## Unique Features of Nittany

- ✓ Includes  $\frac{3}{4}$ -inch solid case support and dust bottom.
- ✓ Panels are constructed from 7 ply veneer core plywood.
- ✓ Drawer fronts are solid hardwood or 7 ply plywood.
- ✓ Tops are high pressure laminate with internally banded solid oak bullnose edges.
- ✓ Full length integrated finger pulls are standard though other pulls are available.

## Standard Savoy Attributes

1. Savoy uses mortise and tenon triple joint construction, glued hardwood dowels, angled screws, cleats, and glued corner blocks. This ensures less repairs than mechanically fastened joints as used on RTA furniture, and eliminates the opportunity for steel fasteners to loosen.
2. Drawers are made from the most durable material, solid 9 ply veneer core plywood, and are English dovetailed for a tight, strong assembly.
3. Plywood panels are randomly matched and selected to provide the look of solid oak – while maintaining the resistance to humidity, splitting and warping that plywood offers.
4. Our UV-cured finish provides an extremely hard and durable surface.
5. By utilizing individual operator quality control, every piece is inspected every step of the way – from start to finish, offering the maximum level of quality control.
6. Laminated tops have internal band construction creating a strong, more durable finish.
7. We offer numerous options in drawer front styles and hardware, as well as an “add-a-drawer” option.
8. Being environmentally responsible is one of our core values and we continuously innovate in our manufacturing process to assure that everything that can be done, is being done.
9. All manufacturing takes place in our 305,000 sq/ft Central Pennsylvania facility.

## Unique Features of Sedona

- ✓ Contemporary styling with a combination of straight lines and convex and concave curves offers a comfortable “Home Like” appearance.
- ✓ Panels are constructed from solid birch, thin layered plywood for strength, beauty and stability.
- ✓ Rounded and reverse beveled edges, superbly finished, offer a contrasting design.
- ✓ Tops are high pressure laminate with profile exposed edges.

## Standard Savoy Attributes

1. Savoy uses mortise and tenon triple joint construction, glued hardwood dowels, angled screws, cleats, and glued corner blocks. This ensures less repairs than mechanically fastened joints as used on RTA furniture, and eliminates the opportunity for steel fasteners to loosen.
2. Drawers are made from the most durable material, solid 9 ply veneer core plywood, and are English dovetailed for a tight, strong assembly.
3. Plywood panels are randomly matched and selected to provide the look of solid wood – while maintaining the resistance to humidity, splitting and warping that plywood offers.
4. Our UV-cured finish provides an extremely hard and durable surface.
5. By utilizing individual operator quality control, every piece is inspected every step of the way – from start to finish, offering the maximum level of quality control.
6. High pressure laminated tops create a strong, more durable finish.
7. We offer numerous options in drawer front styles and hardware, as well as an “add-a-drawer” option.
8. Being environmentally responsible is one of our core values and we continuously innovate in our manufacturing process to assure that everything that can be done, is being done.
9. All manufacturing takes place in our 305,000 sq/ft Central Pennsylvania facility.

# Homestead Collection

Add warmth, character and flexibility to your housing requirements while enhancing your room's visual appeal with our Homestead Collection. Featuring solid oak overlay drawer pulls available in contrasting colors, this is one of Savoy's most popular lines.

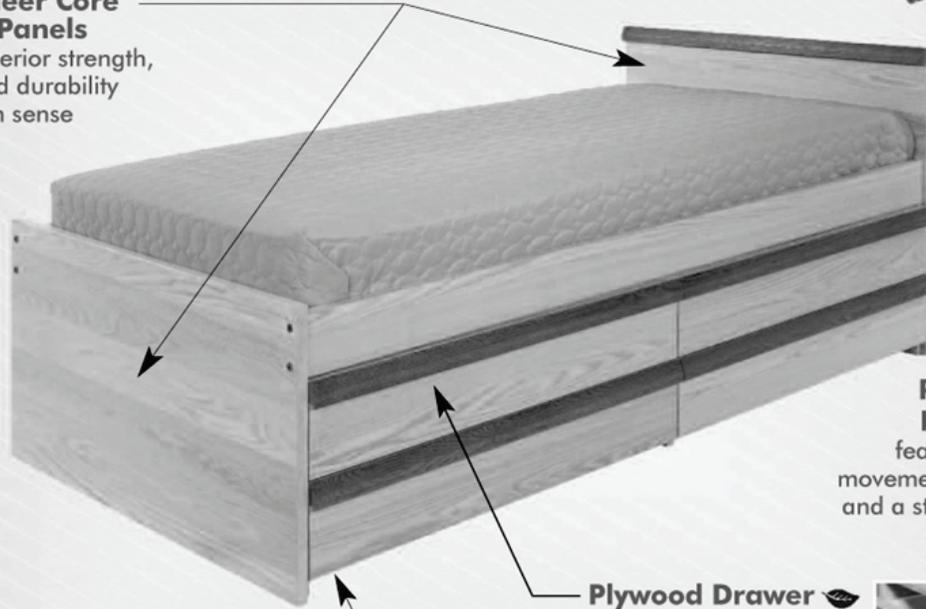

## Homestead. At home wherever form and function meet.

In addition to the standard features and benefits common to every Savoy collection, the following special features are included throughout the Homestead Collection:

### **Solid Veneer Core Plywood Panels**

provide superior strength, unsurpassed durability and a warm sense of home

### **Rust-Resistant Drawer Slides**

feature ball bearing movement, positive stops and a stay-closed design

### **Heavy Duty Casters**

mounted on underbed drawer units for stability and ease of movement

**Plywood Drawer Fronts with Solid Oak Overlay Drawer Pulls**   
for added richness and style (contrasting colors available)

# Homestead Collection (continued)

---

## Unique Features of Homestead

- ✓ Includes plywood drawer fronts with solid oak overlay drawer pull.
- ✓ Drawer fronts are 7 ply plywood with solid oak overlay drawer pulls.
- ✓ Tops are high pressure laminate with internally banded solid Oak bullnose edges.
- ✓ Residential look with contrasting finger pulls as an option.

## Standard Savoy Attributes

1. Savoy uses mortise and tenon triple joint construction, glued hardwood dowels, angled screws, cleats, and glued corner blocks. This ensures less repairs than mechanically fastened joints as used on RTA furniture, and eliminates the opportunity for steel fasteners to loosen.
2. Drawers are made from the most durable material, solid 9 ply veneer core plywood, and are English dovetailed for a tight, strong assembly.
3. Plywood panels are randomly matched and selected to provide the look of solid oak – while maintaining the resistance to humidity, splitting and warping that plywood offers.
4. Our UV-cured finish provides an extremely hard and durable surface.
5. By utilizing individual operator quality control, every piece is inspected every step of the way – from start to finish, offering the maximum level of quality control.
6. Laminated tops have internal band construction creating a strong, more durable finish.
7. We offer numerous options in drawer front styles and hardware, as well as an “add-a-drawer” option.
8. Being environmentally responsible is one of our core values and we continuously innovate in our manufacturing process to assure that everything that can be done, is being done.
9. All manufacturing takes place in our 305,000 sq/ft Central Pennsylvania facility.

## Unique Features of Shaker

- ✓ Designed with soft arches and understated lines for a stylish design.
- ✓ Solid red oak round knobs on drawers and doors. (optional pulls available)
- ✓ High pressure laminate tops and oak reverse tapered edges offer additional durability.
- ✓ Defined legs are incorporated into the side panels.

## Standard Savoy Attributes

1. Savoy uses mortise and tenon triple joint construction, glued hardwood dowels, angled screws, cleats, and glued corner blocks. This ensures less repairs than mechanically fastened joints as used on RTA furniture, and eliminates the opportunity for steel fasteners to loosen.
2. Drawers are made from the most durable material, solid 9 ply veneer core plywood, and are English dovetailed for a tight, strong assembly.
3. Plywood panels are randomly matched and selected to provide the look of solid oak – while maintaining the resistance to humidity, splitting and warping that plywood offers.
4. Our UV-cured finish provides an extremely hard and durable surface.
5. By utilizing individual operator quality control, every piece is inspected every step of the way – from start to finish, offering the maximum level of quality control.
6. Laminated tops have internal band construction creating a strong, more durable finish.
7. We offer numerous options in drawer front styles and hardware, as well as an “add-a-drawer” option.
8. Being environmentally responsible is one of our core values and we continuously innovate in our manufacturing process to assure that everything that can be done, is being done.
9. All manufacturing takes place in our 305,000 sq/ft Central Pennsylvania facility.

## Unique Features of Woodcrest

- ✓ Full face frames provide an attractive, upscale look.
- ✓ Solid oak drawer fronts include a raised panel.
- ✓ Tops are matching high pressure laminate for additional durability.
- ✓ Raised panel drawer fronts with brass drawer pulls come standard adding first class detail.

## Standard Savoy Attributes

1. Savoy uses mortise and tenon triple joint construction, glued hardwood dowels, angled screws, cleats, and glued corner blocks. This ensures less repairs than mechanically fastened joints as used on RTA furniture, and eliminates the opportunity for steel fasteners to loosen.
2. Drawers are made from the most durable material, solid 9 ply veneer core plywood, and are English dovetailed for a tight, strong assembly.
3. Plywood panels are randomly matched and selected to provide the look of solid oak – while maintaining the resistance to humidity, splitting and warping that plywood offers.
4. Our UV-cured finish provides an extremely hard and durable surface.
5. By utilizing individual operator quality control, every piece is inspected every step of the way – from start to finish, offering the maximum level of quality control.
6. Laminated tops have internal band construction creating a strong, more durable finish.
7. We offer numerous options in drawer front styles and hardware, as well as an “add-a-drawer” option.
8. Being environmentally responsible is one of our core values and we continuously innovate in our manufacturing process to assure that everything that can be done, is being done.
9. All manufacturing takes place in our 305,000 sq/ft Central Pennsylvania facility.

## Unique Features of Madison

- ✓ Decorative arched bases have convex and concave curves to create a traditional feel.
- ✓ Raised panel drawer fronts add an extra layer of elegance.
- ✓ A variety of hardware options are available to suit the preference of your residents.
- ✓ Tops are high pressure laminate for additional durability.

## Standard Savoy Attributes

1. Savoy uses mortise and tenon triple joint construction, glued hardwood dowels, angled screws, cleats, and glued corner blocks. This ensures less repairs than mechanically fastened joints as used on RTA furniture, and eliminates the opportunity for steel fasteners to loosen.
2. Drawers are made from the most durable material, solid 9 ply veneer core plywood, and are English dovetailed for a tight, strong assembly.
3. Plywood panels are randomly matched and selected to provide the look of solid oak – while maintaining the resistance to humidity, splitting and warping that plywood offers.
4. Our UV-cured finish provides an extremely hard and durable surface.
5. By utilizing individual operator quality control, every piece is inspected every step of the way – from start to finish, offering the maximum level of quality control.
6. Laminated tops have internal band construction creating a strong, more durable finish.
7. We offer numerous options in drawer front styles and hardware, as well as an “add-a-drawer” option.
8. Being environmentally responsible is one of our core values and we continuously innovate in our manufacturing process to assure that everything that can be done, is being done.
9. All manufacturing takes place in our 305,000 sq/ft Central Pennsylvania facility.

# Beachcomber Collection

When it comes to furnishing upscale residence halls and apartment-style housing, nothing makes as stylish a statement as the transitional lines of the Beachcomber Collection. The raised drawer fronts and full face frames will add a unique look to the room.

## Beachcomber. Beauty that stands the test of time.

In addition to the standard features and benefits common to every Savoy collection, the following special features are included throughout the Beachcomber Collection:

**High Pressure Laminate Tops** for unsurpassed durability. (Solid wood tops are available as an option)

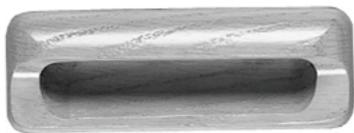

**Solid Wood, Recessed Drawer Pulls** add a sense of warmth. Choose metal pulls as an option.

**Mortise and Tenon Construction** provides strength to outlast standard life expectations saving you time and money.

**Full Face Frames** provide an attractive, homelike design for an upscale look.

**Raised Panel, Solid Oak Drawer Front Design** offer a touch of tradition and sophistication.

## Unique Features of Beachcomber

- ✓ Full face frames with rounded corners provide an attractive, upscale look.
- ✓ Tops are high-pressure laminate with solid oak edges.
- ✓ Drawer fronts are solid oak hardwood with a raised panel.
- ✓ Solid wood recessed drawer pulls come standard and are stained to match the finish.

## Standard Savoy Attributes

1. Savoy uses mortise and tenon triple joint construction, glued hardwood dowels, angled screws, cleats, and glued corner blocks. This ensures less repairs than mechanically fastened joints as used on RTA furniture, and eliminates the opportunity for steel fasteners to loosen.
2. Drawers are made from the most durable material, solid 9 ply veneer core plywood, and are English dovetailed for a tight, strong assembly.
3. Plywood panels are randomly matched and selected to provide the look of solid oak – while maintaining the resistance to humidity, splitting and warping that plywood offers.
4. Our UV-cured finish provides an extremely hard and durable surface.
5. By utilizing individual operator quality control, every piece is inspected every step of the way – from start to finish, offering the maximum level of quality control.
6. Laminated tops have internal band construction creating a strong, more durable finish.
7. We offer numerous options in drawer front styles and hardware, as well as an “add-a-drawer” option.
8. Being environmentally responsible is one of our core values and we continuously innovate in our manufacturing process to assure that everything that can be done, is being done.
9. All manufacturing takes place in our 305,000 sq/ft Central Pennsylvania facility.

Also available in Black  
and Brass

# Contempo Collection (continued)

---

## Unique Features of Contempo

- ✓ Thermally fused  $\frac{3}{4}$ " laminate panels with PVC edge bands.
- ✓ Standard hardware is a chrome recessed pull – other colors are available.
- ✓ Choose from an array of laminate colors, finishes, patterns and combinations.
- ✓ Kick plate base construction.
- ✓ Optional cut-out drawer pulls offer a unique flair.

## Standard Savoy Attributes

1. Savoy uses mortise and tenon triple joint construction, glued hardwood dowels, angled screws, cleats and glued corner blocks. This ensures less repairs than mechanically fastened joints as used on RTA furniture, and eliminates the opportunity for steel fasteners to loosen.
2. By utilizing individual operator quality control, every piece is inspected every step of the way – from start to finish, offering the maximum level of quality control.
3. We offer numerous options in drawer front styles and hardware, as well as an “add-a-drawer” option.
4. Being environmentally responsible is one of our core values and we continuously innovate in our manufacturing process to assure that everything that can be done, is being done.
5. All manufacturing takes place in our 305,000 sq/ft Central Pennsylvania facility.

## Standard Savoy Attributes

1. Savoy uses mortise and tenon triple joint construction, glued hardwood dowels, angled screws, cleats, and glued corner blocks. This ensures less repairs than mechanically fastened joints as used on RTA furniture, and eliminates the opportunity for steel fasteners to loosen.
2. Drawers are made from the most durable material, solid 9 ply veneer core plywood, and are English dovetailed for a tight, strong assembly.
3. Plywood panels are randomly matched and selected to provide the look of solid oak – while maintaining the resistance to humidity, splitting and warping that plywood offers.
4. Our UV-cured finish provides an extremely hard and durable surface.
5. By utilizing individual operator quality control, every piece is inspected every step of the way – from start to finish, offering the maximum level of quality control.
6. Laminated tops have internal band construction creating a strong, more durable finish.
7. We offer numerous options in drawer front styles and hardware, as well as an “add-a-drawer” option.
8. Being environmentally responsible is one of our core values and we continuously innovate in our manufacturing process to assure that everything that can be done, is being done.
9. All manufacturing takes place in our 305,000 sq/ft Central Pennsylvania facility.

# Upholstered Furniture

Each Savoy Lounge Collection is offered with specific design and style considerations in mind and made to coordinate with our many wood furniture collections – perfect for lounges, common areas, and as seating for any room in any environment. Choose from thousands of beautiful and durable fabric swatches and create a designer touch throughout your project.

## Standard Construction. Quality built into every piece.

Our standard features and benefits are common to every Savoy collection and reflect our core commitment to quality construction, durability and long life.

### Sinuous Springs

- Enables the cushions to remain comfortable and hold their shape
- Wire ties join all seat and back springs to eliminate separation
- Double springs are added to the end of every settee and sofa to prevent falling in to the corner

### Double Dowel and Savoy Slot + Keyhole Construction

- Solid plywood and solid hardwood
- Frame is double doweled into front rail

### Extensive Fabric Selection

- Our vast selection of fabrics make our product match your desired look and needs

### Foam

- Solid core foam for added support
- Soft-form foam wrap provides a comfortable feel

### Insulator Material

- Minimizes noise
- Serves as protective barrier between springs and cushions

# Beds & Related

---

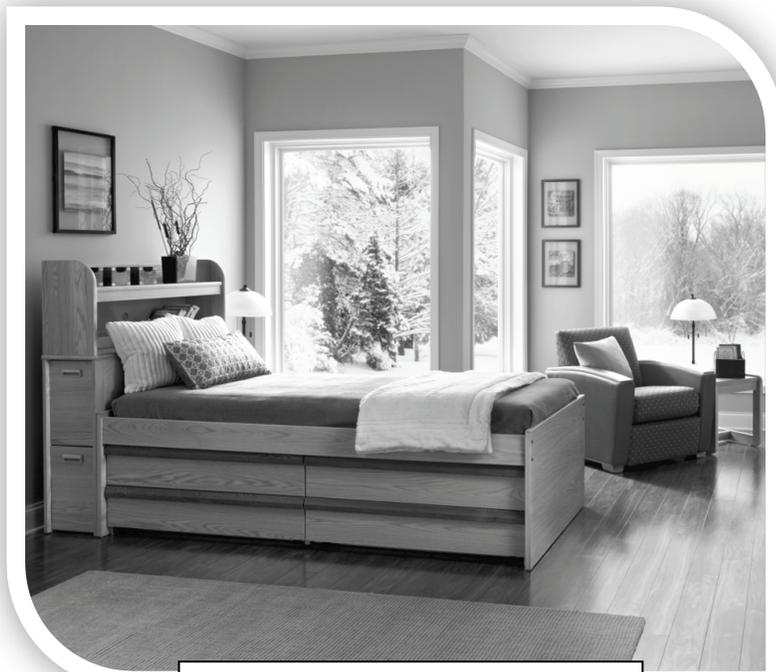

Whether you need Lofted, Bunked, Full Size or Captain's beds, Savoy provides an array of sleeping solutions to accommodate your needs. With the addition of our new line of decorative headboards, you can now turn sleeping areas into restful retreats.

Smart Bed with Nittany Collection

Sedona Smart Bed with Sedona Collection

Homestead Captain's Bed with Bookcase Headboard

By combining the desire for a versatile bunking system with a safe range of seven height adjustments, we have created the Smartest Bed of all. A powerful design, the new Smart Bed by Savoy is fully interchangeable with your existing Versa or Flex-O-Bed.

Savoy Contract Furniture also offers a number of heavy duty beds and storage options which have undergone rigorous testing (3FNE 99-582D).

# Beds & Related (continued)

## Opportunities for Storage

Create an abundance of additional storage space by adding under bed storage units made especially to fit beneath any of our many bed options. A variety of configurations are available to add drawers and/or compartments, each matching your choice of case good collection.

Two drawer chests or any of our stackable units can be placed beneath our Flex, Versa or Metal beds without a loft kit. Double your space by raising the sleeping surface even higher with a loft-kit. Place a desk, dresser, or bookshelves below the bed and free up other space in the room.

## Bunking the Safe Way

Savoy offers many bunkable beds to choose from, each available in our 10 different finish options. Bunking is a smart, space saving choice when it comes to increasing the number of occupants in a space. We always recommend the use of safety and guard rails when bunking, or lofting a bed over 30" high to help prevent accidents. Ladders are also a great way to make those top bunks easier to access. All of these items are available on the following pages and attach easily to any of Savoy's bunkable beds.

## Apartment Style Living

Enhance your resident's experience with a taste of home. Savoy offers an array of beds, headboards and footboards that range from twin to king size and everything in between. Made for style, built to last, these beds provide occupants with one of the things most missed when not at home – more room. Comfortable, inverted seam mattresses are also available in matching sizes.

## Bed & Related

### Bunkable Beds

Safety/Guard Rails are suggested when bunking beds or junior lofting over 30" high. See "*Bed Options & Accessories*", page 119.

#### Smart Bed

Interchangeable with both the Flex-O-Bed and Versa bed, the toolless Smart bed offers a safe range of 7 height adjustments while maintaining a maximum mattress deck height of 29½". Under bed storage options are available within each casegood collection.

# The Power of Technology

## Crafting Options

By combining the use of state-of-the-art equipment with American innovation and manpower, Savoy Contract Furniture has the unique ability to provide nearly limitless options when it comes to customization.

Mirrors, locks, hooks, fabric & vinyl, hardware, electrical components and finishes are just some of the items that can be incorporated into your furniture.

Share in our ideas, or bring your own to the table. Savoy has been providing innovative furniture solutions for over 60 years. Every piece is crafted with time honored technique incorporated with modern day technology.

## Create Space

When a small area needs to function in a variety of different ways for occupants, maximizing space can be an ongoing challenge. Create multi-functional areas by adding mirrors, hooks or adjustable shelves. Make the area appear larger by adding organizational features like desk top electrical outlets or use a light colored finish. Personal space can become even more limited in shared rooms, so locking mechanisms are a simple way to give students a place to safely storing important items.

## Style

The design of your furniture is only the beginning. The finish (or fabric) that completes the piece is going to largely shape the style of it. This is why we always keep finish and fabric samples on-hand and ready to send to you. Shop our catalog, website, or talk to your sales consultant, and see the wonderful variety of options available for completing your design.
