid oak that is eased to eliminate sharp edges. Matching high-pressure laminate tops and 3/4" solid oak shelves add to our superior strength and quality. Shelf support pins adjust on 1" centers with notched shelves to stay securely in place. Comes standard in oak construction, call **1-866-784-7282** for maple construction details. Optional back panels and partitions fit snugly into end panel channels, eliminating the need for sway braces, or keep shelving open for an airy, contemporary feel. Shelving sections are hand sanded and stained in your choice of six finishes before being sealed with protective coats of satin finish lacquer for lasting beauty. Classic™ shelving is available in starter and adder modules in five heights with 10D or 12"D shelves, in either single- or double-sided configuration. Assembly required. FOB: NY 🇺🇸

36"W

Adder  
35"W

### Starter/Adder Flexibility

Begin each shelving range with a starter unit: two 1" thick end panels. Expand with adder units. Adder units attach to the starter and cost less, as they include only one 1" thick intermediate upright panel with pin-hole tracks on both sides of the panel.

### Classic™ Accessories

Periodical and divider shelves fit only in 12D and 24"D units. Periodical shelf available with standard 1 1/2" lip.

# GAYLORD® Bookcraft® Wood Shelving

*Thick, quality oak wood with bullnose shelving features strength that exceeds industry standards.*

Engineered with mortise and tenon four-sided frames and superior 1" thick 9-ply veneer core end panels and shelves, for strength that exceeds industry standards, minimizing deflection under even the heaviest loads. Every unit is finished with a full 2½" solid oak bullnose trim and cornice and is hand-sanded before being sealed and coated with a medium-low sheen lacquer in six finishes shown. Comes standard in oak construction, call **1-866-784-7282** for maple construction details. All shelves are 35"W and adjustable in 1" increments. Additional wood shelves are available and sold separately **below**. Finish with optional matching veneer back panels and partitions or keep shelving open and uninterrupted for an airy, contemporary feel. FOB: NC 🚚

Call 1-866-784-7282 for details.

# GAYLORD® Harmony™ Wood Shelving

Premium solid maple hardwood construction.

Engineered with superior 1" thick solid hardwood maple finished with your choice of three premium maple veneers for durability, shown **below**. Our proprietary seven-step finishing process guarantees a uniform, highly durable finish that resists abrasions, moisture damage and UV discoloration. Starter units come complete with a pre-assembled top cornice and box base and two end panels; adder configurations come with one end panel, a pre-assembled top cornice and base, and one intermediate panel for easy ganging to your starter unit. Cornice tops are completed with a durable laminate to create a finished display surface on all 42", 48" and 60"H units, while 72" and 84"H units feature wood tops. All shelves are 34"W and adjustable in 1" increments; additional flat wood shelves are available **below**. Finish with optional matching maple veneer back panels and partitions or keep shelving open and uninterrupted for an airy, contemporary feel. FOB: NY

# GAYLORD® Genesis™ Melamine Shelving

Affordable melamine construction with a choice of wood finish top or colored top.

Constructed from 1" thick high-density, thermally fused melamine and finished with 3mm edge-banding. Each shelf adjusts in increments of 1/4" and holds up to 120 lbs. with a 16-gauge anti-deflection brace. Keep shelving open and airy or finish the look with an optional matching back panel. Shelving is available in starter and adder modules in six heights in either single- or double-sided configuration. Available in five wood finishes with matching tops or your choice of five top colors. Assembly required. FOB: TX

## Backstop Prevents Shelf Spillover

### GAYLORD® Steel Backstop Shelving

The 18-gauge shelves have triple bends on front and back edge to prevent sagging. The one-piece, 36"W backstop shelf neatly prevents shelf spillover while providing good visibility through the stacks. Choose from 22 powder-coated finishes shown on [page 596](#). FOB: MI

RA-GMIBS620	9"	20"	22.0	110.00
RA-GMIBS624	11"	24"	25.0	115.00

NOTE: Specify color when ordering.

## Card Holder

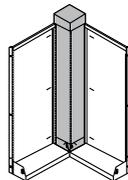

Attach to end panels with double-sided tape (not included). Holds 3 x 5" cards, two required for double-faced ends. Zinc plated steel. Clear plastic card cover sold separately. For additional end-of-range signage, see page 693.

No.	Description	Lbs.	Price Each
RA-MZCH35	Card Holder	0.3	\$3.99
RA-MCH35-PC	Card Cover	0.1	.60

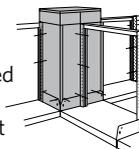

## Shelving Corner Filler # MCF93

Use to make a corner for units placed at right angle to each other. Available for all frame heights and base shelf depths. A rough layout clearly indicating height and base depth must accompany order. Contact Gaylord for further details and pricing.

## Shelving Wall Filler # MIF93

Use to fill a void where two single-faced units are joined at a right angle with a double-faced unit. Available for all base shelf depths and frame heights. A rough layout clearly indicating height and base depth must accompany order. Contact Gaylord for further details and pricing.

## Shelving Frame

Welded 36"W frame; 30" width available.

No.	Height	Lbs.	Price Each
RA-GB1231-010	42"	16.0	\$75.99

# GAYLORD® Iron Wood® Wood Frame & Steel Shelving

Quality hardwood frame with steel shelving for a combination of warmth and strength.

Featuring heavy-duty 18-gauge steel shelves framed by 1" thick multi-ply hardwood in your choice of six finishes, trimmed in solid oak hardwoods. Shelves have a durable powder-coated finish available in 01 Black and 48 Putty. Starter units and adder sections combine for a unified, built-in look. Finish the look with optional matching veneer backs and partitions or keep shelving open and uninterrupted for an airy, contemporary feel. Assembly required. FOB: NY

**Flat Shelving** comes in three heights and two shelf depths with 34"W shelves that adjust in 1" increments.

### GAYLORD® Tapered Bookstore Displayer

- *Constructed from oak veneers with a natural finish and a UV clear coat for durability*
- *Choose single- or double-faced*
- *Optional slatwall end panels for double-faced units*

**SEE PAGES 312-326 »**  
For **Children's Display**

Tapered style end panel has a closed top, which allows additional display space on top of the unit. Unit is tapered from bottom to top to provide easy viewing of titles on all shelves. Adjustable 34 1/2"W x 6 1/2"D "L" shelves are installed perpendicular to the back panel to prevent material from falling off. Additional shelves sold separately. Optional slatwall end panel for additional display on double-faced unit. Sign holders and acrylic inserts are sold separately. For slatwall accessories see **pages 643-645**. FOB: MA

**GAYLORD®**

**Flared Bookstore Displayer**

- Constructed from oak veneers with a natural finish and a UV clear coat for durability
- Choose single- or double-faced
- Optional slatwall end panels for double-faced units
- Optional acrylic inserts maximize shelf space

Flared-style end panel design features an open top to allow taller books to extend above the unit. Bottom of displayer and lower angled shelves flare out to promote easy viewing of titles near the bottom. Unit has a fixed top shelf and comes with adjustable "L" (34½"W x 6½"D) and "T" (34½"W x 6"D) shelves. "L" shelves are used on the lower flared portion of displayer so they sit perpendicular to the back, preventing material from falling forward. "T" shelves are used on the upper vertical portion of displayer. "T" shelves are usually installed at an angle and rest ½" away from the back to prevent books from hitting the back panel and becoming damaged. Additional shelves sold separately. Double-faced units have an optional slatwall end panel for additional display. Sign holders (see right) and acrylic inserts (see below) are sold separately. FOB: MA

**Acrylic Insert for Bookstore Displayer**

- Maximizes shelf space
- Can also be used as a tabletop displayer

Use with Bookstore Displayer above and on page 571.

Key	No.	Overall (H x W x D)	Lbs.	Price Each
(A)	RA-893097	17 ⅛ x 34 ¼ x 7 ¼"	8.5	\$185.00
(B)	RA-893098	15 ⅜ x 34 ¼ x 7 ⅜"	8.0	160.00

(A) 3-Shelf Insert

Display small items like audiocassettes or small books. Tilted shelves keep items from falling over. Shelves are 3"D with a 4⅝" clearance.

(B) Cascade Insert

Great for softcover, floppy products, such as children's books, magazines, workbooks, comics and DVDs. Each shelf has an interior space of 1¾"D.

**GAYLORD®**

**Flared Lighted Bookstore Displayer**

- Constructed from oak veneers with a natural finish and a UV clear coat for durability
- Versatile display with shelves and slatwall
- Optional acrylic inserts maximize shelf space

Flared end panel angles at the bottom to allow easy viewing of titles. Back panel is 52¾"H slatwall to provide an abundance of display options. Unit comes with two adjustable "L" shelves (34½"W x 6½"D). Shelves are used on the lower flared portion of displayer so they sit perpendicular to the back, preventing material from falling forward. Unit is drilled to accept additional shelves the full height of the back panel. Additional shelves sold separately. Canopy top extends 15" and contains a UL listed light fixture to illuminate your featured display (use a 2 ft. F20 T12 bulb, not included). Front of canopy is 9"H to allow for signage. Sign holder (No. RA-893176) is sold separately and accepts signs up to ¼" thick (signs not included). FOB: MA

**GAYLORD® EXCLUSIVE**

**Rollie Mobile Exhibit Display Case**

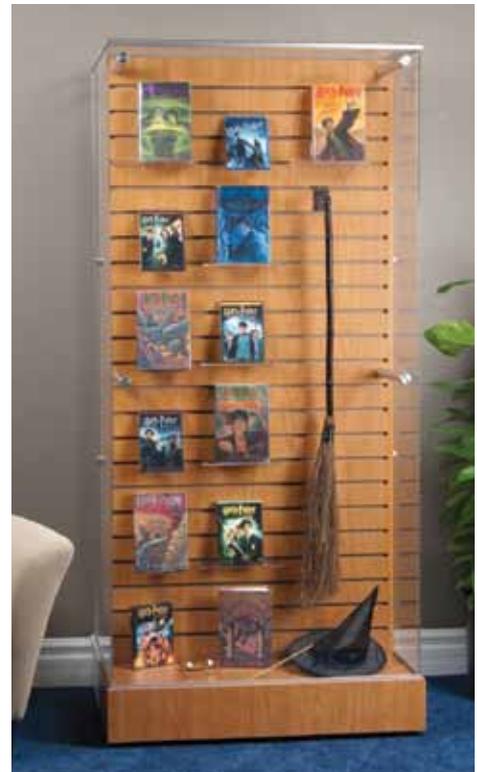

- Can be easily moved to create displays in key areas and for traveling exhibitions
- Choose double- or single-sided display area
- Two locking casters
- Ships secure in a case

The Rollie is a mobile exhibit and display case that's made to stand up to the rigors of public spaces. This mobility and the shipping case make the unit ideal for traveling exhibitions. The display area can be used for exhibits, event promotion, book selections and much more. Double-sided units come with six acrylic shelves. Single-sided units come with three acrylic shelves. Shelf brackets are included. Acrylic face panels are removable, giving you easy access to the slatwall panels. Display height is 72"H. Double-sided face has a display depth of 12" on both sides. Single-sided face has a display depth of 18¼". Moves with ease on four 4" casters. FOB: IN

Optional Flat Bridge

### GAYLORD®

## Mobile Table with Four-Sided Pinwheel Display

- Draw attention to your display
- Optional bridge available

This table display is great for featuring new arrivals and highlighting a series. The mobility allows you to easily position the unit in key areas that draw attention to your display. Includes eight T-shelves that can be adjusted to accommodate materials of various heights and four base shelves. Adjustable shelves are 5H x 29 13/16" W x 8 1/2" D. The T-shelves can be installed either flat or tipped. Tipping improves the display angle and prevents face-out books and media from falling off the shelves. The optional bridge for the top of the table provides additional merchandising flexibility. Includes four concealed nonlocking casters. FOB: MA

- Available with slatwall, fabric panels or revolving steel wire tower
- Hinged panels to create numerous configurations

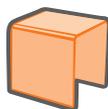

Solid oak frames with individual panels or with a revolving steel wire tower allow you to create your own display system. Each frame comes with two adjustable hinges for joining frames together at different angles. Steel wire towers hold 9"H books or videocassettes. Frames can be used as stand-alone units by adding **No. RA-FWFEET-80** support feet. Fabric panels are available in three colors shown. Slatwall available in Almond. Oak frames have a natural finish.

*Excellence on Display*

**GAYLORD® Metro™ Museum Cases**

Present a traveling exhibit or showcase a long-term display with finely crafted Metro cases that make your objects look their best. The cases combine a classic museum design with a focus on environmental controls and security.

Each case is built solely with archival materials, including laminate bases, powder-coated aluminum collars and linen-wrapped Ethafoam® mounting decks. Flawless hand-polished vitrines are available in a choice of ¼" standard or UV filtering acrylic for clarity. An airtight cavity uses silicone gaskets for minimal air exchange, and built-in compartments hold optional silica gel tiles. FOB: MA 🚚

**GAYLORD® Midtown Double-Sided Case**

Maximize your exhibit potential with twice the exhibit space in a single footprint. The versatile case offers 360° viewing and a 59"H display panel for each side.

## GAYLORD® Plaza Panel Leg Case

Panel legs keep an open feel and add a beautiful aesthetic to an exhibit space. A convenient access door beneath the case allows you to change silica gel tiles without disturbing your collection or removing the vitrine. Add an optional linen-wrapped raised decking insert with powder-coated collar for low-profile placement of identification labels (reduces interior clearance by 6"). An optional pneumatic locking system with four quick-release locks provides added security.

A Simple Solution to Suit so Many Objects

## GAYLORD® Crystal Cubes™ Museum Cases

A little goes a long way with these attractive cases. They offer simple yet elegant clean lines that place the focus on your display pieces while keeping an open feel in your display area.

The welded clear acrylic archival cube, available in standard and UV filtering, offers up to six times the impact resistance of glass for optimal security. The melamine deck will not produce harmful gasses and holds up to 200 lbs. Choose a tabletop display or a floor-standing case available with painted steel legs or wood legs in choice of finish.

Simple Design Directs Attention to Your Items on Display

# GAYLORD® Jewell™ Museum Cases

The Jewell line of museum cases is as diverse as your exhibit pieces, offering a wide range of sizes, an extensive range of finishes and primed cases you can paint to your exact requirements.

The archival-quality deck will not produce harmful gasses. Lift the acrylic vitrine off the deck for easy placement of objects and secure back in place with simple screws for added security. The archival-quality base rests on adjustable leveling feet that keep the display area flat and protect the pedestal against floor water and dirt.

RA-CLCASE12	12" Vitrine	52 x 16"	11"	75.0	2,030.00

**NOTE:** Column and deck are 12" diameter. The decorative trim at base extends to 16" diameter.

## GAYLORD® Glass-Top Exhibit Case

- Low-lead glass  
for increased clarity

Create an eye-catching display with this pedestal case. Constructed of MDF with a gloss enamel finish, the cabinet base has an adjustable shelf and two doors that lock for security. Trim bands at the deck and base add stability and stylish detailing. The vitrine is constructed of clear low-lead glass framed in painted metal. Gas lifters enable safe and smooth lifting and closing, and a raised black melamine deck safely supports objects on display.

## GAYLORD® Showcase™ Series Retail Display Case

- Create an attractive and functional retail island

Create an inviting and exciting selling environment with our modular case units. Cases can be used separately or grouped to maximize the use of your floor space. This series features four different modules: Half-Vision Case, Corner Case, Clipped Corner Case and Register Stand. Common case features include: high-pressure laminate cabinets; tempered glass display area with sliding glass door access and inset locks; mirrored back to enhance display; storage space in cabinet base with locking, sliding doors; low-energy lighting and recessed kick. FOB: MO

### Half-Vision Case

This versatile design will display everything from jewelry and glassware to rocks and minerals. One full-width adjustable glass shelf.

### Corner Case

This unit connects to other cases to form a 90° angle turn. Access to the display area is as a pass-through from the other cases. (Glass side panels are removed when cases are joined.)

### Clipped Corner Case

This unit has sliding door access to the display area from behind. It also can be used to form a 90° angle.

### Register Stand

This unit features a welled recessed countertop to hold the register and other items away from view. Finished in black laminate.
