SW6240	ALL-WEATHER HAILER PA SYSTEM - Whether you need a temporary means of transmitting announcements or a low cost, rapidly deployable package for disaster relief teams, the AmpliVox All-Weather Hailer does it all. The entire system contains a communication case and a set of speakers that can be easily transported and set up by one person. All electronics are housed in a rugged, sealed, fully weatherproof carrying case. Use your own 2-way radios (2 are needed) or the AmpliVox MURS radios for the communication devices. One 2-way radio acts as the receiver and is located inside of the weatherproof case connected to the external antenna and speakers. Using the other 2-way radio as a microphone, you can transmit messages up to 2 miles away. The rest of the system consists of a flex antenna, rechargeable battery, integral charger, a 110VAC power supply, and a separate PA horn / speaker assembly that attaches to an aluminum contractor grade, wide frame, extension leg type tripod. Multiple stations can be setup throughout an area and activated simultaneously as a group.	\$2,620.00	41.50%	\$1,532.70
S1920	Tripod Case - A must for transporting full-size tripods, this rugged padded nylon bag provides ample room for two delux tripods, six mic stands or various other hardware. Features an adjustable shoulder strap with metal 'dog leash' for fast removal. Also includes hand straps for convenient handling. Two heavy gauge metal pulls are attached to the zipper so that the bag can be zipped at the center. All seals are crafted with corded piping that gives the bag its rigid shape.	\$54.00	41.50%	\$31.59

SW664	Mobile Line Array PA System is a 50-watt, totally wireless, highly intelligible, lightweight vertical loudspeaker system for general PA applications in areas that are not equipped with a PA system. The unique, horizontal mount, 4-horn, line array configuration maximizes sound dispersion over broad areas, producing consistent tonal balance with less volume drop-off over longer distances. The four horns broadcast highly intelligible voice announcements and reinforces sound to make it louder to people over large wide areas. Perfect for large outdoor venues such as ball fields, parks, open air arenas, and street fairs. The system can also be used indoors in loud environments such as manufacturing facilities. During emergencies, the quick to set-up battery powered design allows you to broadcast emergency information even during power outages.	\$1,843.00	41.50%	\$1,078.16
S600R	MINI-MEG 10-Watt Megaphone - Our high quality sound in a smaller size, the 10 Watt Mini-Meg can cover up to 100 yards and groups of up to 50 people making it the perfect megaphone for smaller groups and venues.
